Scientific Basis for Nuclear Waste Management Gregory J. McCarthy, 2012-12-06 During late 1978 a symposium entitled Science Underlying Radioactive Waste Management was one component of the Annual Meeting of the Materials Research Society held in Boston Massachusetts The purpose of this Symposium was to bring together for the first time the entire range of sciences that form the basis for the treatment solidification and isolation of radioactive wastes Some 79 papers were presented to an international audience of over 300 The Symposium was such an impressive success that another will be held at the 1979 Annual Meeting of the Materials Research Society The proceedings of the forthcoming symposium will also be published and it is for this reason that the present volume has been designated Volume 1 The scope of the Symposium was defined by the following steering committee Rustum Roy The Pennsylvania State University Chairman Richard S Claassen Sandia Laboratories Don Ferguson Oak Ridge National Laboratory Victor I Spitsyn U S S R Academy of Sciences Moscow David B Stewart United States Geological Survey Torbjorn Westermarck Royal Institute of Technology Stockholm The program was organized by the following committee Gregory J McCarthy The Pennsylvania State University Chairman Harry C Burkholder Battelle Memorial Institute Arnold M Friedman Argonne National Laboratory Werner Lutze Hahn Meitner Institut Berlin John G Moore Oak Ridge National Laboratory Robert W Potter II United States Geological Survey Richard L Schwoebel Sandia Laboratories Roger W Staehle Ohio State University

Scientific Basis for Nuclear Waste Management Clyde J. Northrup, 2013-12-19 The Symposium on the Scientific Basis for Nuclear Waste Management was held in the fall of 1979 in Boston Massachusetts and was one of a number of symposia included in the Annual Meeting of the Materials Research Society The thrust of this annual Symposium is unique in the area of waste management Recognizing that this is an area of great complexity which requires contributions from scientists with many different backgrounds some of which are not normally associated with nuclear energy the Materials Research Society provides a

forum for discussions of a wide range of materials behavior and transport phenomena As can be seen from the list of references in each paper the authors draw heavily on contributions associated with professional societies in addition to the Materials Research Society and this annual meeting encourages the cross fertilization between disciplines that are essential to an adequate treatment of the problems associated with nuclear waste management The proceedings of the first Symposium that was held in 1978 was designated as Volume 1 in this series The third Symposium is scheduled for 1980 The scope of the 1979 Symposium was guided by the Steering Committee R L Schwoebel Sandia Laboratories USA Chairman W Carbiener Battelle Memorial Institute Columbus USA D Ferguson Oak Ridge National Laboratory USA W Heimerl DWK Mol Belgium W Lutze Hahn Meitner Institut Berlin W Germany J D Mather Institute of Geological Sciences Harwell UK G Oertel Department of Energy USA R
