Diversité Déconstruite Et Reconstruite de L'oeuvre de Michael Ondaatje Jean-Michel Lacroix, 1999 **Trading Magic for Fact, Fact for Magic** Marc Colavincenzo, 2003 This study brings together three major areas of interest history postmodern fiction and myth Whereas neither history and postmodern fiction nor history and myth are strangers to one another postmodernism and myth are odd bedfellows For many critics postmodern thought with its resistance to metanarratives stands in direct and deliberate contrast to myth with its apparent tendency to explain the world by means of neat complete narratives There is a strain of postmodern Canadian historical fiction in which myth actually forms a complement not only to postmodernism's suspicion of master narratives but also to its privileging of those marginal and at times ignored areas of history The fourteen works of Canadian fiction considered demonstrate a doubled impulse which at first glance seems contradictory On the one hand they go about demythologizing in the Barthesian sense various elements of historical discourse exposing its authority as not simply a natural given but as a construct This includes the fact that the view of history portrayed in the fiction has been either underrepresented or suppressed by official historiography On the other hand the history is then re-mythologized in that it becomes part of a pre-existing myth its mythic elements are foregrounded myth and magic are woven into the narrative or it is portrayed as extraordinary in some way The result is an empowering of these histories for the future they are made larger than life and unforgettable **Handbook of Autobiography /**

Autofiction Martina Wagner-Egelhaaf, 2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time General questions of the literary as e.g. the relation between literature and reality truth and fiction the dependency of author narrator and figure or issues of individual and cultural styles etc. can be studied preeminently in the autobiographical genre Yet the tradition of life writing has in the course of literary history developed manifold types and forms Especially in the globalized age where the media and other technological cultural factors contribute to a rapid transformation of lifestyles autobiographical writing has maintained even enhanced its popularity and importance By conceiving autobiography in a wide sense that includes memoirs diaries self-portraits and autofiction as well as media transformations of the genre this three volume handbook offers a comprehensive survey of theoretical approaches

systematic aspects and historical developments in an international and interdisciplinary perspective While autobiography is usually considered to be a European tradition special emphasis is placed on the modes of self representation in non Western cultures and on inter and transcultural perspectives of the genre The individual contributions are closely interconnected by a system of cross references The handbook addresses scholars of cultural and literary studies students as well as non academic readers

Michael Ondaatje: Haptic Aesthetics and Micropolitical Writing Milena Marinkova, 2011-07-14 This study of selected literary and cinematic works by Michael Ondaatje investigates the political potential of the Canadian author's aesthetics Contributing to current debates about affect and representation ideology critique and the artwork trauma and testimony this book uses the concept of the haptic to demonstrate how Ondaatje's multisensory fluid and historically inflected writing can forge an enabling relationship between audience author and text This is where Ondaatje's micropolitics often misconstrued as ideologically suspect aestheticism emerges a praxis that intimates how one can write and read politically with a difference

FAMILY FOUNDATIONS: DELIVERANCE FROM GENERATIONAL CURSES EMMANUEL OKAFOR, 2025-10-04 The society can be no more stable than the Foundation of individual family units upon which it rests Our government our institutions our schools indeed our way of life is dependent on healthy Families Generational Curses destroys family foundation we shall be seeing how to fight the occurrences of the past and take control of our tomorrow Other things may change us but we start and end with the family The bond that links your true family is not one of blood but of respect and joy in each other's life Family ties means that no matter how much you might want to run from your family you can't We may have our differences but nothing's more important than family The strong point of a family like the strength of an army lies in its devotion to each other Generational Curses destroys family foundation we shall be seeing how to fight the occurrences of the past and take control of our tomorrow A Generational Curse involves negative patterns from your family history that are repeated in your own life However God's plan for you is to have a better life and destiny You can overcome these curses of the past by making the most use of the power in prayers and obedient to God's word as you will be seeing some of them emphasized in this book Generational curses often seen as negative patterns or beliefs passed down through families can manifest in various forms affecting relationships mental health and overall well being potentially leading to series of sufferings and unhealthy social and spiritual activities Families with a history of strange spiritual battles abuse or ill health may unconsciously pass down these patterns to future generations creating difficulties in forming and sustaining healthy relationships Some individuals may develop a fear of commitment or intimacy due to witnessing or facing unhealthy dealings in their family history leading to relationship uncertainty According to Scriptural narrative of Abraham's family lineage the iniquity of deception was randomly identified which indirectly became a stronghold that affected the lives of Abraham Isaac Jacob and Jacob's sons in their generations See Genesis 12 10 20 26 1 11 27 1 40 37 12 36 On the other hand the New Testament example of Lois Eunice and Timothy highly reveals the richness of a heritage of faith I am reminded

