The Russian Economy and Foreign Direct Investment Kari Liuhto, Sergei Sutyryn, Jean-Marc F. Blanchard, 2016-11-10
Before the recent Ukrainian crisis Russia was one of the main sources of foreign direct investment FDI outflow and one of the main targets of FDI inflow in the world However the events in the Ukraine the formation of the Eurasian Economic Union and China's growing interest in the Russian market and its natural resources have changed the picture completely This new book brings together an international group of contributors to present a timely and comprehensive analysis of FDI to and from Russia The book assesses the impact of the changed international political situation on foreign firms operating in Russia and explores how the new world context has affected Russian investments abroad The book also considers the future relationship between Russian corporations and the EU and the USA in light of recent events This book answers an array of key questions including how have investments from and to Russia developed in the last 100 years how are Russian businesses spreading to foreign countries through their indirect investments and how is the Russian Government influencing the investments of Russian businesses abroad This volume is of great interest to those who study international economics modern world economy and FDI as well as those interested in international investment movements and the changing role of Russia in international business and the global economy Russia Privatization Programs and Regulations Handbook Volume 1 Strategic Information and Developments IBP USA, 2013-08
2011 Updated Reprint Updated Annually Russia Privatization Programs and Regulations Handbook **Corporate Strategy in Post-Communist Russia** Mikhail Glazunov, 2016-05-12
Russian businesses in the post Soviet period have been noted for their unusual sometimes allegedly corrupt business practices and for their role in the enrichment of oligarchs This book which includes a wide range of case study examples and which draws on the author's first hand experience of running a Russian company argues that a key to understanding contemporary Russian business is the importance of arbitrage that is the ability to take advantage of price and cost differentials in different markets The book argues that the conditions for such arbitrage advantages are often created by businesses which have special links to particular institutions that arbitrage benefits are not available to all businesses in a sector thereby providing unfair competitive advantages to some businesses and that businesses overall activities are often

distorted by this system The book includes an analysis of a wide range of different types of arbitrage activities in action
