Jensen, 2019-10-01 Pete Anderson the only Canadian officer to escape from a World War I POW camp and other adventures in the Russian revolution Pete Anderson was a genuine Canadian hero Canadians generally agree that heroes are celebrated less in their culture than in some others This treatment of heroes does little to recognize and value the many ordinary men and women who went before to attain extraordinary achievements Pete Anderson whom this book is about was such a person He didn't change the world But he did make a significant difference In typical Canadian fashion he didn't view himself as a hero Before going to war in 1914 Anderson had been an early pioneer in Edmonton Alberta where he had been a successful rich and respected businessman He was a middle aged man when he fought in the First World War Shortly after arriving in France he was captured by the enemy on his birthday In a daring escape he was able to breach the defences of the prisoner of war camp in which he was held and to return to Britain after an eventful transit through much of Germany He and others thought that he might have been the first Canadian to have escaped from the Germans He was not A fellow Albertan Cpl Ernest Atherton of the 10th

Battalion probably escaped slightly earlier However Anderson was not only the first Canadian officer to successfully escape he was also the only Canadian officer to escape during the First World War many others made the attempt but were recaptured Towards the end of the war Anderson volunteered to fight in northern Russia first against the Germans and then as part of an Allied attempt to overthrow the Bolshevik revolution of 1917 When he returned from his wars he had earned two Distinguished Service Orders DSO Bar a senior honour awarded for exemplary service under enemy fire **The**

Fahmy,2012-10-12 This book addresses two important matters of current

concern to Middle East scholars firstly the nature of the Egyptian state and society and the interactive process between them and secondly how change which would finally lead to development can be initiated The book argues that the Egyptian case

represents a weak authoritarian state which through its coercive and repressive policies towards various societal forces political parties professional associations and organisations and individuals creates a weak society Individual behaviour in urban and rural communities sometimes viewed as signs of the strength of societal forces is seen here as a symptom of a weak and fragmented society The existence of a weak society in turn impedes government objectives and hinders the implementation of developmental policies and programmes further weakening the state This being the case change has to be initiated externally in both the political and economic spheres
