Runaway Religious In Medieval England C 1240 154:

Runaway Religious in Medieval England, C.1240-1540 F. Donald Logan,2002-05-16 The runaway religious were monks canons and friars who had taken vows of religion and who with benefit of neither permission nor dispensation fled their monasteries and returned to a life in the world usually replacing the religious habit with lay clothes No legal exit for the discontented was permitted religious vows were like marriage vows in this respect until the financial crisis caused by the Great Schism created a market in dispensations for priests in religious orders to leave take benefices and live as secular priests The church therefore pursued runaways with her severest penalty excommunication in the express hope that penalties would lead to the return of the straying sheep Once back whether by free choice or by force the runaway was received not with a feast for a prodigal but in a rite of stark severity with the imposition of penalties deemed suitable for a sinner

Women in England in the Middle Ages Jennifer Ward,2006-10-12 Medieval women faced many of the problems of their modern counterparts in bringing up their families balancing family and work and responding to the demands of their communities Of many women in the period of a thousand years before 1500 we know little or nothing though their typical ways of life on farms or in the towns can be reconstructed with accuracy from a variety of sources We know more about a far smaller number of elite women including queens such as Eleanor of Aquitaine and Margaret of Anjou noblewomen whose characters and attitudes can be sensed directly or indirectly and a variety of religious women Literary sources help flesh out real attitudes such as those of Chaucer s Wife of Bath Jennifer Ward shows the life cycle of medieval women from birth via marriage and child rearing to widowhood and death She also brings out the slow changes in the position of women over a millennium

Hospitaller Women in the Middle Ages Anthony Luttrell,Helen J. Nicholson,2017-05-15 This volume brings together recent and new research with several items specially translated into English on the sisters of the largest and most long lived of the military religious orders the Hospital of St John of Jerusalem In recent years there has been increasing scholarly interest in women s religious houses during the Middle Ages with particular focus on the problems which they faced and the social needs which they performed The military religious orders have been largely excluded from this interest partly because it has been assumed that women played little role in religious orders with a predominantly military purpose Recent research has shown this to be a misconception Study of the women members of these orders enables scholars to gain a deeper appreciation of the nature of hospitaller and military orders and of the role of women in religious life in general The papers in this volume explore the roles which the Hospitaller sisters performed within their order examine the problems of having men and women living within the same or adjoining houses study relations between the order and the patrons of its women s houses and consider the career of a prominent
