Rural Community In The Appalachian Southpb9:

Rural Community in the Appalachian South Patricia D. Beaver, 1986 This monograph explores the issues of community family in Southern Appalachia *Change in Rural Appalachia* John D. Photiadis, Harry K. Schwarzweller, 2016-11-11 Appalachia is a region in trouble Even in the more remote coves and hollows major social and economic changes are disturbing the traditional ways of life The conditions which have made it a pocket of poverty cannot be easily eradicated and the rapid changes of recent years have added further severe problems of adjustment which deeply affect the family church life education the folk sub culture and above all the individual Out migration psychological dislocation and cultural alienation are the result The nine contributing scholars have lived and worked in Appalachia they know the people and their customs their problems and their needs They are thoroughly familiar with the programs now in operation and are well qualified to evaluate their success or failure in terms of those needs Furthermore their findings can be applied to other regions and nations wherever an isolated group has been abruptly incorporated into the mainstream of society while many of its peculiar problems remain unsolved Rural Appalachia may in fact be considered a microcosm of the underdeveloped nations of the world the issues raised here far transcend the importance of a regional study The essays are grouped according to four general areas of research The first part deals with the individual in his society the second with six social institutions economy government family religion education and power structure the third with methods and objectives of change and the fourth with the aims of change agencies particularly the Extension Service of the future As the tangle of problems strains and tensions is explored the focus remains steadily upon immediate and long term effects on the individual The book is dedicated to the professional field workers in programs of directed change struggling on the one hand with ideas theories and conceptual innovations and on the other hand with the immediate realities of the local situations **Community and Family Change in Rural Appalachia** John D. Photiadis, 1985 *Change in the Rural Southern Appalachian Community* John D. Photiadis, 1973 **The Southern Appalachian Region** Thomas R. Ford, 2021-11-21 The Southern Appalachian Region is the largest American problem area an area whose participation in the economic growth of the nation has not been sufficient to relieve the chronic poverty of its people The existence of the problem was recognized a generation ago but in the past decade the resistance of such areas to economic advance has acquired a more urgent significance in American thought In 1958 a group of scholars undertook to make a new survey of the Southern Appalachian Region Aided by grants from the Ford Foundation ultimately amounting to 250 000 they set out to analyze the direction and extent of the changes which had taken place since the last survey in 1935 to define the problem in terms of the present situation and if possible to arrive at recommendations for action which might enable the leaders of the Region and the nation to attack the problem with practical measures In this volume are presented their comprehensive reports on the Region s population its economy its institutions and its culture The problems defined by this survey are a challenge to the whole nation for the consequences of success or

failure in solving them will not be limited to the Southern Appalachian Region Little Smoky Ridge Marion Pearsall, 1959

Rural Southern Appalachia and Mass Society John D. Photiadis, 1967 **Standards of Living in Four Southern Appalachian Mountain Counties** Charles Price Loomis, Linden Seymour Dodson, 1938 Rereading Appalachia Sara Webb-Sunderhaus, Kim Donehower, 2015-12-18

Appalachia faces overwhelming challenges that plague many rural areas across the country including poorly funded schools stagnant economic development corrupt political systems poverty and drug abuse Its citizens in turn have often been the target of unkind characterizations depicting them as illiterate or backward Despite entrenched social and economic disadvantages the region is also known for its strong sense of culture language and community In this innovative volume a multidisciplinary team of both established and rising scholars challenge Appalachian stereotypes through an examination of language and rhetoric Together the contributors offer a new perspective on Appalachia and its literacy hoping to counteract essentialist or class based arguments about the region s people and reexamine past research in the context of researcher bias Featuring a mix of traditional scholarship and personal narratives Rereading Appalachia assesses a number of pressing topics including the struggles of first generation college students and the pressure to leave the area in search of higher quality jobs prejudice toward the LGBT community and the emergence of Appalachian and Affrilachian art in urban communities The volume also offers rich historical perspectives on issues such as the intended and unintended consequences of education activist Cora Wilson Stewart s campaign to promote literacy at the Kentucky Moonlight Schools A call to arms for those studying the heritage and culture of Appalachia this timely collection provides fresh perspectives on the region its people and their literacy beliefs and practices Confronting Ecological Crisis in Appalachia and the South Stephanie McSpirit, Lynne Faltraco, Conner Bailey, 2012-07-05

Throughout Appalachia corporations control local economies and absentee ownership of land makes it difficult for communities to protect their waterways mountains and forests Yet among all this uncertainty are committed citizens who have organized themselves to confront both external power holders and often their own local state and federal agents Determined to make their voice heard and to improve their living conditions newfound partnerships between community activists and faculty and students at community colleges and universities have formed to challenge powerful bureaucratic infrastructures and to protect local ecosystems and communities Confronting Ecological Crisis University and Community Partnerships in Appalachia and the South addresses a wide range of cases that have presented challenges to local environments public health and social justice faced by the people of this region Editors Stephanie McSpirit Lynne Faltraco and Conner Bailey along with community leaders and their university partners describe stories of unlikely unions between faculty students and Appalachian communities in which both sides learn from one another and most importantly form a unique alliance in the fight against corporate control Confronting Ecological Crisis is a comprehensive look at the citizens and organizations that have emerged to fight the continued destruction of Appalachia
