Rural

Space in the Middle Ages and Early Modern Age Albrecht Classen, 2012-05-29 Older research on the premodern world limited its focus on the Church the court and more recently on urban space The present volume invites readers to consider the meaning of rural space both in light of ecocritical readings and social historical approaches While previous scholars examined the figure of the peasant in the premodern world the current volume combines a large number of specialized studies that investigate how the natural environment and the appearance of members of the rural population interacted with the world of the court and of the city The experience in rural space was important already for writers and artists in the premodern era as the large variety of scholarly approaches indicates The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art historical works In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space We also observe how much the rural world was a significant element already in early medieval mentality Moreover as many authors point out the impact of natural forces on premodern society was tremendous if not catastrophic

The Medieval English

Landscape, 1000-1540 Graeme J. White, 2012-09-06 The landscape of medieval England was the product of a multitude of hands While the power to shape the landscape inevitably lay with the Crown the nobility and the religious houses this study also highlights the contribution of the peasantry in the layout of rural settlements and ridge and furrow field works and the funding of parish churches by ordinary townsfolk The importance of population trends is emphasised as a major factor in shaping the medieval landscape the rising curve of the eleventh to thirteenth centuries imposing growing pressures on resources and the devastating impact of the Black Death leading to radical decline in the fourteenth century Opening with a broad ranging analysis of political and economic trends in medieval England the book progresses thematically to assess the impact of farming rural settlement towns the Church and fortification using many original case studies The concluding chapter charts the end of the medieval landscape with the dissolution of the monasteries the replacement of castles by country houses the ongoing enclosure of fields and the growth of towns

Production Efficiency in Domesday England, 1086 John

McDonald, 2002-09-11 This fascinating study uses Domesday book data and Management Science methods to examine manorial production efficiency in Medieval Essex in 1086 This book reveals unexpected facts about economic history and is a

remarkable contribution to economic history and medieval studies It will be of great interest to economists management scientists medievalists and anyone involved with Domesday studies *Agriculture in the Middle Ages* Del Sweeney,2016-11-11 Explores the cultural framework within which changes in agricultural technology and economic organization occur and the ways in which changes in the social fabric influence attitudes toward rural work and the peasantry Farming in the First Millennium AD P. J. Fowler,2002-11-14 Peter Fowler has written an authoritative account of farming in Britain in the first millennium AD This is the first synthesis of our knowledge on this topic for a generation Successive chapters assemble and analyse the latest evidence on farms fields technology food diet and society New interpretations are offered on subjects ranging from implements to illuminated manuscripts and evidence drawn from Northern England Scotland and Wales contributes significantly to the story The book concludes with a magisterial review of the ways in which agriculture shaped early Britain s societies and landscapes It also proposes a chronological model of British agriculture for the whole millennium A Cultural History of Animals in the Medieval Age Brigitte Resl,2009-04-01 A Choice Outstanding Academic Title 2008 A Cultural History of Animals in the Medieval Age investigates the changing roles of animals in medieval culture economy and society in the period 1000 to 1400 The period saw significant changes in scientific and philosophical approaches to animals as well as their representation in art Animals were omnipresent in medieval everyday life They had enormous importance for medieval agriculture and trade and were also hunted for food and used in popular entertainments At the same time animals were kept as pets and used to display their owner s status whilst medieval religion attributed complex symbolic meanings to animals A Cultural History of Animals in the Medieval Age presents an overview of the period and continues with essays on the position of animals in contemporary symbolism hunting domestication sports and entertainment science philosophy and art **The Domesday Quest** Michael Wood,2011-10-31 In 1086 Domesday Book perhaps the most remarkable historical document in existence was compiled This tremendous story of England and its people was made at the behest of the Norman king William the Conqueror It was called Domesday the day of judgement because like the day of judgement its decisions are unalterable In Search of the Roots of England is not only a study of the ancient manuscript but an attempt to analyse the world that Domesday Book so vividly portrayed By skilful use of the Domesday record historian Michael Wood examines Norman society and the Anglo Saxon Roman and even the Iron Age cultures that preceded it Wood is a perceptive entertaining and enthusiastic companion Sunday Times Wood is a lively storyteller Washington Post
