Hope in the Thought of Jacques Ellul Lawrence J. Terlizze, 2005-10-30 Hope expresses more than an area of concentration in Ellul s thought it is the central idea that binds his disparate elements together Ellul believed that at this moment of history the world since 1945 hope must preoccupy our thinking and lives To understand hope we must first comprehend its absence This entails discerning what causes the absence of hope namely the world s embrace of technique and the abandonment of God Ellul also rejected these as a positive affirmation He wanted to make a firm distinction between reality and truth He affirmed modern abandonment as a realistic fact as an accurate analysis of the present condition not as an affirmation of the truth Hope is truth in Jesus Christ but truth must be asserted against these harsh facts He used facts to incite hope in believers to shake their complacency and to realize their actual condition in the world The idea of hope in the thought of Jacques Ellul can only be properly understood in light of dialectic struggle between negatives which amount to factual representations of the modern world and positives through

which hope exerts itself in the face of these facts From this tension will issue personal resolve Technique has brought the world to great collective heights and achievements but this has come at the expense of personal ends and meaning Ellul attempted to bridge this gap by asserting individual meaning against the aggregated progress of technique without destroying the gains made by collective advance This represents the central dilemma in Ellul's thought how does one maintain meaning and personal aims in a world founded on corporate necessity from the Introduction *Arsenal: Prayers Declarations and Decrees That Will Move Heaven and Shake Hell* Apostle Paula Ferguson, 2025-05-15 *Arsenal Prayers Declarations and Decrees That Will Move Heaven and Shake Hell* By Apostle Paula Ferguson You were never meant to fight life's battles empty handed Victory isn't accidental it's enforced *Arsenal Prayers* is your personal spiritual vault packed with prayers declarations and decrees designed to tear down strongholds unlock heaven's favor and send the forces of hell into retreat Every page is a weapon Every word is a sword Every decree is an act of divine warfare In this powerful handbook you will be equipped to Destroy demonic cycles of delay defeat sickness and poverty Release angelic armies and divine acceleration into your life Cancel every word curse setback and demonic agenda Command heaven's promises to manifest with authority Walk in boldness abundance healing and unstoppable favor These are not soft prayers for casual faith These are strategic weapons for serious believers those who refuse to settle for less than everything God has promised If you are ready to Speak life into dead situations Unlock generational blessings Shake the heavens with your faith Push back the forces of darkness Secure the victory you were born to walk in Then *Arsenal Prayers* is not optional it's essential Pray it Decree it Watch heaven move and hell tremble Arm yourself with *Arsenal Prayers* because your breakthrough isn't coming by chance it's coming by decree **Prayers to my Guardian Angel** Tiffany A. Tillich Marcel Simone Weil Emmanuel Levinas and Jean Louis Chr tien to provide an interpretation of what is meant by the passivity and self annihilation of the praying self suggesting an apophatics of the personality Pattison pays particular attention to the question of language and the implications of the role given to silence in traditional texts arguing that language remains a defining element of the human God relationship and that silence is not to be construed as the negation of language but as the revelation of the depth of language itself The basic structure of prayer is shown to be implicitly eschatological oriented toward a coming kingdom of justice and peace while at the same time expressing a deep desire for ontological homecoming a tension manifest in respectively Levinas and Heidegger On Pattison s reading prayer calls for and develops a particular orientation of the self toward existence corresponding to the virtue of humility long understood as the basic Christian virtue This is shown to be in tension with modernity s commitment to strong versions of autonomy However the choice of humility is not presented as the reinstatement of religious heteronomy but as a free choice of the praying self
