Rural Households In Emerging Societies Technology And Change In Sub Saharan Africa:

Rural Households in Emerging Societies Margaret Haswell, Diana Hunt, 2020-12-17 The constantly changing circumstances of rural life in sub Saharan Africa have brought with them both successes and failures The essays in this volume examine the various pressures and inducements to changing resource use patterns faced by rural households and explore the two way causal relationship between technology and technological change on the one hand and other key elements of rural change demographic environmental economic social and political on the other Contemporary approaches to the introduction of technical innovations are examined and new approaches are proposed Through case studies of particular communities the wide ranging impacts of past experiences are assessed and the causes and consequences of indigenous initiatives are explored

Renewing Development in Sub-Saharan Africa Deryke Belshaw, the late Arthur Ian Livingstone, 2005-06-29 *Renewing Development in Sub Saharan Africa* reviews the debates and brings together specialist contributions to provide a clear guide to the major complexities of African development They lay the foundation for designing a range of individual country specific policy sets in which the strategic components are prioritized according to each country s constraints and opportunities The emphasis of the book is on the identification of effective strategies that will enable individual countries to most effectively exploit their growth opportunities and to meet poverty reducing and other key equity objectives

Bibliography of Agriculture with Subject Index, 1993 [The Palgrave Companion to Oxford Economics](#) Robert A. Cord, 2021-06-16 The University of Oxford has been and continues to be one of the most important global centres for economics With six chapters on themes in Oxford economics and 24 chapters on the lives and work of Oxford economists this volume shows how economics became established at the University how it produced some of the world s best known economists including Francis Ysidro Edgeworth Roy Harrod and David Hendry and how it remains a global force for the very best in teaching and research in economics With original contributions from a stellar cast this volume provides economists especially those interested in macroeconomics and the history of economic thought with the first in depth analysis of Oxford economics

Is Bullock Traction a Sustainable Technology? Johann H. Hesse, 1997-11 This study examines the question of whether or not the technology of bullock traction has spread in northern Ghana between 1982 83 and 1993 94 and furthermore what factors determine changes in the pattern of the adoption of bullock traction in this area The introduction to the problem and the objectives of the study in chapter one are followed by a theoretical section in chapter two that focuses on the question why one would have expected a further spread of bullock traction This chapter explains the direct benefits of bullock traction and reviews the current state of knowledge of this issue Factors that might have resulted in changes in these direct benefits of bullock traction between 1982 83 and 1993 94 such as population growth and the effects of structural adjustment programs are discussed Additionally the implications of the life cycle of households and the tradition of the inheritance of cattle for changes related to bullock traction adoption over time are identified Chapter three introduces

the empirical data collection procedure and methods The study is a follow up study to the study of Panin 1988 who conducted research on the same farm households in 1982 83 in three villages of the Northern Region of Ghana Chapter four presents the empirical findings about the changes in the socio economic conditions that are relevant for bullock traction adoption in the study villages These data extend the information in chapter two to the village level The empirical findings about changes in the effects of bullock traction at the field level are presented in chapter five The analysis includes the effects of bullock traction on land use household labor utilization performance of crop production and aspects of bullock traction renting The effects of bullock traction at the farm household level were addressed in chapter six It is necessary to separate the analysis at the field level from the farm household level analysis because farmers combine different tillage technologies at the farm household level This chapter includes changes over time regarding household demographics resource endowment farm labor allocation crop production performance income statements and the costs and benefits of an investment in bullock traction Chapter seven of this study is concerned with the question of whether the changes in the bullock ownership pattern for the sampled households are in line with general trends at village level For this purpose the village census of 1994 was compared with 1982 and the result is that the ownership of bullocks and implements has declined which means that the results of the analysis at farm household level is in line with general trends at village level Although individual ownership of bullock traction declined the area plowed by bullocks in the study area increased because renting of bullock traction services increased Chapter eight of the study discusses important empirical results of chapters four to seven in light of the arguments made in the theoretical chapter two and draws attention to the conclusions of the empirical results Important points discussed in chapter eight are methodological issues the labor saving effect of bullock traction that is maintained over the years the effect on crop yields that was found to exist in 1982 but not in 1994 the importance of the life cycle of households to understand changes in bullock traction adoption at farm household level and the effects of structural adjustment programs on the adoption of bullock traction The study ends with the formulation of recommendations for agricultural extension and further agricultural research About the Author

Peasant Economics Frank Ellis, 1993-11-25 This is a revised and expanded edition of a popular

textbook on the economics of farm households in developing countries The second edition retains the same building blocks designed to explore household decision making in a social context Key topics are efficiency risk time allocation gender agrarian contracts farm size and technological change For these and other topics household economic behaviour represents the outcome of social interactions within the household and market interactions outside the household A new chapter on the environment combines exposition of economic tools not previously covered in the book with examination of household and community decision making in relation to environmental resources

Climate Change and Global Food Security Rattan Lal, Norman Uphoff, B.A. Stewart, David O. Hansen, 2005-05-26 In order to feed their burgeoning populations developing nations will need to double cereal production by the year 2050 This increase will have to come from existing land as little potential exists for bringing new land under cultivation a daunting prospect when one realizes that increased use and significantly higher concentrations of carbon

Applications of Biotechnology in Traditional Fermented Foods National Research Council, Policy and Global Affairs, Office of International Affairs, Panel on the Applications of Biotechnology to Traditional Fermented Foods, 1992-02-01 In developing countries traditional fermentation serves many purposes It can improve the taste of an otherwise bland food enhance the digestibility of a food that is difficult to assimilate preserve food from degradation by noxious organisms and increase nutritional value through the synthesis of essential amino acids and vitamins Although fermented food has a vaguely distasteful ring bread wine cheese and yogurt are all familiar fermented foods Less familiar are gari ogi idli ugba and other relatively unstudied but important foods in some African and Asian countries This book reports on current research to improve the safety and nutrition of these foods through an elucidation of the microorganisms and mechanisms involved in their production Also included are recommendations for needed research
