

Now let's embark on a thirty-day journey together to establish a daily practice of reading runes and get to know yourself better.

For the next thirty days, you will have a daily assignment that involves pulling one or more runes paired with a journaling practice. The thirty days are broken up into five flights.

DAYS 1–7: ESTABLISHING A DAILY PRACTICE

During your first week, you will establish a daily practice by pulling one rune each morning and then documenting its meaning and application in your life. You will also use the runes for yes/no questions, then journal your results.

DAYS 8–14: UNDERSTANDING SITUATIONS

During the second week, you will continue with your daily one-rune-pull practice. You will also do three-stone readings that analyze past and present situations in your life.

DAYS 15–21: KNOWING OTHERS

During the third week, you will continue with your daily one-rune-pull practice. You will also add in relationship readings to shed insight into key relationships in your life.

DAYS 22–28: MANIFESTING OUTCOMES

During the fourth week, as you continue with your daily one-rune-pull practice, you will select runes based on the energy you need to bring into your life each day, and you will journal the outcome.

DAYS 29–30: JOURNEY REFLECTION

In the final two days, you will consider what forms of rune readings resonated with you most. You will also be asked to review all your journal

Runes Reading The Past

Jan Budkowski

Runes Reading The Past:

Reading the Runes in Old English and Old Norse Poetry Thomas Birkett, 2017-03-27 Reading the Runes in Old English and Old Norse Poetry is the first book length study to compare responses to runic heritage in the literature of Anglo Saxon England and medieval Iceland The Anglo Saxon runic script had already become the preserve of antiquarians at the time the majority of Old English poetry was written down and the Icelanders recording the mythology associated with the script were at some remove from the centres of runic practice in medieval Scandinavia Both literary cultures thus inherited knowledge of the runic system and the traditions associated with it but viewed this literate past from the vantage point of a developed manuscript culture There has as yet been no comprehensive study of poetic responses to this scriptural heritage which include episodes in such canonical texts as Beowulf the Old English riddles and the poems of the Poetic Edda By analysing the inflection of the script through shared literary traditions this study enhances our understanding of the burgeoning of literary self awareness in early medieval vernacular poetry and the construction of cultural memory and furthers our understanding of the relationship between Anglo Saxon and Norse textual cultures The introduction sets out in detail the rationale for examining runes in poetry as a literary motif and surveys the relevant critical debates The body of the volume is comprised of five linked case studies of runes in poetry viewing these representations through the paradigm of scriptural reconstruction and the validation of contemporary literary historical and religious sensibilities
