Looking For The Aliens A Psychological Imaginative And Scientific Investigation:

Looking for the Aliens Peter A. Hough, Jenny Randles, 1997 *Centering the Margins of Anthropology's History* Regna Darnell, Frederic W. Gleach, 2021-05 Centering the Margins of Anthropology's History circles around the conscious recognition of margins and suggests it is time to bring the margins to the center both in terms of a changing theoretical openness and a supporting body of scholarship **The Alien Abduction Phenomenon** Paul Meehan, 2025-06-13 News reports books articles and films about alien abductions have long captured the public imagination This book traces the evolution of the phenomenon from the late 1940s flying saucer era and the contactee and occupant sightings of the 1950s to the widespread abduction stories of the 1960s and beyond It examines how broader social cultural and scientific contexts have shaped these accounts and offers a critical analysis of their interpretations over time Also discussed are the key researchers who have sought to understand the nature and intentions of alleged extraterrestrial beings or ufonauts while addressing the skepticism about the subject The efforts of the scientific community to investigate unidentified aerial phenomenon UAP and abductions are assessed acknowledging both the challenges and limitations of such inquiries Firsthand encounters with non human entities are examined attempting to uncover the forces behind these sightings and arguing that there could be unforeseen consequences of ignoring the phenomena **The Thing** Phil Hore, 2023-08-14 In 1982 Universal Pictures a studio famous for its monster movies unleashed a new terror on the silver screens of the world that would change everything not that anyone knew that at the time Today John Carpenter's THE THING consistently ranks in the top of favourite or influential film lists but when it was first released it was not only considered a bomb reviewers used words like obscene gross and instant junk For the first time we look at the history of the entire THING franchise not just the 1982 film or its prequel nor the original 1951 version The Thing from Another World In this book we look at the radio versions the comics novels computer games music and how from a 1931 novella by John W Campbell Jr The Thing began infecting our lives and eventually took over the world by initiating one of the longest media franchises in history and influencing many others like ALIEN Dr Who and the X files Interviewing many of those involved we'll look at the marketing strategies the reviews the blunders censorship and yes we may even figure out exactly why The Thing failed at the box office in 1982 **High Strangeness** Jerome Clark, 1996 **Your Creative Brain** Shelley Carson, 2012-09-19 Research based techniques that show everyone how to expand creativity and increase productivity Harvard psychologist Shelley Carson's provocative book published in partnership with Harvard Health Publications reveals why creativity isn't something only scientists investors artists writers and musicians enjoy in fact all of us use our creative brains every day at home work and play Each of us has the ability to increase our mental functioning and creativity by learning to move flexibly among several brain states Explains seven brain states or brainsets and their functions as related to creativity productivity and innovation Provides quizzes exercises and self tests to activate each of these seven brainsets to unlock our maximum creativity Your Creative Brain called

by critics a new classic in the field of creativity offers inspiring suggestions that can be applied in both one's personal and professional life

The Oxford Handbook of the Development of Imagination Marjorie Taylor, 2013-04-02 Children are widely celebrated for their imaginations but developmental research on this topic has often been fragmented or narrowly focused on fantasy However there is growing appreciation for the role that imagination plays in cognitive and emotional development as well as its link with children's understanding of the real world With their imaginations children mentally transcend time place and or circumstance to think about what might have been plan and anticipate the future create fictional relationships and worlds and consider alternatives to the actual experiences of their lives The Oxford Handbook of the Development of Imagination provides a comprehensive overview of this broad new perspective by bringing together leading researchers whose findings are moving the study of imagination from the margins of mainstream psychology to a central role in current efforts to understand human thought The topics covered include fantasy reality distinctions pretend play magical thinking narrative anthropomorphism counterfactual reasoning mental time travel creativity paracosms imaginary companions imagination in non human animals the evolution of imagination autism dissociation and the capacity to derive real life resilience from imaginative experiences Many of the chapters include discussions of the educational clinical and legal implications of the research findings and special attention is given to suggestions for future research

