## **Rudolf Steiner:**

**Rudolf Steiner** Roy Wilkinson, 2020-12-16 In many ways Rudolf Steiner is the forgotten genius of recent times A powerful thinker who developed an intricate spiritual philosophy based on his ability to research and perceive spiritual dimensions Steiner is perhaps best known today for his legacy to education medicine and agriculture But behind these practical manifestations of his ideas lies a profound teaching which he called a science of the spirit or anthroposophy In these wonderfully succinct summaries of Steiner's thought Roy Wilkinson introduces us to aspects of this spiritual philosophy The twelve chapters are on the following themes Rudolf Steiner herald of a new age reincarnation and karma the spiritual nature of the human being the development of human consciousness evolution of the world and humanity relationships between the living and the dead forces of evil the modern path of initiation life between death and rebirth the spiritual hierarchies the philosophical approach to the spirit the mission of Christ      **Compiled Lectures by Rudolf Steiner** Rudolf Steiner, 2006

**Art as Spiritual Activity** Rudolf Steiner, 1997 This book introduces a new way for thinking about creating and viewing art Rudolf Steiner saw his task as the renewal of the lost unity of science the arts and religion thus he created a new cognitive scientific and religious art in anthroposophy The implications of his act recognized by such diverse artists as Wassily Kandinsky and Joseph Beuys are only now coming fully to light In his thorough introduction of more than a hundred pages Michael Howard takes readers through these thought provoking chapters Is Art Dead To Muse or Amuse Artistic Activity As Spiritual Activity The Representative of Humanity Beauty Creativity and Metamorphosis New Directions in Art Lectures include The Aesthetics of Goethe's Worldview The Spiritual Being of Art Buildings Will Speak The Sense Organs and Aesthetic Experience The Two Sources of Art The Building at Dornach The Supersensible Origin of the Arts Truth Beauty and Goodness Christ Ahriman and Lucifer Plus a bibliography and index      *Rudolf Steiner* Gary Lachman, 2007-02-01 The first truly popular biography of the influential twentieth century mystic and educator who while widely known for founding the Waldorf schools and other educational and humanitarian movements remains a mystery to many who benefit from his ideas People everywhere have heard of Waldorf schools Biodynamic farming Camphill Villages and other innovations of the Austrian philosopher Rudolf Steiner 1861-1925 Indeed Steiner as an architect artist teacher and agriculturalist ranks among the most creative and prolific figures of the early twentieth century pioneering work in alternative education holistic health and environmental research While his accomplishments are felt all over the world few people understand this unusual figure Steiner's own writings and lectures fill several bookcases intimidating those who would like to know more Works on Steiner are often dense and insider in tone further deterring the curious No popular biography written by a sympathetic but critical outsider has been available Gary Lachman's *Rudolf Steiner* provides this missing introduction Along with telling Steiner's story and placing Steiner in his historical context Lachman's book presents Steiner's key ideas in a readable accessible manner In particular Lachman considers the spread of Steiner's most popular projects which include Waldorf schools one of

the leading forms of alternative education and Biodynamic farming a popular precursor to organic farming He also traces Steiner's beginnings as a young intellectual in the ferment of fin de siècle culture to his rise as a thought leader within the influential occult movement of Theosophy to the founding of his own metaphysical teaching called Anthroposophy Finally the book illustrates how Steiner's methods are put into practice today and relates Steiner's insights into cosmology to the work of current thinkers Rudolf Steiner is a full bodied portrait of one of the most original philosophical and spiritual luminaries of the last two centuries and gives those interested in the history of ideas the opportunity to discover one of the most underappreciated figures of the twentieth century

The New Essential Steiner Rudolf Steiner,Robert A. McDermott,2009-10 12 lectures Hamburg May 5 31 1908 CW 103 During Pentecost 1908 seven years after he had given the world his book Christianity As Mystical Fact and the first intimation of the consequences of his Christ experience Rudolf Steiner began his great work of renewing humanity's understanding of the Mystery of Golgotha and its meaning for human and earthly evolution Accordingly he turned to the deepest most spiritual of the Gospels that of the initiate St John In this lecture course readers will find that the incarnation death and resurrection of the Divine Word or Logos reveals the mission of the Earth Love We learn of the mysteries behind Lazarus resurrection the I AM sayings and the seven degrees of initiation We come to understand that the Gospel of St John is a continuing spiritual presence to be recalled meditated and permeated with one's own life In doing so we realized that our purpose and that of all humankind is to become the Virgin Sophia a receptacle for the Holy Spirit All of Steiner's work as Marie Steiner writes in her introduction was to pave the way to Christ Indeed at the conclusion of these lectures Rudolf Steiner said It will come to be understood that Christianity is only beginning its influence and will fulfill its real mission only when it is understood in its true spiritual form The more these lectures are understood in this sense the better they will be understood as they were intended This volume is essential if one is to truly understand Rudolf Steiner's understanding of esoteric Christianity and its place in the world today and in the future This volume is a translation of Das Johannes Evangelium GA 103

*Rudolf Steiner, Fragment of a Spiritual Biography* Sergei O. Prokofieff,2020-11-16 Underlying Sergei O Prokofieff's life's work was a fundamental research theme to which he returned to repeatedly the

individuality of Rudolf Steiner as manifested through his past incarnations on Earth Beginning in 1982 inspired by a visit to an exhibition on The Epic of Gilgamesh Prokofieff planned a full scale spiritual biography with the intention of finding an answer to the question Who is Rudolf Steiner In a sequence of five past incarnations as indicated by Steiner himself and culminating in the life of Rudolf Steiner Prokofieff searched for the inner thread between the six stages of this great all encompassing life His intention was to find not only the outer connections in this sequence but also the deeper more esoteric stream that offers the key to the unique significance of this individuality In 1984 Prokofieff began to write the first chapter about Rudolf Steiner s incarnation as Enkidu in Sumer Sadly many obstacles in his path were to prevent him finalising the project However the author returned to the book in his final months preparing a Preface that outlines its conception together with a summary chapter on Rudolf Steiner s evolutionary journey This precious fragment of a biography features valuable additional material including a full introduction to the relationship of the anthroposophical movement to other occult streams of esoteric Christianity and their Masters a detailed spiritual scientific interpretation of the Epic of Gilgamesh that establishes Rudolf Steiner s connection with the being of Jesus of Nazareth and an exploration of Steiner s relationship to the Nathan soul the Luke Jesus child Serious students of anthroposophy will welcome these final writings from the pen of one of Rudolf Steiner s most faithful and insightful disciples

#### **The Fall of the Spirits of Darkness** Rudolf Steiner,1993

Speaking at a time of intense war in Europe Rudolf Steiner reveals the spiritual roots of the crises of our times and the means by which we can overcome them Since 1879 Steiner tells us that backward angels or spirits of darkness who were forced out of the heavens and made their abode on Earth following their defeat in a forty year battle with the Archangel Michael have influenced human minds It is now possible for human beings to awaken more consciously to the truth of these profound changes and thus inwardly counter the fallen spirits influences We can come to the realization that definite spiritual causes lie behind earthly events in our rapidly changing times In these fourteen lectures given at the end of 1917 following four years of war in Europe Steiner speaks on the complex spiritual forces behind the World War I humanity s attempts to build theoretically perfect social orders and the many divisions and disruptions that would continue on Earth into our own time Humanity in general was asleep to the fact that fallen spirits cast from the spiritual worlds had become intensely active on Earth This manifested mainly in human thinking and perception of the surrounding world However the defeat and fall of these spirits also ensured that a science of the spirit would always be available to humanity
