Ottoman Peoples And The End Of Empire:

The Ottoman Peoples and the End of Empire Justin McCarthy, 2001 Here historian Justin McCarthy tells the story of the collapse of the Ottoman Empire and how this changed the lives of Slavs Turks Greeks Arabs and Armenians The history has striking parallels as well as direct links to the crises in the Balkans today For six centuries the Ottoman Empire united a diverse array of religious and ethnic groups but its dissolution into distinct states left a tradition of nationalism and ethnic enmity in much of the Balkans and Middle East In particular the majority of the Muslim population of the Ottoman Balkans would never be integrated into the new states as the national characters of these states depended in part on the elimination of outsiders The new map of the Balkans and Middle East which was largely the product of the victorious Allies after World War I made little concession to practical concerns such as access to seaports or the rights of minorities Only the Turkish Republic was able to thwart the plans of the conquerors by defeating military incursion Ideal for undergraduates in history and political science The Ottoman Peoples and the End of Empire provides the historical background to one of the central conflicts of our time

The Ashgate Research Companion to Modern Imperial Histories John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of

a specific empire while at the same time placing it within the complex patterns of wider imperial constellations. The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature. In Part III Themes scholars think critically about some of the key features of imperial expansion and decline. These chapters are brief and many are provocative. They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire. The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political, economic and cultural processes central to the formation and maintenance of empires as well as institutions, ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire. In these pages the reader will find the slave and the criminal, the merchant and the maid, the scientist and the artist alongside the structures which sustained their lives and their livelihoods. Overall the companion emphasises the diversity of imperial experience and process. Comprehensive in its scope, it draws attention to the particularities of individual empires rather than over-generalising as if all empires at all times and in all places behaved in a similar manner. It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire.

The Balkans Mark Biondich, 2011-02-17 Examines the origins of political violence in the Balkans since the 19th century while treating the region as an integral part of modern European history, reminding us that political violence and ethnic cleansing are hardly unique to this region.

Conflicts, Religion and Culture in Tourism Razaq Raj, Kevin A Griffin, 2017-10-10 Conflicts, Religion and Culture in Tourism highlights the role of religious tourism and pilgrimage as a tool for improving cultural relations. Helping to form culture and society worldwide, faith plays a vital part in cross-cultural conflict resolution and opening dialogue across peoples. This book shows how faith and activism can respond to the common challenges of peace-making and coexistence both within and among the world's many traditions. Conflicts, Religion and Culture in Tourism provides a timely assessment of the increasing linkages and interconnections between religious tourism and secular spaces on a global stage. Written from a multidisciplinary perspective, it provides an invaluable resource for those studying and researching religion, tourism and cultural management.

Syria Dawn Chatty, 2018-02-01 The dispossession and forced migration of nearly 50 per cent of Syria's population has produced the greatest refugee crisis since World War II. This new book places the current displacement within the context of the widespread migrations that have indelibly marked the region throughout the last 150 years. Syria itself has harbored millions from its neighboring lands and Syrian society has been shaped by these diasporas. Dawn Chatty explores how modern Syria came to be a refuge state, focusing first on the major forced migrations into Syria of Circassians, Armenians, Kurds, Palestinians and Iraqis. Drawing heavily on individual narratives and stories of integration, adaptation and compromise, she shows that a local cosmopolitanism came to be seen as intrinsic to Syrian society.

She examines the current outflow of people from Syria to neighboring states as individuals and families seek survival with dignity arguing that though the future remains uncertain the resilience and strength of Syrian society both displaced internally within Syria and externally across borders bodes well for successful return and reintegration If there is any hope to be found in the Syrian civil war it is in this history **The Oxford History of the First World War** Hew

