## **Other Side Of The River Red China Today:**

*The Other Side of the River* Edgar Snow, 1974      **Red China today** Edgar Snow, 1973      Edgar Snow John Maxwell Hamilton, 2003-09-25 Edgar Snow 1905 1972 was one of the most notable Western journalists to report on China in both the revolutionary and postrevolutionary periods He first became famous in the mid 1930s when he broke through a Nationalist blockade and reached the Communists in northwest China For nearly a decade no foreign reporter had seen the Communists who were widely regarded as a ragtag bandit army Snow took them seriously as a national movement His reporting in the now famous book *Red Star over China* was major news even to the Chinese thousands of whom joined the Communists after reading it It has remained a seminal reference on the early Chinese Communist movement In this award winning biography journalist John Maxwell Hamilton follows Snow from his birth in Kansas City to his rise as a celebrated foreign correspondent for the Saturday Evening Post his ostracism during the cold war and his role as a singular journalistic bridge between Communist China and the United States With a new preface by the author this revealing portrait of the widely misunderstood Snow firmly establishes him as a model for the kind of committed reporting that is crucial to understanding our interdependent world      **Civil War in China** Suzanne Pepper, 1999-07-22 Many books have tried to analyze the reasons for the Chinese communist success in China s 1945\_1949 civil war but Suzanne Pepper s seminal work was the first and remains the only comprehensive analysis of how the ruling Nationalists lost that war \_not just militarily but by alienating the civilian population through corruption and incompetence Now available in a new edition this authoritative investigation of Kuomintang failure and communist success explores the new research and archival resources available for assessing this pivotal period in contemporary Chinese history Even more relevant today given the contemporary debates in Hong Kong and Taiwan over the terms of reunification with a communist led national government in Beijing this book is essential reading for anyone seeking a nuanced understanding of twentieth century Chinese politics      **China Shakes the World** James Kynge, 2007 Drawing on his years in the country and his fluency in Mandarin Kynge probes beyond the familiar statistics to unearth the surprising reasons for China s explosive growth      Archival Resources of Republican China in North America Chengzhi Wang, Su Chen, 2015-12-08 North America maintains the largest collection of archival materials relating to the Chinese Republican era 1911 1949 outside of China Most of the archival materials are also unique and the collections contain special materials supplementing historical records in China and Taiwan In many cases North America s holdings represent the best and only public access to the tumultuous Republican government and society of the first half of the twentieth century An essential guide for researchers and students of Republican China this volume presented in both English and Chinese covers personal papers correspondences memoirs diaries photographs moving images and other materials held at academic and research institutions across the United States and Canada It includes concise descriptions of the people organizations and events connected to each entry and notes when certain collections are closely related and when materials

are digitized for online access The book corrects common errors associated with the library records of many archives and updates or completes information on the objects of these records More than a straightforward itemization this book adds significant depth to any research on the history and global import of China's modern development *The Statesman's Year-Book 1970-71* J. Paxton, 2016-12-23 The classic reference work that provides annually updated information on the countries of the world *China's Political-Military Evolution* Monte R. Bullard, 2019-03-08 In recent years the People's Liberation Army PLA has relinquished much of its political power to China's civilian leadership and has turned to the task of professionalizing the military The transition of the PLA into a relatively apolitical force in Chinese society has occurred alongside great progress toward military modernization with the foundation now laid for the PLA to become one of the world's most powerful military forces Dr Bullard traces the PLA's extremely important and almost revolutionary transition examines the structural changes associated with it and assesses current military policies and trends He discusses in detail the political commissar system the key institution for all political military relationships in the Chinese military system **East Wind** Tom Buchanan, 2012-04-19 East Wind offers the first complete archive based account of the relationship between China and the British Left from the rise of modern Chinese nationalism to the death of Mao Tse tung Beginning with the Hands Off China movement of the mid 1920s Tom Buchanan charts the mobilisation of British opinion in defence of China against Japanese aggression 1931 1945 and the role of the British left in relations with the People's Republic of China after 1949 He shows how this relationship was placed under stress by the growing unpredictability of Communist China above all by the Sino Soviet dispute and the Cultural Revolution which meant that by the 1960s China was actively supported only by a dwindling group of enthusiasts The impact of the suppression of the student protests in Tiananmen Square June 1989 is addressed as an epilogue East Wind argues that the significance of the left's relationship with China has been unjustly overlooked There were many occasions such as the mid 1920s the late 1930s and the early 1950s when China demanded the full attention of the British left It also argues that there is nothing new in the current fascination with China's emergence as an economic power Throughout these decades the British left was aware of the immense unrealised potential of the Chinese economy and of how China's economic growth could transform the world In addition to analysing the role of the political parties and pressure groups of the left Buchanan sheds new light on the activities of many well known figures in support of China including intellectuals such as Bertrand Russell R H Tawney and Joseph Needham Many other interesting stories emerge concerning less well known figures which show the complexity of personal links between Britain and China during the twentieth century **Asia's Population Problems** S. Chandrasekhar, 2022-11-16 Asia's Population Problems 1967 features papers written by specialists demographers economists and sociologists examining the various population issues facing different Asian countries in the decades following the Second World War Population facts and policies apart from affecting an individual's happiness and security and a nation's economic and social advancement have come to play an important role in

international relations A proper understanding of demographic trends is key and this volume aims to supply significant population facts and figures and also provides the general national economic and political framework of each country against which certain international demographic attitudes approaches and policies may be understood
