Elenchus of Biblica Robert North,1997 Précis de sémiotique générale Jean-Marie Klinkenberg,2000 L homme semble communiquer aussi naturellement qu'il mange ou respire Mais cette simplicité apparente dissimule des mécanismes laborieux que les cultures créent et imposent Au cœur de ces mécanismes la signification La sémiotique est la discipline qui étudie ce phénomène Pour la première fois grâce à Jean Marie Klinkenberg le grand public trouvera initié toutes les dimensions de cette science carrefour qui fait dialoguer entre elles l'anthropologie et la linguistique la philosophie et les sciences de la communication Dans cette synthèse originale rédigée en un langage clair l'auteur rompt une lance en faveur d'une sémiotique cognitive quoi il donne la dimension sociale qui est celle de la rhétorique **Donum Grammaticum** Hannah Rosén,2002 The articles in this volume treat issues in Hannah Rosen's many fields of scholarly interest Most of the articles deal with subjects in Latin linguistics and philology others treat Celtic linguistics and philology while some combine the two A number of the papers take Hannah Rosen's own work as their point of departure especially research on nominalization and periphrasis on tense use and narrative structure on translation technique The authors adopt a variety of perspectives and approaches This volume includes many contributions that are descriptive comparative or historical in nature as well as some reflecting a literary orientation A few authors use the text and its structure as their framework A wide range of approaches to syntactical analysis on various levels of expression is prominently represented in the work of many of the contributors

Etudes de linguistique générale et de linguistique latine Guy Serbat,1987 Peeters 1987 **Latin Linguistics and Linguistic Theory** Harm Pinkster,1983-01-01 The articles of this collection on Latin linguistics are representative of the kind of research that is currently carried out in the field of linguistics Most deal with syntax or sentence structure but they vary with respect to their emphasis on theory or description They also vary with respect to the grammatical framework with which they are formulated with some preponderance of transformational generative approaches All papers are well informed about the major developments in contemporary linguistics and make extensive use of recent methods and types of argumentation In the introduction the volume editor briefly reviews the present state of Latin linguistics starting with a section on the question whether it is possible to conduct up to date linguistic research for Latin at all To be followed by a brief sketch of the impact of recent linguistic theories on Latin linguistics in general and in a final third section an outline is presented of the possible interest the contributions to this volume may have for linguists working on languages other than Latin *Expressing the Same by the Different* Igor Dreer,2007 This volume offers an alternative sign oriented analysis of the distribution of the French Indicative and Subjunctive It rejects both government and functions attributed to both moods and shows that the distribution of the Indicative and the Subjunctive is motivated by their invariant meanings The volume illustrates the close interaction between the Indicative and the Subjunctive as linguistic signs and signs of other grammatical systems contextually associated with the invariant meanings of both moods Special consideration is given to the use of the

Indicative and the Subjunctive in texts of different styles and genres This volume also deals with the diachronic disfavoring of the Subjunctive and especially of the Imperfect Subjunctive that occurred from Old French to Contemporary French It is argued that this disfavoring was motivated by the narrowing of the invariant meaning of the Contemporary French Subjunctive All hypotheses are supported by contextualized examples and frequency counts **Précis de sémantique française** Mariana Tuțescu,1979 *Problems and Perspectives* Wendy Ayres-Bennett,Janice Carruthers,Rosalind Temple,2014-02-25 *Problems and Perspectives* Studies in the Modern French Language looks at a number of interesting or problematic areas in the phonology morphology syntax and lexis of the French language and encourages the reader to think critically about different ways of approaching describing and explaining these issues or data The book is divided into two parts the first section is a preliminary to and contextualises the discussion of the more specialised topics of the second part Part two presents problematic and controversial areas in the description and analysis of the contemporary language Where appropriate historical and sociolinguistic issues are also integrated into the discussion of modern French Aimed primarily at advanced students and researchers in French linguistics the introductory sections of part one also make this book accessible to undergraduates beginning their study of French linguistics and to less specialised readers Fundamentals of French Syntax Christopher J. Gledhill,2003 **Didactique de la poésie au premier cycle** gabriel Haipam,2016 Ce livre se propose de remettre au go t du jour l enseignement de la po sie dans le sous cycle d observation de l enseignement secondaire Ainsi l auteur dans sa posture de professeur des lyc es de l enseignement secondaire g n ral trouve t il idoine d axer toutes les investigations sur les diff rentes possibilit s de prise en compte de ce genre litt raire dans les programmes d apprentissage scolaire Car ce n est plus un secret pour personne le genre po tique n est plus n gliger dans nos programmes d tude Non seulement il est urgent de p renniser la passerelle jouxtant l enseignement de base aux enseignements secondaires mais la po sie doit retrouver ses lettres de noblesse l cole et dans le monde On peut le faire par la d clamation ceci afin de renforcer les comp tences communicationnelles et surtout lectoriales Nous pouvons galement favoriser une accessibilit certaine de la po sie aux l ves et enseignants par l instauration des textes classiques ceci dans le but de susciter la cr ativit r dactionnelle des uns et des autres Les enseignants quant eux doivent apporter toute leur contribution dans le but de faire participer les apprenants des ateliers de lecture d invention la finalit tant de cerner les atouts des pratiques cr atrices et de compr hension de la po sie Précis d'ancien français - 3e éd.
