Rules For The Traditional Family:

Rules for the Traditional Family Nicholas Puiia, 1988-01-01 *Traditional Family Values and Substance Abuse* Mary Cuadrado, Louis Lieberman, 2012-12-06 Based on findings from a sample of nearly 1 100 Puerto Ricans living in the New York area this book posits that adhering to traditional cultural values for example the family has the socially desirable consequence of discouraging such deviant behaviors as substance abuse The authors conclude that promoting specific values will not prevent certain individual and social ills rather promoting a sense of tradition itself is needed Family Rules Jeannette Lofas, 1998 Lofas incorporates lessons for making house rules work and shows how to establish guidelines and enforce them from the beginning **Chinese Law** Jianfu Chen, 2023-09-25 Law in particular its actual functioning in any given society is above all a part of the culture of that society a part of its historical political social and intellectual creation If a black letter approach towards law in the West is under increasing criticism it is particularly unhelpful if not misleading in understanding Chinese law its nature and developments Rather to understand Chinese law its nature and developments we need to examine the Chinese legal traditions the prevailing political and economic situations Party policies on economic reform and tolerance towards political liberalisation and scholarly discussions and debate This is the approach of this book Its aim is to put Chinese law in context to outline the nature and present status of its development and to analyse the meaning of the law within the Chinese context However this monograph does not ignore the practical needs for determining the precise contents of the black letter law either A study of this kind necessarily involves a process of topic selection However to avoid over generalisation and over simplification it also demands a considerable degree of comprehensiveness in coverage For this reason the book covers what the Chinese scholars term fundamental law and basic branches of law while other topics are covered because they are either crucial for the understanding of the law such as legal traditions in China or of practical importance such as foreign investment and trade Chapter One provides an historical background to traditional Chinese legal culture and modern law reforms The historical background of specific topics is examined as the topics are analysed in the following chapters Chapter Two deals with the changing fate of law under Communist rule Its focus is on the underlying factors and justifications for such changes Chapter Three introduces discussions on specific branches of law from public law constitutional law law making administrative law criminal law criminal procedure law to private law civil law family law contracts law on business entities and law on foreign investment and trade Each of these is dealt with in a separate chapter After the analysis of these substantial topics certain conclusions are drawn which attempt to define the nature of Chinese law and its developments in present day China *Family Life, Family Law, and Family Justice* Marsha Garrison, 2022-10-28 *Family Life Family Law and Family Justice* Tying the Knot combines history social science and legal analysis to chart the evolution and interdependence of family life and family law portray current trends in family life explain the pressing policy challenges these trends have produced and analyze the changes in family law that are essential to

meeting these challenges The challenges are large and pressing Across the industrialized West nonmarital birth relational stress multi partner fertility and relationship dissolution have increased producing a dramatic rise in single parenthood poverty and childhood risk This concentration of familial and economic risk accelerates socioeconomic inequality and retards intergenerational mobility Although the divide is most pronounced in the United States the same patterns now affect families throughout the Western world Across the European Union there are 9.2 million lone parents and just under half of their families live in poverty Tying the Knot demonstrates how today's family patterns are deeply rooted in long standing class based differences in family life and explains why these class based differences have accelerated It explains how the values that guide family law development inevitably reflect the world in which families live and develops a new family law capable of meeting the needs of twenty first century families The book will be of considerable interest to family specialists from a number of fields including law demography economics history political science public health social policy and sociology

The Traditional Chinese Clan Rules Hui-chen Wang Liu, 1959 **European Family Law Volume I** Jens M.

Scherpe, 2016-01-29 The Impact of Institutions and Organisations on European Family Law looks at the impact that institutions and organisations have had and continue to have on European family law In many ways the chapters in this volume provide the easiest explanation for the existence of a European family law While there is no European body that could actually legislate definitively on family law even the European Union has no such mandate there are still some obvious institutions that have a very direct impact on European family law These can be divided into two groups namely those that have a direct impact such as the European Court of Human Rights and the European Union and those that have an indirect impact such as the Commission on European Family Law CEFL the Council of Europe and the International Commission on Civil Status ICCL CIEC as well as the private international law instruments of the Hague Conference HCCH and the EU Together with religion all of these institutions are contributing to the creation of a European family law This book and the others in the set will serve as an invaluable resource for anyone interested in family law It will be of particular use to students and scholars of comparative and international family law as well as family law practitioners Christianity and Family Law John Witte, Jr, Gary S. Hauk, 2017-10-12 The Western tradition has always cherished the family as an essential foundation of a just and orderly society and thus accorded it special legal and religious protection Christianity embraced this teaching from the start and many of the basics of Western family law were shaped by the Christian theologies of nature sacrament and covenant This volume introduces readers to the enduring and evolving Christian norms and teachings on betrothals and weddings marriage and divorce women's and children's rights marital property and inheritance and human sexuality and intimate relationships The chapters are authoritatively written but accessible to college and graduate students and scholars as well as clergy and laity While alert to the hot button issues of sexual liberty today the contributing authors let the historical figures speak for themselves about what Christianity has and can contribute to the protection and guidance of

our most intimate association **The Transformation of Family Law** Mary Ann Glendon, 1989 Mary Ann Glendon offers a comparative and historical analysis of rapid and profound changes in the legal system beginning in the 1960s in England France West Germany Sweden and the United States while bringing new and insightful interpretation and critical thought to bear on the explosion of legislation in the last decade Glendon is generally acknowledged to be the premier comparative law scholar in the area of family law This volume which offers an analytical survey of the changes in family law over the past twenty five years will burnish that reputation Essential reading for anyone interested in evaluating the major changes that occurred in the law of the family And of serious interest to those in the social sciences as well James B Boskey Law Books in Review Poses important questions and supplies rich detail Barbara Bennett Woodhouse Texas Law Review An impressive scholarly documentation of the legal changes that comprise the development of a conjugally centered family system Debra Friedman Contemporary Sociology She has painted a portrait of the family in which we recognize not only ourselves but also unremembered ideological forefathers It sends our thoughts out into unexpected adventures Inga Markovits Michigan Law Review *Women in Muslim Family Law* John L.
