Rubian Politics In Transition Institutional Conflict In A Nascent Democracy:

The Jarring Road to Democratic Inclusion Aviad Rubin, Yusuf Sarfati, 2016-08-30 This edited volume brings together chapters that offer theoretically pertinent comparisons between various dimensions of Israeli and Turkish politics. Each chapter covers a different aspect of state society interactions in both countries from a comparative perspective including the public role of religion, political culture, women rights movements, religious education, religious movements, marriage regulation, labor market inclusion, and ethnic minorities. Israel and Turkey share significant similarities such as state formation under nationalist ideologies, familiarity with democratic governance since the 1940s, strong affiliation with the West, recent resurgence of religious parties, ongoing conflict with ethno national minority groups that challenge the dominant national project, contemporary popular protests against the incumbent regime, and recent serious erosion of democratic rights. At the same time they differ on major variables such as size, majority religion, geopolitical location, level of economic development, policy towards ethnic minorities, and institutional arrangements to managing the state religion relations. The presence of these differences in face of common backgrounds facilitates analytically grounded comparisons in a host of dimensions. Therefore, employing a case oriented comparative method, this book provides historically interpretative and causally analytic accounts on the politics of both societies. The contributions reveal the dynamic and complex rather than one dimensional and linear nature of political processes in both settings. This empirically rich and theoretically sophisticated volume should contribute to a better understanding of these two important states and no less important stimulate new directions for comparative research especially on Middle East regimes, social movements, and democratization. **Security, Development and the Fragile State** David Carment, Stewart Prest, Yiagadeesen Samy, 2009-09-10 This book reconceptualises the notions of state failure and fragility to provide a new policy relevant framework on these issues. In a wide ranging treatment drawing on large samples and case studies, the authors create an alternative model of the fragile state, emphasizing the multidimensional, multifaceted nature of the fragile state problematique. *Post-Soviet Political Order* Barnett Rubin, Jack Snyder, 2002-11-01 *Post Soviet Political Order* asks what is shaping the institutional pattern of the post Soviet political order, what the new order will be like, what patterns of conflict are emerging, and what can be done about stabilising the region. In considering these questions, the contributors converge on four common themes: the institutional legacy of empire, the social processes unleashed by imperial collapse, patterns of bargaining within and between states to resolve conflicts arising out of the imperial collapse, the impact of the wider international setting on the pattern of post imperial politics. Focusing on the former Soviet Union and Eastern European countries, the contributors show how strong state institutions are essential if conflict and political instability are to be avoided. *Armed Conflicts in South Asia 2009* D. Suba Chandran, P R Chari, 2020-11-29 The essays in this volume are concerned with armed conflicts in South Asia and the conflict management efforts made to mitigate them. Articles in the volume study conflict management, look at the direction
