theory The chapters gathered here present the state of the art in scholarship in the field covering Epistemology and marginality Literary visual and cultural representations Sexuality Macro and microeconomics of gender Conflict and peace The most important consensus in this volume is that a central organizing tenet of feminism is its willingness to examine the ways in which gender and relations between women and men have been and are organized The authors bring a shared commitment to the critical appraisal of gender relations as well as a recognition that to think theoretically is not to detach concerns from lived experience but to extend the possibilities of understanding With this focus on theory and theorizing about the world in which we live this Handbook asks us across all disciplines and situations to abandon our taken for granted assumptions about the world and interrogate both the origin and the implications of our ideas about gender relations and feminism It is an essential reference work for advanced students and academics not only of feminist theory but of gender and sexuality across the humanities and social sciences Classical American Philosophy Rebecca L. Farinas,2021-01-14 In Classical American Philosophy Poiesis in the Public Square Rebecca Farinas takes seven major figures from the American philosophical canon and examines their relationship with an artistic or scientific interlocutor It is a unique insight into the origins of American philosophy and through case studies such as the friendship between Alain Locke and the biologist E E Just and the collaboration between Jane Addams and George Herbert Mead Farinas provides a new insight into these thinkers ideas Her new perspective allows her to move beyond relational aesthetics to consider these theorists phenomenological metaphysical religious and cosmological ideas and reapply them to the modern world Indeed the partnerships she examines have proved especially valuable to newer philosophical fields like value theory ethics pedagogy and semiotics Her links between art and science also provide new vantage points on our society s continuing artistic endeavours and technological advances and introduce an exciting new perspective on early American philosophy and its ensuing movements **Handbook on Gender and Public Administration** Shields, Patricia M.,Elias, Nicole M.,2022-02-15 This ground breaking Handbook on Gender and Public Administration brings together a rapidly growing new field of study exploring the emerging contexts of gender and public administration Capturing the many facets of this dynamic trend the book explores gender equity and further examines masculinity intersectionality and beyond binary conceptions of gender
