Death and the Author David Ellis, 2008-07-17 At the heart of *Death and the Author* is a dramatic account of D H Lawrence's desperate struggle against tuberculosis during his last days and of certain often bizarre events which followed his death Around this narrative David Ellis offers a series of reflections about what it is like to have a disease for which there is no cure the appeal of alternative medicine the temptation of suicide for the terminally ill the diminishing role of religion in modern life the institution of famous last words the consequences of dying intestate and so on These are clearly not the most immediately appealing of topics but they have an obvious significance for everyone and the treatment of them here is by no means lugubrious even if in the nature of the case most of the jokes fall into the category of gallows humour Lawrence is the main focus throughout but there are extended references to a number of other famous literary consumptives such as Keats Katherine Mansfield Kafka Chekhov and George Orwell Not a long book *Death and the author* is divided into three parts called Dying Death and Remembrance and is made up of twenty two short sections Although it incorporates a good deal of original material the annotation has been kept deliberately light The aim has been to combine the drama of events a good story with a consideration of matters which must eventually concern us all and to present the material in a lively and accessible form