Science and Pseudoscience in Clinical Psychology Scott O. Lilienfeld, Steven Jay Lynn, Jeffrey M. Lohr, 2014-10-17 This valued resource helps practitioners and students evaluate the merits of popular yet controversial practices in clinical psychology and allied fields and base treatment decisions on the best available research Leading authorities review widely used therapies for a range of child adolescent and adult disorders differentiating between those that can stand up to the rigors of science and those that cannot Questionable assessment and diagnostic techniques and self help models are also examined The volume provides essential skills for thinking critically as a practitioner evaluating the validity of scientific claims and steering clear of treatments that are ineffective or even harmful New to This Edition Reflects the significant growth of evidence based practices in the last decade Updated throughout with the latest treatment research Chapter on attachment therapy Chapter on controversial interventions for child and adolescent antisocial behavior Addresses changes in DSM 5

After Contact Albert A. Harrison, 1997-08-21 Examines in detail the psychological sociological political and cultural dimensions of the search for extraterrestrial intelligence

The Psychology of Imagination Brady Wagoner, Ignacio Brescó de Luna, Sarah H. Awad, 2017-02-01 This book offers a new approach to imagination which brings its emotional social cultural contextual and existential characteristics to the fore Fantasy and imagination are understood as the human capacity to distance oneself from the here and now situation in order to return to it with new

possibilities To do this we use social cultural means e g language stories art images etc to conceive of imaginary scenarios some of which may become real Imagination is involved in every situation of our lives though to different degrees Sometimes this process can lead to concrete products e g artistic works that can be picked up and used by others for the purposes of their imagining Imagination is not seen here as an isolated cognitive faculty but as the means by which people anticipate and constructively move towards an indeterminate future It is in this process of living forward with the help of imagination that novelty appears and social change becomes possible This book offers a conceptual history of imagination an array of theoretical approaches imagination s use in psychologist s thinking and a number of new research areas Its aim is to offer a re enchantment of the concept of imagination and the discipline of psychology more generally Science, Culture and the Search for Life on Other Worlds John W. Traphagan, 2016-08-26 This book explores humanity s thoughts and ideas about extraterrestrial life paying close attention to the ways science and culture interact with one another to create a context of imagination and discovery related to life on other worlds Despite the recent explosion in our knowledge of other planets and the seeming era of discovery in which we live to date we have found no concrete evidence that we are not alone Our thinking about life on other worlds has been and remains the product of a combination of scientific investigation and human imagination shaped by cultural values particularly values of exploration and discovery connected to American society The rapid growth in our awareness of other worlds makes this a crucial moment to think about and assess the influence of cultural values on the scientific search for extraterrestrial life Here the author considers the junction of science and culture with a focus on two main themes 1 the underlying assumptions many of which are tacitly based upon cultural values common in American society that have shaped the ways researchers in astrobiology and SETI have conceptualized the nature of their endeavor and represented ideas about the potential influence contact might have on human civilization and 2 the empirical evidence we can access as a way of thinking about the social impact that contact with alien intelligence might have for humanity *Creative Social Research* Ananta Kumar Giri, 2004-01-01 Calling for a reconceptualization and transformation of contemporary research methods in the social sciences Giri Madras Institute of Development Studies collects work by international scholars from a variety of disciplines and geographies to establish the ways in which contemporary global developments and the traditions of non Western societies **The Mammoth Encyclopedia of Extraterrestrial Encounters** Ronald Story, 2012-03-01 An illustrated A to Z guide to all things alien Over 400 entries from more than 100 contributors cover everything from the incidents and witnesses involved to the concepts at stake and experts personal position statements Entries range from alien abductions the Fantasy Prone hypothesis and JAL Flight no 1628 to the Lakenheath Bentwaters Episode mind control by aliens and Roswell The contributors include Isaac Asimov Jerome Clark Erich von Daniken Peter Davenport Hilary Evans Timothy Good Marvin Kottmeyer Jenny Randles Carl Sagan Whitley Streiber and Jacques Vallee There are over 300 images eyewitness drawings and photographs **The Encyclopedia of Alien**

Encounters Alan Baker,1999 Containing over 500 entries this historical reference work provides an A Z of alien and non human encounters It details the events encounters personalities and theories that have created this field of human experience and inquiry
