Longest War Uk

Paul L. Moorcraft

Longest War Uk:

Omar Al-Bashir and Africa's Longest War Paul L. Moorcraft, 2015-04-30 President Omar al Bashir is Africa's and arguably Arabia's most controversial leader. In power since 1989 he is the first sitting head of state to be issued with an arrest warrant for war crimes by International Criminal Court. He has been a central personality in Islamic and African politics as well as a love to hate figure for the US in the war on terror. For military history readers Al Bashir is a field marshal who has fought possibly the world's longest conflict. Modern Sudan has been embroiled in war since 1955. No proper biography has been written on him before. Nor has there been a comprehensive military history of Sudan. The book briefly covers the military background until independence. Then it dissects the long north-south civil war until Bashir's Islamist military coup in 1989. Thereafter it narrates the wars in the east-south-west in Darfur. International political and military intervention is also factored in. The author draws on in-depth one-on-one interviews with Bashir himself and his family and close political, military and intelligence colleagues. *Routledge Companion to UK Counter Terrorism* Andrew Staniforth, 2013 The United Kingdom has long been an island under siege from terrorists who believe they can advance their aims through acts of violence. Protecting the public from the excesses of extremism remains the primary responsibility of government. For over a century Special Branch, MI5 and MI6 have prevented terrorist atrocities and have pursued those who wish to destroy the United Kingdom's free and democratic way of life. Yet despite developing one of the world's most sophisticated security architectures, successful terrorist attacks have occurred with alarming regularity. For the very first time this new volume explores the evolution of counter-terrorism practice in the United Kingdom brought to life with dramatic case studies and personal insider accounts provided by leading policy makers, prosecutors and counter-terrorism practitioners who openly reveal the challenges and operational reality of countering contemporary terrorist threats. From the troubles in Northern Ireland to the al-Qaeda inspired genre of international terrorism, this volume plots the trajectory of counter-terrorism policy and practice, exploring the events that have served to change the course of civil protection. This unique title is enriched by leading academic perspectives providing analysis of counter-terrorism responses and identifies lessons to be learned from the past, the present as well as exploring the terrorist threats of the future to be tackled by the next generation of counter-terrorism practitioners. This accessible and authoritative volume is required reading for all in authority and academia who are concerned with national security, counter-terrorism and the law as well as those with a vested interest in the preservation of human rights, the protection of civil liberties and democracy itself. **British Generals in Blair's Wars** Jonathan Bailey, Richard Iron, 2016-04-15 *British Generals in Blair's Wars* is based on a series of high-profile seminars held in Oxford in which senior British officers predominantly from the army reflect on their experience of campaigning. The chapters embrace all the UK's major operations since the end of the Cold War but they focus particularly on Iraq and Afghanistan. As personal testimonies they capture the immediacy of the authors' thoughts at the time and show

how the ideas of a generation of senior British officers developed in a period of rapid change against a background of intense political controversy and some popular unease. The armed forces were struggling to revise their Cold War concepts and doctrines and to find the best ways to meet the demands placed upon them by their political leaders in what was seen to be a New World Order. It was a time when relations between the Government of the day and the armed services came under close scrutiny and when the affection of the British public for its forces seemed to grow with the difficulty of their operational tasks. This is a truly unique and invaluable book. For the first time we are offered first hand testimony about Britain's involvement in recent campaigns by senior participants. In addition to touching on themes like civilian military relations, the operational direction of war and relationships with allies, these eyewitness accounts give a real sense of how the character of a war changes even as it is being fought. It will be essential reading for those in military academies and staff colleges not only in Britain but throughout NATO and especially in the USA. It also has profound policy implications as both the UK and NATO more generally reassess their strategies and the value of intervention operations. It will also become a primary source for historians and students of the wars in Iraq and Afghanistan in particular.

National Resilience during War Eyal Lewin, 2012-08-20. In political science, war is generally considered the most traumatic event a nation faces, often posing threats to a nation's very existence. The challenge of surviving the war may therefore prove central to the life of a nation. However, national resilience during war has not yet been fully investigated. *National Resilience during War: Refining the Decision Making Model* by Eyal Lewin searches for the mechanisms of national resilience through a deep inquiry into nine different case studies taken from the scenery of World War II. Following a multi-disciplinary attitude, a business management model is adopted: the PEST and SWOT model, and political, economic, social, and military technological factors are analyzed for each of the case studies. The result is a comprehensive political decision making model on a national level that can serve as a means for leaders to navigate successfully in geopolitical turbulence as well as for social scientists to better understand the defeats that different countries suffer and the victories that others demonstrate. This research, however, goes further by refining the model and pointing to the exact combination of factors that are crucial for a nation's ability to win its wars. Using a qualitative comparative analysis technique, the exact combination is traced. The results emphasize that the winning scheme blends political and social factors together: leadership, positive psychology, and an inspiring national ethos prove to be a necessary though not a sufficient conditional combination for success. *National Resilience during War* fills a significant gap in the literature on the politics of war.

