Rumanian Air Force The Prime Decade 19381947

Francesco Sorge, Giuseppe Genchi

Rumanian Air Force The Prime Decade 19381947:

A History of the Mediterranean Air War, 1940-1945 Christopher Shores, Russell Guest, 2025-09-30 In 1943 Allied bombers from Italy launched strategic attacks on Axis oil fields factories and Danube supply routes Following the inter Allied Casablanca Conference in January 1943 the outline for the Combined Bomber Offensive was agreed and resulted in early February with the Casablanca Directive This required the progressive destruction and dislocation of the German military industrial and economic systems and the undermining of the morale of the German people to a point where their capacity for armed resistance is fatally weakened This directive was clarified in June when the Combined Chiefs of Staff issued the Pointblank Directive that stated that the highest priority targets were the fighter aircraft factories to ensure that in the coming invasion of France the enemy would not have air superiority When these directives were issued it was envisaged that as well as attacks by RAF Bomber Command and the US 8th Air Force based in England the strategic bomber forces in Italy would begin operations once suitable bases were available After the Allied landings in Italy and resulting collapse of the Italian fascist regime a network of bomber bases was hastily developed Thus on 1 November 1943 the US 15th Air Force was formed to conduct the daylight bombing offensive against strategic targets in southern Germany and across southeastern Europe Key among these were the Rumanian oilfields and traffic along the River Danube This new formation was joined by the smaller but highly effective 205 Group RAF that was trained and equipped for night bombing so mirroring their equivalent British based formations The damaging attacks on the Reich s oil supplies and the highly effective Danube mining campaign conducted at night by 205 Group delivered huge strategic effect The latter reduced vital oil and goods traffic into the Reich to a trickle but also dislocated the supply and logistics train into the southern part of the Eastern Front so giving manifest support to the Soviets In this volume the early months of this hugely significant air campaign are described in minute and original detail and are accompanied by hundreds of hitherto unpublished photographs In combating these attacks Germany s Axis allies such as Hungary Rumania Bulgaria and Slovakia were encountered for the first time by the Western Allies **Air Force Magazine** ,1999-07 *Rumanian Air Force* Dénes Bernád,1999-01-01 Beskriver det rum nske flyvevejen herunder flytyper og luftoperationer under 2 verdenskrig *Fortress Ploesti* Jay A. Stout,2003-11-19 A comprehensive account of the World War II Allied bombing campaign to destroy pivotal Romanian oil refineries by the retired Marine Corps fighter pilot Unlike previous books on Ploesti Jay Stout goes well beyond the famous big and bloody raid of August 1943 and depicts the entire 1944 strategic campaign of twenty plus missions that all but knocked Ploesti out of the war and denied the German war machine the fuel and lubricants it so desperately needed Stout s account is also a launching point for the author s inquiries into many aspects of the American strategic bombing effort in World War II It delivers across the board Stout who served as a Marine F A 18 pilot in the First Gulf War asks questions about aviation combat history and technique that any modern combat pilot would be dying to ask He carries the ball far beyond the goal post set by all other Ploesti historians He

has gone out of his way to describe the defenses throughout the campaign and he brings in the voices of Ploesti's defenders to complement the tales of Allied airmen who brought Ploesti to ruin. He describes the role of the bombers as well as that of the fighters, the anti-aircraft defenses, even the technique of obscuring the Ploesti complex with smoke. Stout's lucid presentation of complex issues at the tactical and strategic levels makes his narrative a must for those with a special interest in the attacks on Ploesti. **World War II History Magazine** **The Axis Air Forces** Frank Joseph, 2011-11-29 This comprehensive volume tells the rarely recounted stories of the numerous foreign air forces that supported the German Luftwaffe as part of the Axis quest to dominate the European and Pacific theaters, a highly compelling and often overlooked chapter of World War II history. **The Axis Air Forces: Flying in Support of the German Luftwaffe** presents an untold history of that global conflict's little-known combatants who nonetheless contributed significantly to the war's outcome. While most other books only attempt to address this subject in passing, author Frank Joseph provides not only an extremely comprehensive account of the unsung heroes of the Axis fliers but also describes the efforts of Axis air forces such as those of the Iraqi, Manchurian, Thai, or Chinese-specific groups of wartime aviators that have never been discussed before at length. This book examines the distinct but allied Axis air forces of Western Europe, Eastern Europe, the Middle East, and Asia. An extensive introduction provides coverage of Luftwaffe volunteers from Greece, Lithuania, Holland, Denmark, Norway, and even the United States. Detailed descriptions of the personnel themselves and the aircraft they operated are portrayed against the broader scope of combat missions, field operations, and military campaigns, supplying invaluable historical perspective on the importance of their sorties. **The Consolidated B-24 Liberator: Reuben Fleet, the Factories, and the Product** William Wolf,

World War II Spencer C. Tucker, 2016-09-06 With more than 1,700 cross-referenced entries covering every aspect of World War II, the events and developments of the era, and myriad related subjects as well as a documents volume, this is the most comprehensive reference work available on the war. This encyclopedia represents a single source of authoritative information on World War II that provides accessible coverage of the causes, course, and consequences of the war. Its introductory overview, essays, and cross-referenced A-Z entries explain how various sources of friction culminated in a second worldwide conflict, document the events of the war, and why individual battles were won and lost, and identify numerous ways the war has permanently changed the world. The coverage addresses the individuals, campaigns, battles, key weapons, systems, strategic decisions, and technological developments of the conflict, as well as the diplomatic, economic, and cultural aspects of World War II. The five-volume set provides comprehensive information that gives readers insight into the reasons for the war's direction and outcome. Readers will understand the motivations behind Japan's decision to attack the United States, appreciate how the concentration of German military resources on the Eastern Front affected the war's outcome, understand the major strategic decisions of the war and the factors behind them, grasp how the Second Sino-Japanese War contributed to the start of World War II, and see the direct impact of new military technology on the outcomes of the battles during the

conflict The lengthy documents volume represents a valuable repository of additional information for student research

The Messerschmitt Bf 110 Story Jan Forsgren, 2024-06-03 A highly capable twin engined destroyer fighter bomber and night fighter the Messerschmitt Bf 110 unofficially the Me 110 was in Hermann Goring's estimation the pick of the Luftwaffe's offensive fighters Drawing on the personal recollections of pilots and aircrew as well as the individual histories of principal units and non Luftwaffe operators The Messerschmitt Bf 110 Story charts the aircraft's operational service in Poland the Battle of Britain North Africa and the Eastern Front It offers deep technical analysis on the aircraft's design and performance alongside competitors such as the Focke Wulf Fw 57 and Henschel Hs 124 and opponents like the French Potez 630 631 series and Polish PZL 38 The few Bf 110s that have survived in preservation are also explored in this comprehensive operational and technical account of the Luftwaffe's famous Zerstörer **Messerschmitt Bf 109** Jan Forsgren ,2017-06-29

Essays on the History of Mechanical Engineering Francesco Sorce, Giuseppe Genchi, 2015-11-24 This book treats several subjects from the History of Mechanism and Machine Science and also contains an illustrative presentation of the Museum of Engines and Mechanisms of the University of Palermo Italy which houses a collection of various pieces of machinery from the last 150 years The various sections deal with some eminent scientists of the past with the history of industrial installations machinery and transport with the human inventiveness for mechanical and scientific devices and with robots and human driven automata All chapters have been written by experts in their fields The volume shows a wide ranging panorama on the historical progress of scientific and technical knowledge in the past centuries It will stimulate new research and ideas for those involved in the history of Science and Technology
