Encounters with World Affairs Assoc Prof Emilian Kavalski, 2015-04-28 This book is designed to familiarise students with leading International Relations IR theories and their explanation of political events phenomena and processes which cross the territorial boundaries of the state Thus students will be exposed to the interplay between power interest ideas identity and resistance in explaining continuity and change in international relations Developed to provide students with the analytical tools and intellectual frameworks needed to understand the behaviour of different international actors in contemporary global affairs This textbook responds to the challenges of a dynamic job market by assisting students to gain both thorough theoretical knowledge and training them to apply this knowledge to real world problems In short this textbook delivers A comprehensive and interdisciplinary approach to the examination of national regional and global trends in politics economics and socio cultural developments allowing students to understand the practice and theory of contemporary international relations the politics culture history and economies of different regions around the world the role played by international interactions culture and government in local national and global settings Equipping students with the proficiency to understand and interpret the dynamics patterns and issues of global affairs to know how to get more information about particular questions to evaluate that information independently and effectively To these ends the textbook provides a number of features that will appeal to students and avoids overwhelming students with chapters on topics which in practice are rarely on courses while nonetheless providing a comprehensive overview of the field Introduces students to the main debates topics and terms in the field and allows them to decide which they would like to focus on in their further studies

Eve of Destruction John Hughes-Wilson, 2021-04-22 It is certainly a good thing for the world that Hitler s crowd or Stalin s did not discover this atomic bomb It seems to be the most terrible thing ever discovered US President Harry S Truman Truman evidently understood the terrifying power of atomic weaponry but no one could have realised its full potential when he ordered the bombings of Hiroshima and Nagasaki in August 1945 Those military attacks along with the disasters at the Fukushima and Chernobyl nuclear reactors might immediately spring to mind at the mention of nuclear destruction but the vast majority of the events recorded in this book are entirely unknown to most people This book records the facts many of them still shrouded in secrecy which show a worrying truth we have teetered precariously on the brink of Armageddon far more frequently than the general public realises Since that first and last atomic war in 1945 there have been a terrifying number of nuclear accidents and mishaps from the careless or accidental to the genuinely intentional and only narrowly averted Despite the catastrophic nature of any nuclear conflict we have come to the very borders of such a situation ten times since the 1960s Most people know about the Cuba Missile Crisis and a few about Operation Able Archer in 1984 which if anything was even more frightening than Cuba but there have been eight other occasions that might easily have toppled over into outright war These were potential conflicts but there have been other accidents such as the reactor

meltdown at the nuclear generating plant at Three Mile Island Pennsylvania in 1979 or the Palomares Incident in 1966 when a USAF B 52 bomber crashed after a mid air collision dropping four hydrogen bombs on Spanish soil Eve of Destruction is a warning from history recent history It is a call to sit up and listen and to take note of the very real danger of nuclear catastrophe It is a timely and important book because after all the future of our planet has to concern us all Bulletin of the Atomic Scientists ,1976-05 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **Peace, a Dream Unfolding** Penney Kome,Patrick Crean,1986

The Eco Wars David Day,1989 A book in which David Day investigates every aspect of the environmental movement from the conservation of endangered species to the excesses of the chemical agricultural and nuclear industries Lumea ,1982 Scorpion in the Sea Peter T.