Britain and the War on Terror Warren Chin, 2016-04-15. Why did Britain come to play such a prominent role in the war on terror and why did the military instrument come to be the dominant theme in the British prosecution of what was an ideological and political struggle? This book is an analysis of Britain's war against Al Qaeda and the phenomenon of international terrorism which marked a paradigm shift in the nature and conduct of war in the twenty-first century. At the heart of the book is an attempt to understand why Britain, which possessed a wealth of experience

in the conduct of counterterrorism counterinsurgency and small wars developed a strategic and operational design to defeat the Islamist threat which proved to be deeply flawed In addressing this question the book explores the complex intellectual doctrinal and geopolitical challenge posed by Al Qaeda and international terrorism and how and why the British response took the form that it did In conducting this analysis the book raises important questions about the assumptions and perceptions of those in government who led the UK into this conflict the nature of the civil military relationship in Britain and how well it functioned and finally the competence of its security forces in being able to deal with this threat both domestically and overseas

The Eastern Fleet and the Indian Ocean, 1942-1944 Charles Stephenson, 2022-04-06 A study of the British Royal Navy's activities in the Indian Ocean during World War II led by Admiral Sir James Somerville The story of the British Eastern Fleet which operated in the Indian Ocean against Japan has rarely been told Although it was the largest fleet deployed by the Royal Navy prior to 1945 and played a vital part in the theatre it was sent to protect it has no place in the popular consciousness of the naval history of the Second World War So Charles Stephenson's deeply researched and absorbing narrative gives this forgotten fleet the recognition it deserves British pre war naval planning for the Far East is part of the story as is the disastrous loss of the battleship Prince of Wales and battlecruiser Repulse in 1941 but the body of the book focuses on the new fleet commanded by Admiral Sir James Somerville and its operations against the Japanese navy and aircraft as well as Japanese and German submarines Later in the war once the fleet had been reinforced with an American aircraft carrier it was strong enough to take more aggressive actions against the Japanese and these are described in vivid detail Charles Stephenson's authoritative study should appeal to readers who have a special interest in the war with Japan in naval history more generally and Royal Navy in particular Praise for *The Eastern Fleet and the Indian Ocean 1942 1944* This meticulously researched outstandingly clear well written and absorbing account is long overdue and will most likely become a standard work The text is most helpfully supported by over 80 pages of detailed end notes referenced to each chapter and a detailed index This is not only a book for naval historians but also for anyone with an interest in the War in the Indian Ocean region Highly recommended Military Historical Society I enjoyed this book it gives us an account of an often neglected part of the war at sea and of the achievements of Admiral Somerville who kept his fleet intact in the face of a potentially overwhelming opponent then was willing to acknowledge that his fleet needed to improve massively before it could take on the Japanese Dr John Rickard author and webmaster of the Military History Encyclopedia on the Web

A Ceaseless Watch Angus Britts, 2021-04-15 *A Ceaseless Watch* Australia's Third Party Naval Defense 1919 1942 illustrates how Australia confronted the need to base its post World War I defense planning around the security provided by a major naval power in the first instance Britain and later the United States Spanning the period leading up to Australia's greatest security crisis the military threat posed by Japan throughout the majority of 1942 the work takes the reader all the way up to the defeat of the Imperial Japanese Navy by the United States Navy in the Solomon Islands campaign Angus Britts focuses on Anglo Australian defense relations from 1919 42 when the British were Australia's primary naval protectors until they were superseded in the Pacific by the United States in May 1942 at the battle of the Coral Sea Britts traces the process of the alignment or divergence of differing strategic interests between Australia and Britain in particular Taking place against the backdrop of Imperial Japan's expansionism debates within Australian political and defense circles during this period namely

the nature of the most likely threat to the continent itself what became an important subplot to the events then unfolding in the Pacific Looking at the development of the Singapore strategy which utilized the British fleet at Singapore to protect Australia's interests Britts lays out how the cornerstone for Australian defense planning was based on the continued assurances from successive British governments that they would honor their naval commitments should Australia itself eventually come under serious threat from Japanese aggression The Australian American defense relationship evolved at a later stage within the timeframe in this work but the varying interactions between both nations throughout the interwar years are likewise addressed as is the foundation of their wartime relations Britts illustrates the difficulty in forming a defense relationship between small and great powers where the needs of the former are not subsumed by the interests of the latter from the interwar years to the start of World War II In an era when the entire Pacific region was at war the inability of a larger power to fulfill its side of a defensive pact with a smaller power shaped the future of the region itself **The**

Paul Moorcraft, 2011-10-31 Wars have dominated politics since history began In the modern era most of what the media reports on foreign conflicts comes from a small band of war correspondents As the furore over the Iraq Afghan and now the Libyan wars demonstrates Western governments and militaries often collude to keep their voters in the dark about the causes and the conduct of wars waged in their name In this entertaining and unspun account of modern war reporting the authors ask whether the media itself drives democracies to war Or does it serve to constrain evil ignorant and messianic leaders Are the heirs of William Howard Russell the first modern war reporter watchdogs or lapdogs In the age of Wikileaks and corrupt media empires what is the political impact of war correspondents Are they the heroes or harlots of their profession Neglected Skies Angus Britts, 2017-10-15 Neglected Skies uses a reconsideration of the clash between the British Eastern Fleet and the Imperial Japanese Navy's First Air Fleet in the Indian Ocean in April 1942 to draw a larger conclusion about declining British military power in the era In this book Angus Britts explores the end of British naval supremacy from an operational perspective By primarily analyzing the evolution of British naval aviation during the interwar period as well as the challenges that the peacetime Royal Navy was forced to confront a picture emerges of a battle fleet that

entered the war in September 1939 unready for combat By examining the development of Japan's first strike carrier battle group the Kido Butai Britts charts both the rise of Japan as a wartime power as well as the demise of the Royal Navy Japan by concentrating their six largest aircraft carriers into a single strike force with state of the art aircraft had taken a quantum leap forward in warfighting at sea Simultaneously British forces found themselves outmatched in this Eastern theatre and Britts makes the case by looking at a set of key battles that this is where the global supremacy of Britain's naval power ended
