Rural Household Studies in Asia ,1980 **Rural Household Studies in Asia** Hans P. Binswanger,1980 Conference report on rural area household studies in Asia outlines methodological and social and cultural anthropology perspectives of home economics such as nutrition diets of infants time budget work at home leisure child labour demographic aspects and family behaviour marriage and fertility etc Bibliography diagrams graphs and statistical tables Conference held in Singapore 1976 aug **Labour in Southeast Asia** Becky Elmhirst,Ratna Saptari,2004-05-07 In seeking to provoke debate the book reveals the variety of experiences evident in countries and regions marked by capitalist and post socialist regulatory frameworks and contrasting labour regimes histories and cultures The contributions show the importance of critically examining both the complex nature of global local links and the particular ways economic processes are around the themes of labour regimes labour processes labour mobility and labour communities the essays show how economic development is not only shaped by market forces but is also interlocked in systems of meaning *Rice Research in Asia* Robert Eugene Evenson,Robert W. Herdt,Mahabub Hossain,1996 In order to achieve economic efficiency research organizations have established rigorous quantitative methods for priority setting One such organization the Rockefeller Foundation has drawn on this report to help determine the research goals it should emphasize in its funding A review of the problem of priority setting is presented followed by a discussion of approaches that have been used previously Several chapters demonstrate how a number of areas of plant science research have contributed to gains in rice productivity and also assess the current challenges of genetic improvement and pest control The economic framework for priority setting and previous methods are reviewed followed by a series of country case studies which provide more practical applications *Capital and Knowledge in Asia* Heidi Dahles,Otto van den Muijzenberg,2003-09-02 This book focuses on the key role played by producer services in shaping new business areas and new patterns for social mobility and their interdependence with the State and the emergence and flourishing of the new professions International Journal of Afro-Asian Studies ,2011-02-11 **Asian Population Studies Series** ,1992 *A Home Divided* ,1993-12 A challenge to economic theories that view the household as a harmonious unit with a single decision maker this book shows that in the Third World the household is an arena of conflict marked by inequality and negotiation over income and expenditures Dwyer and Bruce s introduction is followed by eleven field studies four in Asia four in Africa and the Middle East and three in the Caribbean and Central America These twelve essays by economists sociologists anthropologists and demographers provide a cogent analysis of household structure dynamics and women s bargaining context This book will be of interest not only to specialists in gender studies but also to ethnologists and other social scientists *Women and Households in Indonesia* Juliette Koning,Marleen Nolten,Janet Rodenburg,Ratna Saptari,2013-11-19 Critically examines the usefulness of the household concept within the historically and culturally diverse context of Indonesia exploring in detail the position of women within and beyond domestic arrangements

So far classical household and kinship studies have not studied how women deal with two major forces which shape and define their world local kinship traditions and the universalising ideology of the Indonesian regime which both provide prescriptions and prohibitions concerning family marriage and womanhood Women are caught between these conflicting notions and practices How they challenge or accommodate such forces is the main issue in this book **The End of the Peasantry in Southeast Asia** R.E. Elson, 2016-01-13 This book analyses the changing context and conditions of production and livelihood amongst Southeast Asia's peasants since the beginning of the nineteenth century It argues that with demographic growth and the nineteenth century development of great global markets based on small scale production the size and economic significance of peasantries throughout the region was magnified However such changes brought with them new forces stronger states more regular legal systems a revolution in communications intensive commercialisation which themselves worked to undermine the foundations of peasant society and eventually to transform peasants into farmers workers and citizens
