Passionate Leadership in Education Brent Davies, Tim Brighouse, 2008-08-21 I recommend the book as an inspiration to those who are looking for the words that express what they may already do or will do in the future for these well known writers have world wide experience in recognising and knowing what it is that makes the passionate leader International Journal of Educational Management This is a very interesting collection of chapters on leadership Each chapter is written with verve and conviction and it makes quite stimulating reading Curriculum Perspectives Passionate Leadership is a fantastic book by leading thinkers and doers in the education field It takes moral purpose to new levels and above all it puts passion in perspective The book shows that it is not passion by itself that counts but in combination with strategies insights and daily wisdom Above all this is a book of action not rhetoric Michael Fullan Professor Emeritus OISE University of Toronto and Special Adviser on Education to the Premier of Ontario How opportune that Brent Davies and Tim Brighouse have produced a book on Passionate Leadership As school leaders are becoming increasingly disillusioned with instrumental forms of educational reform Davies Brighouse and their contributors offer a new vision of leadership one that is driven by a belief that teaching is about enabling every child to reach their potential and a conviction that schools should be places filled with joy and optimism in the pursuit of social justice This inspiration will encourage all our leaders to take their work to a new level Professor David Hopkins HSBC iNet Chair of International Leadership Formerly the Chief Adviser to three Secretary of States In this book internationally recognized writers on leadership explore what makes leaders passionate about their role and their schools The contributors show that leadership must move on from the realm of a role or job towards an energy and

commitment for enhancing children's learning and children's lives. They maintain that passion must be the driving force that moves vision into action through a range of chapters from internationally known contributors: Brent Davies, Tim Brighouse, Geoff Southworth, Chris Day, John MacBeath, Andy Hargreaves, John Novak, Brian Caldwell, and Alan Flinham. What sustains and drives leaders to achieve in a changing and challenging educational environment? What maintains their passion for education and children's achievement? This book seeks to answer these questions. The book is essential for all students on leadership programs and educational professionals looking to achieve self and organisational improvement.

Being a Teacher Educator in Challenging Times Mike Hayler, Judy Williams, 2020-04-24. This book presents a duoethnographic exploration and narrative account of what it means to be a teacher educator today. Adopting a narrative approach, the book presents different personal, political, and institutional perspectives to interrogate common challenges facing teacher education and teacher educators today. In addition, the book compares and contrasts the teacher education landscapes in Australia and the UK and addresses a broad range of topics, including the autobiographical nature of teacher educators' work, the value of learning from experience, the importance of collegiality and collaboration in learning to become a teacher educator, and the intersection of the personal, professional, and political in the development of teacher educator pedagogies and research agendas. Each chapter combines personal narratives and research-based perspectives on the key dimensions of teacher educators' work that can be found in the literature, including self-study research. Readers will gain a better understanding of the processes, influences, and relationships that make being a teacher educator both a challenging and rewarding career. Accordingly, the book offers a valuable asset for university leaders, experienced and beginning teacher educators, and researchers interested in the professional learning and development of teacher educators.

Leading Schools in Challenging Circumstances Philip Smith, Les Bell, 2014-01-16. The leadership of schools can make a significant difference to enhancing the life chances of students in schools and enabling them to succeed. This book examines leadership within schools, focusing on securing success within a challenging social and political environment. It explores the approaches to leadership adopted by four successful secondary school headteachers in a local authority situated in an area of high social deprivation and identifies the impact the headteachers of these schools have on staff, students, and community. It analyses the key leadership strategies of these successful school leaders, strategies that can be deployed in all schools, and explores the links between leadership theories and leadership actions. The book goes on to examine how these strategies were actually implemented in a failing school in challenging circumstances and shows how other schools might benefit from such strategies and the insights on which they are based.
