*Who Governs Scotland?* Alex Wright, 2005 This book addresses the premise that the question of who governs Scotland has become increasingly ambiguous thanks in part to European integration globalization and devolution within the UK It argues that although the concept of Multi level governance helped illuminate regionalism with the EU it was not an appropriate model for Scotland This well researched and powerfully argued book adds greatly to the debate on constitutional reform and offers invaluable insight into the Scottish Parliament s foreign affair agenda It offers an illuminating read to students policy makers and politicians

*Scotland Analysis* Great Britain: Scotland Office, 2013-02-11

The UK Government is undertaking a major cross government programme of analysis prior to the referendum on Scottish independence in 2014 The aim is to provide a comprehensive and detailed analysis of Scotland s place in the UK This paper the first of a series to be published in 2013 and 2014 examines the UK s constitutional set up and the legal implications of independence The UK Government is convinced that the current devolution offers the best for Scotland the Scottish Parliament and Government are empowered to take decisions on a range of domestic policy areas such as health education policing while Scotland continues to benefit from decisions made for the UK as a whole defence and security foreign representation economic affairs Independence is very different to devolution Based on independent expert opinion published as Annex A the paper concludes that if there were to be a vote in favour of leaving the UK Scotland would become an entirely new state whilst the remainder of the UK would continue as before retaining the rights and obligations of the UK as it currently stands Any separation would have to be negotiated between both governments Legal and practical implications of

independence both at home and abroad are addressed An independent Scotland would have to apply to and or negotiate to become a member of whichever international organisations it wished to join including the EU and NATO Scotland would also have to work through its positions on thousands of international treaties to which the UK is currently party

**Foreign policy considerations for the UK and Scotland in the event of Scotland becoming an independent country** Great Britain: Parliament: House of Commons: Foreign Affairs Committee,2013-05-01 With just over sixteen months to go before the Scottish referendum there are still significant gaps in the Scottish Government s proposed foreign policy according to a report published today by the Foreign Affairs Committee There has not been enough analysis on what sort of overseas diplomatic network and external security and intelligence provision Scotland would have to set up There needs to be a more realistic assessment of the extent to which Scotland could expect the rest of the UK RUK to co operate with and support it on security and intelligence There is a pressing need for official legal advice on a wide range of international legal issues including EU accession EU opt outs and membership of international organisations The Report says that the overwhelming body of law evidence practice and precedent supports the view that the RUK would inherit the vast majority of the UK s international rights and obligations whereas Scotland would start anew internationally if it became independent Having two co equal states could lead to a level of legal and political insecurity that would not be tolerated by other states The report disputes the view that Scotland s journey towards membership of the EU and NATO would be straightforward It is for the EU itself to determine in accordance with its regulations whether and how Scotland would become a member Scotland may have to make trade offs to secure the unanimous support it would need from within the EU
