Malyuga, 2019-08-06 This book presents research into various types of professional discourse through the prism of the functional linguistics approach Focusing mainly on practical aspects of speech the book discusses various topics such as structural semantic cognitive and pragmatic characteristics of professional discourse argumentation strategies humour in professional discourse and word building processes It also highlights communicative effectiveness methods in professional discourse Offering new ideas and discussing the latest findings the book is intended for researchers lecturers and professionals in the field *An English-French Dictionary of Clipped Words* Fabrice Antoine, 2000 This dictionary deals with the little words which everyone uses every day without even noticing them and which are so liable to escape the grasp of a speaker of another language clipped words obtained by back clipping or apocope the dropping of one or more final syllables by front clipping or aphaesis the dropping of one or more final syllables by the combination of these two processes and sometimes further transformed especially in slang by the addition of a new ending The aim is not of course merely to list all these words and say from which longer words they were obtained an attempt is made here to retrace the history of each of them its stylistic semantic and often morphological evolution to illustrate this with authentic and often pungent or humorous quotations and also to show how each can be translated into the other language Indeed this is an English French bilingual dictionary whose aim is to translate clipped words according to principles of historical and register fidelity which bilingual dictionaries do not ordinarily set for this type of headword Thus clipped words will be shown to have meaning precisely because they are clipped consequently this meaning must be preserved and conveyed in translation This dictionary thus aims at being different from traditional bilingual dictionaries dictionaries of slang and colloquialisms included in the structure and content of its articles in which much space is devoted to the lexicological data which inform the strictly lexicographical information Special attention and care have been devoted to the system of cross references the recording and presentation of derived forms variants and compounds and to the presentation of slang or colloquial synonyms of the headwords The body of the dictionary is preceded by a preface in which the editing principles and methods are outlined and an attempt is made at analyzing the corpus its historical sociological and morphological aspects are reviewed together with the motivations of those that coin or use clippings These motivations appear essential to the proper appraisal of this body of slang and colloquial words this dictionary's intention is to pay homage to all the unknown people who have made the lexicon richer by playing with and on words with joyful humour zest and gusto It is hoped that all lovers of words will have the same pleasure exploring this dictionary as its author had writing it Professor Fabrice Antoine teaches English at the Université Charles de Gaulle Lille III France His research fields are bilingual lexicography lexicology and translation he has been a consulting editor for a dozen bilingual dictionaries general as well as slang ones He is especially interested in French and English slang and colloquialisms and co-heads ELEXTRA Etudes sur le Lexique et la Traduction a research centre at the
