Warkentin,2019-05-08 Time bombs Trojan Horses and Dithering Hamlets were all part of the everyday jargon of the World War II s ultra Secretive Political Warfare Executive PWE The PWE s instructors used these terms in the training of the next generation of propagandists and political warriors The Political Warfare Executive Syllabus reveals for the first time what it took to become a propagandist in what was then the most elite psychological warfare unit in the world Under the maxim that a good propagandist is trained not born the lecturers of the PWE Training School at Woburn Abbey and then Brondesbury systematically explored every aspect of how to deliver a lethal dose of propaganda to the enemy and then a purgative and curative dose in the peace that followed The views of the PWE s instructors were controversial This is significant because they would play an important if hidden role in how Europe is developing even today For example they held a low opinion of the French in general and considered that they had been reduced to the level of dithering Hamlets by the German Trojan Horses even before the first German tank had crossed the Belgian frontier On the dark side of PWE operations they were not above killing the prostitutes whose brothels served the German U Boot fleet in order to amplify their propaganda message Perhaps most significant is that they saw Great Britain as European and espoused a Europe that looks very much like the European Union of the early 21st Century However there is one important difference They saw this Greater Europe as accepting the British way of life and being led by Great Britain and not embracing American culture under German leadership This first volume introduces the reader to the history and theory of political warfare as seen through the eyes of the inheritors of Lord Northcliffe s Crewe House Drawing on J F C Fuller and his concept of a war fought in the mind without armies it establishes the theoretical parameters of political warfare **Reeds Nautical Almanac 2021** Perrin Towler,Mark Fishwick,2020-08-20 Reeds Nautical Almanac is the indispensable trusted annual compendium of navigational data for yachtsmen and motorboaters and provides all the information required to navigate Atlantic coastal waters around the whole of the UK Ireland Channel Islands and the entire European coastline from the tip of Denmark right down to Gibraltar Northern Morocco the Azores and Madeira The 2021 edition continues the Almanac s tradition of year on year improvement and meticulous presentation of all the data required for safe navigation Now with an improved layout for easier reference and with over 45 000 annual changes it is regarded as the bible of almanacs for anyone going to sea The 2021 edition is updated throughout containing over 45 000 changes and includes 700 harbour chartlets tide tables and tidal streams
