Hadden, 1962 *Housing and Housing Politics in European Metropolises* Rainer Wehrhahn, Jörg Pohlen, Christine Hannemann, Frank Othengrafen, Brigitta Schmidt-Lauber, 2019-03-04

Neoliberal paradigms and the privatisation of housing have recently been confronted with social movements in many large European metropolises The political and social need for more participation in housing for new forms of urban land politics and for specific and powerful rental regulation is obvious The special book section analyses these dimensions of housing and housing politics in a comparative European perspective and discusses new policy approaches for urban housing Furthermore the Jahrbuch StadtRegion offers scientific articles and reports as well as a monitoring section and book reviews related to interdisciplinary urban research and planning issues Sinn Féin and the Politics of Left Republicanism Eoin Ó Broin, 2009-02-20 Sinn Fein is a growing force in Irish politics Now the country's third largest party Sinn Fein have been one of the central architects of the peace process and are increasingly setting the terms of political debate in Ireland north and south Despite this the party remains much misunderstood and often misrepresented Sinn Fein and The Politics of Left Republicanism explores the ideological and organisational origins of the party charts their history and recent political development and assesses their possible futures Eoin O Broin argues that Sinn Fein is part of a distinct left republican tradition in Irish society whose future lies in the globally resurgent radical democratic left The Political Ecology of the Metropolis Jefferey M. Sellers, Daniel Kübler, R. Alan Walks, Melanie Walter-Rogg, 2013 A growing majority of humanity lives in sprawling interconnected urban regions Diversified metropolitan geographies have replaced the centuries old divide between urban and rural areas and transformed the local sources of electoral politics The resulting patterns of electoral support and participation have shifted axes of partisan competition to the right This volume undertakes the first international comparative analysis of metropolitan political behaviour The results support a powerful new thesis to explain many recent shifts in political behaviour the metropolitanisation of politics **The Yoruba** Akinwumi Ogundiran, 2020-11-03

The Politics of Local Innovation Hubert Heinelt, Björn Egner, Nikolaos-Komninos Hlepas, 2021-12-30 Some cities manage to mobilize innovation potentials and respond to challenges such as demographic change and immigration as well as economic restructuring while others do not This book solves this problem by answering the following question what are the conditions for the development of local innovation In order to identify these conditions the book explores case study cities which are perceived as success cases of

local innovation by the respective local community and sometimes also nationally or internationally The conditions for local innovations are not sought primarily in economic social or institutional circumstances Instead this book focuses on the communicative interactions by which local actors develop locally embedded knowledge or a specific social imaginary about those circumstances as well as the constraints and opportunities deriving from them The authors focus on a comparative case study of ten cities Bensheim Frankfurt Kassel Leipzig and Offenbach in Germany and Athens Chania Elefsina Kalamata and Thessaloniki in Greece The book is based on content analysis of policy documents and local newspapers as well as in depth interviews with key local actors This book will be of interest to scholars and students of political science and policy analysis as well as sociology geography urban studies and planning It will also interest local politicians and bureaucrats concerned with achieving innovation in cities *Bibliography of Landscape Architecture, Environmental Design, and Planning*

Kenneth Finegold,2020-11-10 During the Progressive Era reform candidates in New York Cleveland and Chicago challenged the status quo with strikingly different results brief triumph in New York sustained success in Cleveland and utter failure in Chicago Kenneth Finegold seeks to explain this phenomenon by analyzing the support for reform in these cities especially the role of an emerging class of urban policy professionals in each campaign His work offers a new way of looking at urban reform opposition to machine politics Drawing on original research and quantitative analysis of electoral data Finegold identifies three distinct patterns of support for reform candidates traditional reformers drew support from native stock elites municipal populists found support among stock immigrant groups and segments of the working class and progressive candidates won the backing of coalitions made up of traditional reform and municipal populist voters The success of these reform efforts Finegold shows depended on the different ways in which experts were incorporated into city politics This book demonstrates the significance of expertise as a potential source of change in American politics and policy and of each city's electoral and administrative organizations as mediating institutions within a national system of urban political economies

Explorations in Urban Theory Michael Peter Smith,2017-07-12 For over three decades urban theorist Michael Peter

Smith has engaged in constructing innovative theories on central research questions in urban studies This book brings together his views on the state of urban theory sorting out the changing strengths and weaknesses in the field Smith refocuses attention on the cultural social and political practices of urban inhabitants particularly the way in which their everyday activities have contributed to the social construction of new ethnic identities and new meanings of urban citizenship Combining the methods of political economy and transnational ethnography he encourages us to think about new political spaces for practicing urban citizenship by analyzing the connections linking cities to the web of relations to other localities in which they are embedded Smith systematically analyzes the dynamics of community power and urban change under new globalizing trends and increased transnational mobility Expanding on his original conceptualization of transnational urbanism he frames urban political life within a wider transnational context of political practice in which an endless interplay of distinctly situated networks social practices and power relations are fought out at multiple scales in an inexorable politics of inclusion and exclusion

People & Politics in Urban America Robert W. Kweit, Mary G. Kweit, 2013-10-31 This revised textbook for courses on urban politics challenges the notion that the field is dominated by political economy showing that despite the undeniable importance of economic issues citizens do play a significant part in urban politics
