Velychenko,2015-12-04 This book surveys the Ukrainian EU relationship in light of the legacies of more than two hundred years of direct Russian rule It examines interrelationships between identities loyalties and political cultural orientations reviews policies and identifies salient forces and trends

The Idea of Russia Vladislav Zubok,2017-01-30 Dmitry Likhachev 1906 1999 was one of the most prominent Russian intellectuals of the twentieth century His life spanned virtually the entire century a tumultuous period which saw Russia move from Tsarist rule under Nicholas II via the Russian Revolution and Civil

War into seven decades of communism followed by Gorbachev's Perestroika and the rise of Putin. In 1928, shortly after completing his university education, Likhachev was arrested, charged with counter-revolutionary ideas and imprisoned in the Gulag where he spent the next five years. Returning to a career in academia specialising in Old Russian literature, Likhachev played a crucial role in the cultural life of twentieth-century Russia, campaigning for the protection of important cultural sites and historic monuments. He also founded museums dedicated to great Russian writers including Dostoevsky, Pushkin and Pasternak. In this, the first biography of Likhachev to appear in English, Vladislav Zubok provides a thoroughly researched account of one of Russia's most extraordinary and influential public figures.

Russian Culture in the Age of Globalization Vlad Strukov, Sarah Hudspith, 2018-12-07 This book brings together scholars from across a variety of disciplines who use different methodologies to interrogate the changing nature of Russian culture in the twenty-first century. The book considers a wide range of cultural forms that have been instrumental in globalizing Russia. These include literature, art, music, film, media, the internet, sport, urban spaces and the Russian language. The book pays special attention to the processes by which cultural producers negotiate between Russian government and global cultural capital. It focuses on the issues of canon, identity, soft power and cultural exchange. The book provides a conceptual framework for analyzing Russia as a transnational entity and its contemporary culture in the globalized world.

The Virtual Reality of Imprisonment in Russia Laura Piacentini, Elena Katz, 2022-04-28 In outlining the online expressions of penal life, this book disrupts the conventional human encounters that underpin empirical criminological scholarship on prisons because, figuratively speaking, prisons in Russia are de-nesting from their institutional moorings and borders. Using the online world of Runet as the research site and presenting research from selectively drawn evidence gathered from secondary data from prison-related websites, it explores the moving walls of the prison from socio-political and cultural perspectives. The book discusses how prisoners and their families articulate and give meaning to their experiences when they are online and while doing so develop their rights awareness. This book is a pioneering methodological, criminological and theoretical study, the first of its kind in global criminology and humanities, and because it is forging a new path for penal scholarship, cannot be all encompassing but rather acts as a map for other researchers in different fields to use. It will be useful for scholars working in comparative fields and jurisdictions on the subject of prisons, rights and how the internet is being utilised by prisoners, their families and communities organised around prison activism.

Tourism in Russia Frederic Dimanche, Lidia Andrades, 2015-09-09 This book addresses tourism as a system, provides essentials of tourism management and marketing, discusses planning and impact management and proposes strategies and recommendations to improve Russia as an international destination.
