Child Composers and Their Works Barry Cooper, 2009-06-03 In *Child Composers and Their Works: A Historical Survey* Barry Cooper examines over 100 composers born before 1900 who wrote substantial musical works before age 16. The book provides a general overview of the subject, examining the ways and identifying possible reasons these works have been marginalized in the general literature. The book also contains an annotated checklist of over 100 notable child composers, presenting a valuable and handy reference of these creators and their early works. The annotated checklist presents a chronological listing of child composers born before 1900 and features a descriptive list of what they wrote, often including analytical commentary and offering occasional music examples for illustration. The list also includes a select catalog of works, suggestions for further reading, and recordings when available. Complete with a bibliography and an index of composers, this resource is invaluable to scholars and historians.

Modern Times Robert P. Morgan, 1993-11-02 This volume covers the development of modern music from World War I to the present. Specific musical responses can be identified from the prevailing social, economic, and political circumstances. Since World War II, musical languages have tended to converge with developments in technology and communications. Robert P. Morgan is the author of *Twentieth Century Music* and co-editor of *Alban Berg: Historical and Analytical Perspectives*.

Sorabji: A Critical Celebration Paul Rapoport, 2017-07-05 Kaikhosru Shapurji Sorabji (1892-1988) was an unusual legend in his own lifetime, a Parsi composer and critic living in England whose compositions are of such length and difficulty that he felt compelled to ban public performances of them. This book, the first devoted to Sorabji, explores his life and character, his music, his articles, and letters. It both presents the legend accurately and dispels its exaggerated aspects. The portrait which emerges is not of a crank or eccentric but of a highly original and accomplished musical thinker whose recent performances and recordings confirm as unique and important. Most of the contributors knew Sorabji personally. They have all written about or performed his music, gaining international recognition for their work. Generous quotation of Sorabji's published and unpublished music and prose assists in bringing him and his work strikingly to life. The book also contains the most complete and accurate register of his work ever published.

Musical Denmark, 1994 **Rued Langgaard's**

compositions Bendt Viinholt Nielsen, 1991 [The Early Works of Niels W. Gade](#) Anna Harwell Celenza, 2001 Since the centennial of his death, appreciation for the music of the Danish composer Niels W. Gade (1817-1890) has been growing steadily in Europe and the United States. This in-depth study of Gade's life and music is the first in English and describes the evolution of Gade's composition style and re-evaluates his supposed role as a nationalist composer.
