Archipelagic English John Kerrigan,2010-09-09 Seventeenth century English Literature has long been thought about in narrowly English terms Archipelagic English corrects this by devolving anglophone writing showing how much remarkable work was produced in Wales Scotland and Ireland and how preoccupied such English authors as Shakespeare Milton and Marvell were with the often fraught interactions between ethnic religious and national groups around the British Irish archipelago This book transforms our understanding of canonical texts from Macbeth to Defoe s Colonel Jack but it also shows the significance of a whole series of authors from William Drummond in Scotland to the Earl of Orrery in County Cork who were prominent during their lifetimes but who have since become neglected because they do not fit the Anglocentric paradigm With its European and imperial dimensions and its close attention to the cultural make up of early modern Britain and Ireland Archipelagic English authoritatively engages with questions and develops the claim now made by historians that the crises of the seventeenth century stem from the instabilities of a state system which between 1603 and 1707 was multiple mixed and inclined to let local quarrels spiral into all consuming conflict This is a major interdisciplinary contribution to literary and historical scholarship which is also set to influence present day arguments about devolution unionism and nationalism in Britain and Ireland

Archipelagic Identities Simon Meador,2017-09-08 Archipelagic Identities explores the invention and interplay of national regional and linguistic identities in the literatures of early modern Britain and Ireland The volume includes innovative work by leading practitioners of British studies and sheds new light on classic cases such as Edmund Spenser s Irish experience whilst also introducing less familiar writers and texts such as Anne Dowriche s The French Historie William Browne s Britannia Pastorals William Richards Wallography Anne Bradstreet s Dialogue between Old England and New and the works of Gaelic bards and French Huguenot refugees Foregrounding issues of gender class and migratory identity which have not previously received significant attention in this field Archipelagic Identities brings British studies into the mainstream of contemporary literary criticism
