Longman's Magazine Charles James Longman,1905 *Longman's Magazine* ,1901 **Where Does Laughter Begin?** ,2000 Designed to fit the National Curriculum this is part of the Longman Book Project The project aims to enable teachers throughout the primary school to teach language fiction and non fiction **The Literary World** ,1897 **Young Researchers** Margaret Mallett,2002-02-07 Informational kinds of reading are crucial in every lesson This book looks at how we can encourage children from the very beginning to think of themselves as young researchers using skills and strategies for clear purposes It argues that the creative practitioner nurtures children s sense of wonder and curiosity about the world and all its phenomena Packed full of advice on how to use the most stimulating and exciting texts and the liveliest approaches the book celebrates the good practice of teachers and student teachers in a large number of classroom case studies The content includes a summary of the recent developments and a framework of principles to inform good practice in this challenging aspect of literacy chapters concentrating on particular age groups beginning with the nursery and ending with the later primary years and thus taking up an essentially developmental approach an assessment of recent research and how findings can be put to practical and creative use in the classroom A central message is that children benefit from collaborating with teachers and peers at every stage of finding out The spoken language energises informational reading and writing making the sharing of the fruits of children s research highly enjoyable This book will inspire you and lead to the very best practice *Projects in Linguistics and Language Studies* Alison Wray,Aileen Bloomer,2013-01-22 *Projects in Linguistics and Language Studies* Third Edition is your essential guide when embarking on a research project in linguistics or English language It is clearly divided into the subject areas that most appeal to you as a student psycholinguistics first and second language acquisition structure and meaning sociolinguistics language and gender accents and dialects and the history of English New chapters on researching computer mediated communication CMC and on preparing and delivering oral presentations are also included It offers practical advice on identifying a topic making background reading more effective planning and designing a project collecting and analysing data writing up and presenting findings With over 350 project ideas that you can use directly or adapt to suit different contexts and interests and with chapters on how to reference effectively and how to avoid plagiarism this third edition of *Projects in Linguistics and Language Studies* is a reference guide that you will use again and again during your studies *A Clash of Paradigms: Response and Development in the South Pacific* Suan Maiava,2024-11-01 This title was first published in 2001 This study indicates that researchers have far to go in understanding and assessing how development projects work The author shows that often the perception of failure is not shared by those whom were intended to benefit She uses a case study of Samoan villagers introduced to cattle farming to examine the wider development process and challenge the conventional theories By drawing on people centred perspectives that give much greater weight to the role of culture in development the volume does not simply criticize development project

management but suggests practical and positive ways forward encouraging spontaneous indigenous development which should be supported by projects where appropriate

The Experiment Must Continue Melissa Graboyes, 2015-11-09 The Experiment Must Continue is a beautifully articulated ethnographic history of medical experimentation in East Africa from 1940 through 2014 In it Melissa Graboyes combines her training in public health and in history to treat her subject with the dual sensitivities of a medical ethicist and a fine historian She breathes life into the fascinating histories of research on human subjects elucidating the hopes of the interventionists and the experiences of the putative beneficiaries Historical case studies highlight failed attempts to eliminate tropical diseases while modern examples delve into ongoing malaria and HIV AIDS research Collectively these show how East Africans have perceived research differently than researchers do and that the active participation of subjects led to the creation of a hybrid ethical form By writing an ethnography of the past and a history of the present Graboyes casts medical experimentation in a new light and makes the resounding case that we must readjust our dominant ideas of consent participation and exploitation With global implications this lively book is as relevant for scholars as it is for anyone invested in the place of medicine in society

operas view the inclusion of children in some way as ubiquitous The rise of the children s opera chorus and the explosion of children s only productions attest to the changing view of the value they can bring to the art Some of the children to have characterised these roles are discussed in this book in order to redress the disproportionate lack of acknowledgement they often received for their performances
