Look At Leninism:

A Look at Leninism Ron Taber, 1988 *Lenin and Leninism: Lenin as the Organizer and Leader of the Russian Communist Party* Joseph Stalin, 2024-05-09 In April 1920 Stalin wrote a commemorative article titled *Lenin as the Organizer and Leader of the Russian Communist Party* often grouped under *Lenin and Leninism* Delivered on Lenin's 50th birthday at a Moscow Party Committee meeting it was published soon afterward In it Stalin praised Lenin's personal role in building and guiding the Bolshevik Party attributing to him almost all strategic and organizational achievements of the Revolution The piece takes on a reverential tone common in Soviet cult of personality later and sought to remind readers of Lenin's indispensable contribution This article appeared in 1920 in Moscow likely in party newspapers or bulletins It has two sections the organizer and the leader though the subtitle used by the *Collected Works* suggests it was one article Stalin recounts Lenin's early underground work the foundation of Bolshevik newspapers victory in factional struggles and leadership during the Civil War The core content is laudatory biography for example Stalin writes of Lenin's strategy in the October Revolution his unifying tactics for Soviets and his influence on policy Alternative titles are usually not used in English except *Lenin as Organizer* some later editions simply list it under *Lenin and Leninism* The style is hagiographic rather than analytical reflecting its purpose as a eulogy Its historical importance is mainly in how it set a tone for Stalin's own image making Published during Lenin's lifetime it helped inaugurate the narrative that Stalin was Lenin's right hand man and successor thus bolstering Stalin's standing In Soviet history it has been widely cited as evidence of Stalin's loyalty and ideological continuity with Lenin After Stalin's death the article was included in *Stalin's Works Vol 4 1917-1920* as noted by the official editors Today it is viewed as a propagandistic piece reflecting early Soviet efforts to mythologize Lenin nevertheless its depictions of events such as Lenin's role in party congresses have sometimes served historians as a source albeit a very partisan one This modern *Critical Reader's Edition* includes an illuminating afterword tracing Stalin's intellectual relationships with revolutionary philosophers and politicians including Hegel Feuerbach Engels and Ricardo containing unique research into his intellectual development and economic metaphysical theories religious impulses masquerading as materialism a comprehensive timeline of his life and works a glossary of Leninist terminology and a detailed index of his work works Combined with the scholarly amplifying material this professional translation is an indispensable exploration of Stalin's world changing philosophy which he manifested into one of the most terrifying authoritarian regimes ever created

Soviet Scholasticism J.E. Blakeley,2012-12-06 The present work is a study of the method of contemporary Soviet philosophy By Soviet philosophy we mean philosophy as published in the Soviet Union For practical purposes we have limited our attention to Soviet sources in Russian in spite of the fact that Soviet philosophical works are also published in other languages see B 2029 21 38 The term method is taken in the sense usual in Western books on methodology 1 In view of the content of the first chapter it will be useful to explain the last term a little more fully By

method we mean a procedure and it is obvious that the principles according to which a procedure is carried out are rules i.e. imperatives which tell us not what is but what should be done Such imperatives may or may not be connected with and founded on certain descriptive statements the fact that every rule of formal logic is based on a corresponding law has been well known since Husserl's *Logische Untersuchungen* and is generally accepted in contemporary logic but such a foundation is irrelevant to a methodological study The object of such a study is to find out what these rules are why they are accepted and how they are interconnected and applied This is how methodology the science of method is conceived in Western treatises on the subject and this is also the standpoint assumed here **V.I. Lenin is Missing** Thomas H. Tolmasoff, 1992

This satire introduces four intrepid Russian entrepreneurs who are planning to bridge the gap between socialism and a free market economy by buying and selling contraband Western goods They are clever they are resourceful and they think they are above suspicion because they are the caretakers of the Glorious Remains of the Father of Soviet Communism Then a KGB colonel wants in on the action and someone steals Lenin's body just before it is to be displayed for May Day Sash Natash Olya and Viktor are in deep trouble unless someone poses as Lenin in the casket *Looking for the Proletariat* Stephen

Hastings-King, 2014-05-08 *Looking for the Proletariat* is a contribution to understanding the implosion of the Marxist Imaginary The implosion is staged in terms of the first English language history of the French revolutionary group *Socialisme ou Barbarie* from 1949 to 1957 It explains why *Socialisme ou Barbarie* was the only Marxist organization interested by worker experience and how the group's anti Leninist position on organization led it to privilege first person worker narratives in order to understand worker experience and its revolutionary possibilities Using the only first person accounts of working class experience in French industry of the 1950s the book explores the disintegration of collective investment in the Marxist Imaginary that unfolded at Renault's Billancourt factory in the aftermath of the Hungarian Revolution and the contexts that shaped it **Thermidorian Societies and Their Enemies** Leslie Herzberger, 2007-01-25

The author was born in Budapest Hungary in 1946 He served in the U.S. Army then attended Columbia University School of International Affairs and the Ph.D. Program in History at New York University This book is part of the follow up of the Ph.D. Thesis Proposal that the author presented to New York University on December 24 1980 and worked out as a private scholar the next 20 years The work that went into the book spanned a period of around thirty years overall
