Ola-Buraimo,2011-04-12 The analytical views in this book are not in any way serendipity rather they were well thought out and structured as simply received Thus arises the need to initiatively look back at the epoch of our existence on Earth as preceded by the following survival of the fittest search for food where to live sacrifices and rituals to appeal to God brutalism against one another religious sect formation and deforestation due to uncontrollable population increase Improvisation of wooden houses trees of concrete iron and steel have been initiated but in a way they have continually caused global warming to increase very much at a gradual pace as civilization advances through Machine Age mechanized farming industrialization and technological advancements space exploration and globalization of industries and corporate organizations The heat increases at an unusual unprecedented level due to greenhouse gas emission and thus the assumed greenhouse releases a light weight carbon dioxide CO₂ gas into the atmosphere which is speculated to have formed impenetrable blanket The presence of CO₂ is an indicator pointing to a fact that this gas in question had been released in the past and is presently being discharged uncontrollably More so there seems to be no end in sight as the CO₂ continues to be sporadically expunged into the atmosphere The process described above has continued to be expanding through all frontiers with no end in sight where new neighborhoods are being built Suburbs margining together as new Castles are evolving block by block and concrete plazas are enveloping the Earth so are the vegetative forest of trees are disappearing causing global warming to increase exponentially The increase becomes very much intense at an alarming rate in that it has now been considered to be adversely effective when found to be dangerously impacting the essence and every facet of life Analytical research is hereby required to be conducted by the world s best researchers and scientists in their respective professional fields Necessary wisdom of advice has to be forwarded by religious leaders of all known notable reliable religious groups or denominations Leaders and heads of governments of all Nations that control every facet of life in every part of the globe must guide and monitor purposely to do proper checks and balances with intuition ideology predictions and prophecies contained in this book The Land the Orchard of Human Species This is to determine the level of damages caused by humanity thereby putting the Earth s conditions into a scale of ratio prior to civilization and as civilization progresses i e the condition of the Earth from time immemorial as the scientists and archaeologists can determine through lists of records and documentaries Precisely from premedieval periods to present days and age while projecting into the future of the planet Earth in order for us to be just and find peace among ourselves and on Earth If humanity cannot find

peace on Earth then we cannot find peace elsewhere because human s trait is like a shadow that trails behind you when you take a walk in the light Source of all lives and the means of energy and growth **English for Lovers of English** S.K.

Rana,2016-07-30 In this book I have brought together about 1 400 utterances that are faulty None of these faulty utterances have been produced by me to illustrate incorrect use of English All the faulty utterances found in this book have been taken from printed materialmostly from the newspapers I read In order to focus attention on the error I have shortened some of the faulty utterances To me it is very important that the faulty utterances in this book have not been produced by me Jacques Barzun the celebrated American scholar and recipient of the Gold Medal for Criticism from the American Academy of Arts and Letters has something very pertinent to say on genuine faults as opposed to faults that have been produced as sample utterances This is what Barzun says In student writing when the assignments are frequent and well designed all kinds of error and clumsiness occur that are never found in the sample sentences of manuals and grammar books These faults have the advantage of being genuine they represent somebodys way of thought and finding them faulty is a therapeutic attack on the mind that produced them Barzun is talking about writing done by university students in America but what he says about it is applicable to a great deal of Indian writing too **Commentary on Romans** Ernst Kasemann,1994 Emphasizing

theological rather than historical questions Kasemann divides Romans into sections according to what he sees as the key theological concept of the letter the righteousness of God Detailed bibliographies are provided for each section of the text

The Enoch-Metatron Tradition Andrei A. Orlov,2005 Andrei A Orlov examines the tradition about the seventh antediluvian patriarch Enoch tracing its development from its roots in the Mesopotamian lore to the Second Temple apocalyptic texts and later rabbinic and Hekhalot materials where Enoch is often identified as the supreme angel Metatron The first part of the book explores the imagery of the celestial roles and titles of the seventh antediluvian hero in Mesopotamian Enochic and Hekhalot materials The analysis of the celestial roles and titles shows that the transition from the figure of patriarch Enoch to the figure of angel Metatron occurred already in the Second Temple Enochic materials namely in 2 Slavonic Enoch a Jewish work traditionally dated to the first century CE The second part of the book demonstrates that mediatorial polemics with the traditions of the exalted patriarchs and prophets played an important role in facilitating the transition from Enoch to Metatron in the Second Temple period

years radical Islamists have won in many places and many times because of the two world wars and the Cold War But the recent years have shown new levels of gruesome and ghastly activity Most Muslims of the world numbering 1.6 billion people total condemn these atrocious deaths and are peaceful They feel their religion is hijacked by a few radicals After September 11 2001 the former president George Bush declared the face of terror is not the true faith of Islam That's not what Islam is all about Islam is peace These terrorists don't represent peace They represent evil and war The leading Muslim country Egypt is fighting terrorism unrelentingly with full force However the rise of Islamic terrorism in the UK Belgium France Somalia the Philippines Afghanistan and other places in Asia the Middle East and Africa is a great threat to the mankind The radical Islamists consider the American invasion of Afghanistan in 2001 and Iraq in 2003 to be a war against Islam These events helped to create a resurgence of radical Islam from Indonesia to Iran to secular Turkey Jihad in the Muslims holy book the Koran refers to inner strife but for centuries radicals have misconstrued it to mean a violent brutal war against

The Hermeneutics of Divine Testing Nicholas Ellis, 2015-06-29 Nicholas Ellis examines the interplay present in early Jewish literature between authors theological assumptions on divine agency in evil and their readings of biblical testing narratives Ellis takes as a starting point the Epistle of James and compares this early Christian work against other examples of ancient Jewish interpretation Ellis shows how varying perspectives on the divine satanic and human roles of testing exercised a direct influence on the interpretation of popular biblical testing narratives such as Abraham and Isaac

Job and the Trials in the Wilderness Read in light of the broader Jewish literature Ellis argues that the theology and hermeneutic found in the Epistle of James as such relate to divine testing are closely paralleled by the so called Rewritten Bible tradition Within James cosmic drama God stands as righteous judge with the satanic prosecutor indicting both divine integrity and human religious loyalty
