Spanish in Four Continents

Carmen Silva-Corvalán, 1997-04-01 This collection is the first to examine the effects of bilingualism and multilingualism on the development of dialectal varieties of Spanish in Africa America Asia and Europe Nineteen essays investigate a variety of complex situations of contact between Spanish and typologically different languages including Basque Bantu languages English and Quechua The overall picture that evolves clearly indicates that although influence from the contact languages may lead to different dialects the core grammar of Spanish remains intact Silva Corvalán's volume makes an important contribution both to sociolinguistics in general and to Spanish linguistics in particular The contributors address theoretical and empirical issues that advance our knowledge of what is a possible linguistic change how languages change and how changes spread in society in situations of intensive bilingualism and language contact a situation that appears to be the norm rather than the exception in the world

Distant Provinces in the Inka Empire Michael A. Malpass, Sonia

Alconini, 2010-03-15 Who was in charge of the widespread provinces of the great Inka Empire of the fifteenth and sixteenth centuries Inka from the imperial heartland or local leaders who took on the trappings of their conquerors either by coercion or acceptance By focusing on provinces far from the capital of Cuzco the essays in this multidisciplinary volume provide up to date information on the strategies of domination asserted by the Inka across the provinces far from their capital and the equally broad range of responses adopted by their conquered peoples Contributors to this cutting edge volume incorporate the interaction of archaeological and ethnohistorical research with archaeobotany biometrics architecture and mining engineering among other fields The geographical scope of the chapters which cover the Inka provinces in Bolivia in southeast Argentina in southern Chile along the central and north coast of Peru and in Ecuador build upon the many different ways in which conqueror and conquered interacted Competing factors such as the kinds of resources available in the provinces the degree of cooperation or resistance manifested by local leaders the existing levels of political organization convenient to the imperial administration and how recently a region had been conquered provide a wealth of information on regions previously understudied Using detailed contextual analyses of Inka and elite residences and settlements in the distant provinces the essayists evaluate the impact of the empire on the leadership strategies of conquered populations whether they were Inka by privilege local leaders acculturated to Inka norms or foreign mid level administrators from trusted ethnicities By exploring the critical interface between local elites and their Inka overlords Distant Provinces in the Inka Empire builds upon Malpass's 1993 Provincial Inca Archaeological and Ethnohistorical Assessment of the Impact of the Inca State to support the conclusions that Inka strategies of control were tailored to the particular situations faced in different regions By contributing to our understanding of what it means to be marginal in the Inka Empire this book details how the Inka attended to their political and economic goals in their interactions with their conquered peoples and how their subjects responded producing a

richly textured view of the reality that was the Inka Empire **Los cayambes y carangues** Waldemar Espinoza Soriano,1988 **Making Ecuadorian Histories** O. Hugo Benavides,2010-01-01 In Ecuador as in all countries archaeology and history play fundamental roles in defining national identity Connecting with the prehistoric and historic pasts gives the modern state legitimacy and power But the state is not the only actor that lays claim to the country s archaeological patrimony nor is its official history the only version of the story Indigenous peoples are increasingly drawing on the past to claim their rights and standing in the modern Ecuadorian state while the press tries to present a neutral version of history that will satisfy its various publics This pathfinding book investigates how archaeological knowledge is used for both maintaining and contesting nation building and state hegemony in Ecuador Specifically Hugo Benavides analyzes how the pre Hispanic site of Cochasqui has become a source of competing narratives of Native American Spanish and Ecuadorian occupations which serve the differing needs of the nation state and different national populations at large He also analyzes the Indian movement itself and the recent controversy over the final resting place for the traditional monolith of San Birtute Offering a more nuanced view of the production of history than previous studies Benavides demonstrates how both official and resistance narratives are constantly reproduced and embodied within the nation state s dominant discourses
