Research in Early Childhood Science Education Kathy Cabe Trundle, Mesut Saçkes, 2015-04-15. This book emphasizes the significance of teaching science in early childhood classrooms, reviews the research on what young children are likely to know about science, and provides key points on effectively teaching science to young children. Science education, an integral part of national and state standards for early childhood classrooms, encompasses not only content-based instruction but also process skills, creativity, experimentation, and problem solving. By introducing science in developmentally appropriate ways, we can support young children's sensory explorations of their world and provide them with foundational knowledge and skills for lifelong science learning, as well as an appreciation of nature. This book emphasizes the significance of teaching science in early childhood classrooms, reviews the research on what young children are likely to know about science, and provides key points on effectively teaching young children science. Common research methods used in the reviewed studies are identified; methodological concerns are discussed; and methodological and theoretical advances are suggested.

STEM Learning with Young Children Shelly Counsell, Lawrence Escalada, Rosemary Geiken, Melissa Sander, Jill Uhlenberg, Beth Van Meeteren, Sonia Yoshizawa, Betty Zan, 2016. This teacher's guide provides the background information, STEM concepts, and strategies needed to successfully implement an early STEM curriculum. **Ramps and Pathways** with young children, ages 3-8, actively engages young children in designing and building ramp structures using wooden cove molding, releasing marbles on the structures, and observing what happens. Children use logical mathematical thinking and problem-solving skills as they explore science concepts related to motion, force, and energy. This guide helps teachers to structure and organize an engaging STEM learning environment. Understand and promote logical mathematical and scientific thinking during investigations. Promote social settings that enhance communication, cooperation, and collaboration. Make the necessary accommodations and modifications for diverse learners. Integrate STEM concepts and skills with other content areas. Align teaching and learning with Next Generation Science Standards (NGSS) and Common Core State Standards (CCSS). Assess STEM learning using formative and summative assessments. Establish adult learning communities to support ongoing professional development. Help children develop habits and behaviors that contribute to positive attitudes toward STEM. This one-of-a-kind resource uses a newly created Inquiry Teaching Model (ITM) as the conceptual framework and devotes specific attention to the importance of an inclusive and social

STEM learning environment in which children are free to collaborate take risks and investigate within the context of exploratory and constructive play
