road that led to Kate Bradshaw's door sometimes seemed the loneliest in the world. In the depths of the Depression the young widow was struggling to hold on to the family farm and raise two small children. And she had only her faith to sustain her until the day Hatcher Jones came walking up that long lonely road. The handsome mysterious drifter was clearly haunted by some terrible secret from his past. But the simple acts of kindness he showed Kate and her children spoke of a good heart and strong values. And she longed to make him see that there could be redemption for anyone even him and that all his wandering had brought him home at last. *The Road to Love & Hearts in the Highlands* Linda Ford, Ruth Axtell Morren, 2025-02-11

an old man Why do you do what you do Why do you work where you work or live where you live Whether we agree or not life really is about a series of paths and decisions whereby even one small change can alter our lives forever We usually want to blame others including God for our decisions Only by examining the paths we have taken can we really see where we are at It is only when we look deep within ourselves we discover that as writers singers musicians interior decorators or even truck drivers we all have gifts Having them is not to question rather it is WHAT WE DO WITH THEM that really matters Wherever your passions lie you can erase your doubts and restore your joy Just imagine yourself on a park bench The Long Road to Paris Ed and Janet Howle,2011-01-06 It was our intent to write a travelogue of an around the world car race the first of its kind in more than one hundred years We began by interviewing JC Wilkerson CEO of World Rallies Inc and Kyle Vanderhorn the official race reporter Then Thurman Alston one of the racers approached us with an outrageous list of accusations presenting a very different story from the sanitized official version Thurman wanted to make these allegations public The accusations were primarily aimed at Ed Talbot the driver of car 23 a controversial alternative energy automobile which it appears has now been destroyed The allegations were as follows First that Ed leaked information to the CIA about the radical nature of the car's technology leading to the intervention of the U S and Russian governments and indirectly to the murders in Siberia Second that Ed's irresponsible actions during the race were the reasons that the environmentally friendly technology in his entry has not been made available to the world and that he is to blame for some of the climatic change that will take place in the future Third that Ed was lying about the innovation in the car It was actually nothing new and was in fact fully developed in Nazi Germany during World War II and then held off the market by oil interests Finally that his secret liaison with his navigator showed a reckless disregard for his wife and young daughter and affected his judgment While these accusations appeared to be absurd we knew we had to sort out Thurman's wild claims before we could write an objective report of the around the world race We discovered that there was some truth among these charges a story hidden within a story We became intrigued with our findings It turned out that the race was a minor part of the challenges Ed faced Our research had turned up a convoluted love story that alone would have made it difficult for Ed to have followed a different course of action You can decide for yourself whether a less disastrous outcome would have been possible if he had made different decisions Ed and Janet Howle www.thelongroadtoParis.com **Jennie** Roy H.
