Grant, 2024-08-15 In the 1970s British filmmaker Ken Russell 1927-2011 quickly gained a reputation as the enfant terrible of British cinema His work like the man himself was regarded as flamboyant excessive and unrestrained Inheriting and yet subverting the venerable mantle of British documentary Russell did not fit comfortably in the context of a national cinema dominated by sober realism His distinct style combined realism with fictional devices often in audacious ways to create the biographical docudrama In Ken Russell Interviews the filmmaker discusses his colorful life and career from his youth fascinated by movies to his early work in television through his feature films and his retreat to home movies Russell first drew notice in the early 1960s for a series of unorthodox biographical films about artists and composers In these early television films Russell was already exhibiting an unconventional approach to biography that combined historical fact aesthetic interpretation and outlandish personal vision After the critical and commercial success of his adaptation of D.H. Lawrence's *Women in Love* Russell continued to explore the related themes of art sexuality and music in *The Music Lovers* *The Boy Friend* *Mahler* *Tommy* and *Lisztomania* His career foundered after *Valentino* however and he found it increasingly difficult to get funding Toward the end of his career Russell was restricted to making movies with his own equipment using

family and friends as actors with virtually no budget Throughout the ups and downs of his career Russell alternately embraced and resented his characterization as an enfant terrible While Russell s comments are often meant to provoke and shock he is articulate when discussing his films his approach to cinema music and composers and of course his critics

The essays discuss literary figures such as Rousseau, Mallarmé, Joyce, Shakespeare, and Kafka. Comprising pieces spanning Derrida's career, the collection includes a substantial new interview with him on questions of literature, deconstruction, politics, feminism, and history. Derek Attridge provides an introductory essay on deconstruction and the question of literature and offers suggestions for further reading. These essays examine the place and function of literature in Western culture. They highlight Derrida's interest in literature as a significant cultural institution and as a peculiarly challenging form of writing with inescapable consequences for our thinking about philosophy, politics, and ethics. This book should be of interest to undergraduates and academics in the field of literary theory and criticism and continental philosophy.

Larry Bond's First Team: Soul of the Assassin Larry Bond, Jim DeFelice, 2008-05-13

When the CIA is tipped off that one of its most wanted men is going to be in Bologna, Italy, Ferg and the First Team are tasked to apprehend him at any cost but under no circumstances can Italian authorities be made aware. There is just one problem: no one has seen the man in over ten years, and he is only known by a decades-old code name: T Rex. This assassin has been involved in the murder of at least a dozen prominent Western leaders, and the grapevine reveals he's been called out of a long, silent hiding for one more major strike. Ferg and the Team arrive in Italy where they recruit the help of a beautiful French Samaritan named Jane Foucoult. Her knowledge leads them on a search that goes behind the scenes of a conference on genetics and onto a trail to a sinister Russian scientist, a leader at the forefront of biological weapons research. Splitting the team in two, Ferg and Guns go after the ghosts they speculate could be T Rex, and Rankin and Thera get on the scientist's tail. But what they uncover is way beyond a single assassination attempt, and they find themselves about to go head-to-head with the most lethal terrorist cells known to man.