of your sincere faith which first lived in your grandmother Lois and in your mother Eunice and I am persuaded now lives in you also II Timothy 1 5 When we recognize how our lives are negatively influenced by our ancestors we can take action appropriately to that influence by sincerely bringing the entire family line into prayer of repentance We should also be thankful and celebrate the good that has been passed down through our family s foundations Furthermore certain genetic conditions or health problems can be passed down through families leading to a higher risk of developing those conditions in later generations For as much as we know the importance of building a good foundation towards a goal or vision most times we are in a hurry to carry out careful and proper analysis about the subject When a Foundation is bad it has no respect of our ignorance status and age It is not a religious creed it s the reality of life The submission is this whether you know or believe it has grip on you Primarily we are narrowing down this discuss on the foundations that affects our lives and destiny The purpose of this book is to address faulty family foundations in the light of God s word and activate salvation and deliverance where necessary Principally the family is the foundation of every human born on the earth So most of the troubles we face are traceable to our originality Many factors spark the interest including the root of the man and woman that give birth to you the things you have done which directly or indirectly affects the already laid down structure Our ancestors sinned and are no more and we bear their punishment Lamentation 5 7 Meanwhile it is vital to quickly note that the Family Foundation before that of your immediate parents has a strong influence over you of what happens to your life or destiny If there are negative occurrences before them definitely it will have impact upon your life and destiny because of the blood pattern The need to emphasize the spiritual and social effects of family foundation is very important because a foundation is increasingly a popular life vehicle to what a person becomes Discovery has shown that without the proper guidance regarding pursuing of freedom many family foundations has become overwhelmed and find itself not properly administering deliverance according the recommendations of scriptures and has become superficial overzealous and dysfunctional towards getting a formidable result as it concerns proper family foundation Against this background it is important we establish that any family that dreams about having fulfillment at achieving a solid foundation is centered on the answers to three questions How engaged are family members in fighting to sustain or achieve good family values are they getting the needed results and are they making the impact they want The more the family leadership can do to reduce or eradicate spiritual moral and social errors on the foundational structures the more time families have to enjoy their lives and destiny Many life challenges are traceable to our foundations this problems seems to keep reoccurring as a result of ignorance My people are destroyed from lack of knowledge Because you have rejected knowledge I also reject you as my priests because you have ignored the law of your God I also will ignore your children Hosea 4 6 Note that lack of knowledge has being seen as the mother of destruction of most foundations Ignorance is a tragedy to any person or family They are my people that are thus destroyed their relation to God as his people heighten both their sin in not taking pains to get the understanding of that God whose command they were

under and with whom they were brought into covenant and likewise the sin of those who should have taught them God set his children to school them on the knowledge of His word but most of His Children never commit their mind to them nor took any pains with knowing the word of His grace People rejecting the knowledge of God's word forfeit a firm foundation and establishes their own woos without knowing At any time we forgot the law of God neither desire nor endeavor to retain it in mind nor to transmit the remembrance of it to their posterity and therefore ironically without knowing we are we drafting into a breech in communication with God When we don't educate our foundation as we ought to have done in the knowledge of God and their duty to him and therefore God will renounce such a people as not in covenant with him Note If parents do not teach their children when they are young to remember their Creator they cannot expect that their Creator should remember them and fight battles link to their foundations Christian Family leaderships are required to seek families to concentrate on building godly foundations which in turn metamorphose on changing the world for the better This book is written to awake families to expect some stress with the workload or family dynamics in fighting to achieve and maintain a unify solid foundation which can be obtained by getting together as often as possible to figure out how to help each other grow a stronger foundation When dealing with family foundation it is very important we take a comprehensive investigation inside out identify generational sins and break free from the curse once and for all Now is the time for you to breakout from every evil of the past and take control of your future What you do not confront you cannot conquer EMMANUEL OKAFOR