Baskett,Louis Mazzari,Gönül Pultar,2019-03-15 This collection of essays discusses various aspects of the experiences of Turkish immigrants in the United States and of US expatriates in Turkey It explores the predicament of the Turkish American element on US soil in a manner paralleling already existent disciplines such as Italian American Studies and German American Studies and assembles disparate research on the subject As such it will serve to herald in print the launching of a new paradigm Turkish American Studies The volume fits within transnational American Studies but also develops its own approach which is what constitutes its novelty **Faith and Sword** Alan G. Jamieson,2016-11-15 With the recent surge in terrorist acts and military confrontations as well as ever strengthening fundamentalist ideologies the Christian Muslim divide is perhaps more visible than ever but it is not new Alan G Jamieson explores here the long and bloody history of the Christian Muslim conflict revealing in his concise yet comprehensive study how deeply this ancient divide is interwoven with crucial events in world history Faith and Sword opens with the tumultuous first centuries of the conflict examining the religious precepts that framed clashes between Christians and Muslims and that ultimately fueled the legendary Crusades Traversing the full breadth of the Arab lands and Christendom Jamieson chronicles the turbulent saga from the Arab conquests of the seventh century to the rise of the powerful Ottoman Empire and its fall at the end of World War I He then explores the complex dynamics that emerged later in the twentieth century as Christendom was transformed into the secular West and Islamic nations overthrew European colonialism to establish governments straddling modernity and religiosity From the 1979 Iranian revolution to the Lebanon hostage crisis to in this new expanded edition the recent wars in Syria Iraq and

Afghanistan Faith and Sword reveals the essence of this enduring struggle and its consequences **Labour Migration from Turkey to Western Europe, 1960-1974** Ahmet Akgunduz, 2017-12-22 Groundbreaking in its comprehensiveness this book illuminates the migration of workers from Turkey to Western Europe with new perspectives previously overlooked in research. Indeed, this is the first study of its kind to cover the entire migration process making extensive use of primary as well as secondary sources in four languages and it draws on both the historiography and the social sciences of migration. It presents new analyses of the so-called push factors behind this movement and explores the role of the sending state, the system and channels through which labour exits the labouring population's attitudes towards moving to the West and the relevance of social networks in the migration process. The volume offers a critical assessment of the significance of Turkish labour migration with regard to the demand for foreign labour in Europe with particular emphasis on the cases of Germany and the Netherlands **International History of the Twentieth Century and Beyond** Antony Best, Jussi Hanhimäki, Joseph A. Maiolo, Kirsten E. Schulze, 2014-12-17 This hugely successful global history of the twentieth century is written by four prominent international historians for first-year undergraduate level and upward. Using their thematic and regional expertise, the authors have produced an authoritative yet accessible and seamless account of the history of international relations in the last century covering events in Europe, Asia, the Middle East, Africa, and the Americas. They focus on the history of relations between states and on the broad ideological, economic, and cultural forces that have influenced the evolution of international politics over the past one hundred years. The third edition is thoroughly updated throughout to take account of the most recent research and global developments and includes a new chapter on the international history of human rights and its advocacy organizations including NGOs. Additional new features include New material on the Arab Spring including specific focus on Libya and Syria. Increased debate on the question of US decline and the rise of China. A timeline to give increased context to those studying the topic for the first time. A fully revised companion website including links to further resources and self-testing material can be found at www.routledge.com/cw/best. Antony Best is Associate Professor in International History at the London School of Economics. Jussi M. Hanhimäki is Professor of International History and Politics at the Graduate Institute of International Studies, Geneva. Joseph A. Maiolo is Professor of International History at the Department of War Studies, King's College London. Kirsten E. Schulze is Associate Professor in International History at the London School of Economics **Patriarchy After Patriarchy** Karl Kaser, 2008 Since the second half of the 1980s social movements which questioned the legitimacy of the hitherto seemingly stable systems of Kemalist Turkey and socialist Balkans won ground. Political Islam struck Turkey; in the Balkan socialist countries the dams broke and parliamentary democracies replaced monolithic socialist regimes. These processes have not been gender neutral. Therefore the central question is: after the abolition of patriarchy and the official installation of gender equality, are patriarchy and female discrimination returning in the region through the backdoor, although in a modernized version **World War I** Spencer C.
