Russia And Soviet Union Worlds Political Hotspots:

Hot Spot: North America and Europe Joseph R. Rudolph Jr., 2008-06-30 Even in the relatively serene world of North America and Western Europe numerous conflicts with the propensity for sustained political violence are carried out by domestic groups with alarming regularity This in depth volume explores conflicts and potential hot spot areas in these regions from anti globalization protests to immigration politics to the Basque provinces and the ETA Coverage is divided into three regions the established democracies of the U S Canada and Western Europe the democratizing countries of post communist Europe and the more volatile region encompassing Russia the Balkans the Causasus and Post Soviet Eastern Europe for a greater understanding of geographic interrelationships This comprehensive volume is a first stop reference source for the most significant political cultural and economic conflicts in North America and Europe today *Power through Geography: The Foundations of Geopolitics and World Politics* Boreas M.L. Saage, Power through Geography offers a comprehensive analysis of how geographical factors fundamentally shape global power dynamics and international relations This detailed examination explores the intricate relationship between physical space and political influence in the modern world system The book methodically unpacks how Political Geography serves as the foundation for understanding complex geopolitical realities from resource distribution to territorial conflicts Readers will gain insight into how mountains rivers coastlines and climate patterns create strategic advantages or vulnerabilities that directly impact a nation s position in World Politics Divided into five substantive sections the work begins by establishing the theoretical foundations of Geopolitics examining how geographical factors function as power resources and tracing the historical evolution of geopolitical thinking The analysis then expands to explore the spatial dimensions of global politics including continental power blocs maritime control and border regions as flashpoints of tension Particularly relevant to contemporary debates the book dedicates significant attention to the Politics of Isolationism contrasting isolationist strategies with expansionist approaches and multilateral frameworks This section provides valuable context for understanding current nationalist movements and their geographical underpinnings The critical role of resources in geopolitical calculations receives thorough treatment with focused analysis of energy security water politics and agricultural land as sources of power and conflict The book concludes with practical recommendations for policymakers strategists and analysts seeking to navigate an increasingly complex geopolitical landscape Rich with data visualizations including charts on resource distribution defensive topography and conflict patterns this work provides both theoretical depth and empirical evidence to support its analysis of how geography continues to shape the fundamental power structures of our interconnected world *Conflict Hot Spots* Alex Braithwaite, 2016-05-23 Militarized conflicts between states appear to occur repeatedly in the same geographic regions Both World Wars and a series of interstate disputes in the post Cold War system had their origins in the Balkans region of Eastern Europe This study introduces the concept of a conflict hot spot to the broader empirical literature on conflict processes It

devotes considerable time to identifying the common causes and consequences of conflict hot spots across many regions globally offering a theoretical and empirical contribution to the emerging literature on the spatiality of conflict processes Rather than merely controlling for spatial dependence between episodes of conflict the book incorporates this spatial dependence within a series of models of conflict behaviours and is therefore able to directly model the process of conflict diffusion

The Concertation Impulse in World Politics Andrew F. Cooper, 2023-11-30 This book unravels the centrality of contestation over international institutions under the shadow of crisis Breaking with the widely accepted image in the mainstream US centric literature of an advance of global governance supported by pillars of institutionalized formality Andrew Cooper points to the retention of a habitual impulse towards concertation related to informal institutionalism Rather than endorsing the view that world politics is moving inexorably towards a multilateral rules based order he places the onus on the resilience of a hierarchical self selected concert model that combines a stigmatized legacy with the ability to reproduce in an array of associational formats Relying for conceptual guidance on the recovery of a valuable component in the intellectual contribution of Hedley Bull a compelling case is made that concertation represents a fundamental institution as a peer competitor to multilateralism In effect the debate over institutional design is recast away from an emphasis on utilitarian maximization towards a wider set of cardinal and highly contested questions the nature of rules at the global level the salience of institutional clubs and the meaning and impact of in equality and cooperation coordination among states across the incumbent West non incumbent Global South divide

Jihadism in the Russian-Speaking World Danis Garaev, 2022-08-29 This book contends that the discourses of jihadism in Russia s North Caucasus and their offshoots in other parts of the Russian Federation are not just reflections of jihadi ideologies that came from abroad rather that post Soviet jihadism is a phenomenon best understood when placed in the broader cultural environment in which it emerged an environment which comprises the North Caucasus the whole of Russia and beyond It examines how post Soviet jihadism is also part of global processes in this case global jihadism explores how post Soviet jihadism bears the imprint of the preceding Soviet context especially in terms of symbols discursive tools interpretational frameworks and dissemination strategies and discusses how ironically Russian speaking jihadism is an expansionist idea for uniting all Russian regions on a supra ethnic principle but an idea that was not born in Moscow or St Petersburg Overall the book demonstrates that Russian speaking jihadism is a completely new ideology which nevertheless has its origins in the intellectual and cultural heritage of the Soviet era and in the broader trends of post Soviet society and culture

Strategic Stability in the Post-Cold War World and the Future of Nuclear Disarmament Melvin L. Best, Jr., John Hughes-Wilson, Andrei A. Piontkowsky, 2013-04-17 This Report contains a Consensus Report and the papers submitted to the April 6 10 1995 NATO Advanced Research Workshop on Strategic Stability In The Post Cold War World And The Future Of Nuclear Disarmament held in Washington D C United States Of America of at The Airlie Conference Center The workshop was sponsored by the NATO Division Scientific and

Environmental Affairs as part of its ongoing outreach programme to widen and deepen scientific contacts between NATO member countries and the Cooperation Partner countries of the former Warsaw Treaty Organization The participants recognize that the collapse of the former Soviet Union has left a conceptual vacuum in the definition of a new world order Never before have the components of world order all changed so rapidly so deeply or so globally As Henry Kissinger points out the emergence of the new world order will have answered three fundamental questions What are the basic units of the international order What are their means of interacting and What are the goals on behalf of which they interact The main question is whether the establishment and maintenance of an international system will turn out to be a conscious design or the outgrowth of a test of strength The concept of a planning framework that could shape or govern these interactions is emerging and may now be at hand Capturing this emerging framework is the thrust of this NATO sponsored Advanced Research Workshop
