Representations of Child Soldiers in Contemporary African Narratives Ademola Adesola,2024-09-11 In *Representations of Child Soldiers in Contemporary African Narratives* Ademola Adesola examines the dominant factors that writers privilege in their portrayals of child soldiering in sub Saharan Africa In his textual interpretive analyses of selected novels in the African child soldier genre Adesola contends that critical discussions of African child soldier literature have depended on the interpretive frameworks supplied by Western humanitarian discourses which oversimplify and de historicize experiences of war in Africa The author argues that such reductive decontextualization of war realities serve to champion a narrow vision of war in African contexts centered on a moral and humanitarian urge for Western intervention Regardless of whether the *casus belli* legitimating those wars are genuine or not those conflicts and children s involvement in them are understood within the same racist colonial and ethnocentric stereotypes about Africa that have been privileged in Western thought and the Western moral political imagination for centuries Thus in studying African child soldier narratives this book provides an alternative reading of novels whose settings feature African ethnopolitical conflicts such as in Sierra Leone Liberia Congo Brazzaville Nigeria notable for their exploitation of children for military ends The author maintains that these works are significant in the varying ways they reify and challenge the Western ideas of child and childhood as well as privilege child soldiers as social actors whose intricate makeups disavow being simply understood as innocent victims or irredeemable perpetrators of atrocities

Simon Marsden, 2018-09-21 This study examines theological themes and resonances in post 1970 Gothic fiction It argues that contemporary Gothic is not simply a secularised genre but rather one that engages creatively and often subversively with theological texts and traditions This creative engagement is reflected in Gothic fiction's exploration of theological concepts including sin and evil Christology and the messianic resurrection eschatology and apocalypse Through readings of fiction by Gothic and horror writers including Stephen King Joyce Carol Oates Peter Straub William Peter Blatty and others this book demonstrates that Christianity continues to haunt the Gothic imagination and that the genre's openness to the mysterious numinous and non rational opens space in which to explore religious beliefs and experiences less easily accessible to more overtly realist forms of representation The book offers a new perspective on contemporary Gothic fiction that will be of interest to students and scholars of contemporary Gothic and of the relationship between literature and religion more generally
