Seeing Through the Bumpf Gerry Ewert, 2021-02-08 Do you have an uneasy sense that you are being manipulated every day and being misled You are and you aren t alone Every day we re bombarded by statements questionable reasoning emotional pleas and very selective data These are employed by the media politicians public figures and marketers in an effort to draw you to their side of the argument At times you may want to wave the white flag of surrender in the war for truth Maybe there is no truth Maybe there are many sometimes contradictory truths It doesn t feel like that could be possible but how else do you reconcile these very articulate but diametrically opposing viewpoints and data By developing critical analytical skills and learning what it means to be rational you ll be able to weigh the merits of the opposing viewpoints and more easily see gaps in others arguments Being rational requires honesty and a sincere effort to determine what is true and what is not as a basis for making decisions What are you going to do about being manipulated and misled Learn what being rational means how to think rationally and develop skills to determine valid data and to have a truly rational discussion *Seeing Through the Bumpf* will help you become an informed and thoughtful analyst of the daily bombardment that comes your way
