Russia and the Idea of Europe Iver B. Neumann, 2016-10-14 The end of the Soviet system and the transition to the market in Russia coupled with the inexorable rise of nationalism brought to the fore the centuries old debate about Russia's relationship with Europe In this revised and updated second edition of *Russia and the Idea of Europe* Iver Neumann discusses whether the tensions between self referencing nationalist views and Europe orientated liberal views can ever be resolved Drawing on a wide range of Russian sources this book retains the broad historical focus of the previous edition and picks up from where it left off in the early 1990s bringing the discussion fully up to date Discussing theoretical and political developments it relates the existing story of Russian identity formation to new foreign policy analysis and the developments in the study of nationalism The book also offers an additional focus on post Cold War developments In particular it examines the year 2000 when Putin succeeded Yeltsin as president and 2014 when Russian foreign policy turned from cooperation to confrontation Bringing to life the various debates surrounding this complicated relationship in an accessible and clear manner this book continues to be a unique and vital resource for both students and scholars of international relations

Russia and EU in the New World Disorder Aziz Elmuradov, 2022-11-04 This book

makes an original contribution to Russia EU literature by analyzing constructions and transformations of the Russian Self in relation to the European Other It provides an orientation towards understanding Russian foreign policy discourse under Putin and offers a thorough analysis of the actions of key policy actors to ground the Russian discourse ideationally historically psychologically and politico sociologically Providing a rich analysis of how Russian foreign policy toward the EU evolved from cooperation to competition and ultimately conflict the author argues that to understand these changes and continuities we must explore concepts of sovereignty and balance of power central to the drafting of Russian foreign policy Primarily situated in the fields of International Relations and Russian foreign policy this book will also be of interest to scholars in the fields of Foreign Policy Analysis Post Soviet Studies Eurasian Studies Historical International Relations Critical Security Studies Political Sociology and Political Psychology

Russia and the World Natasha Kuhrt, 2014-10-14 This volume brings together analyses of key domestic foreign and security policy issues during the Putin and Medvedev administrations Indeed the chapters demonstrate the extent to which domestic and foreign policy issues are inextricably linked in particular in the domain of security whether hard or soft Internal debates regarding Russia's trajectory including issues of national identity economic modernisation human rights and democracy continue to be at the forefront of concern Moreover these debates are intimately connected to Russia's self image and the image therefore that it wishes to project in the wider world The debates focus on Russia as energy superpower as one of the BRICS as an Eurasian landbridge or a window on the Asia Pacific Such debates are a constant reminder of the uncertainty surrounding Russia's future path This book expresses these uncertainties which range from the role of nuclear weapons and energy to critiques of Russia's approach to concepts such as sovereignty and self determination the fight against terrorism insurgency and the role of Islam within and without Russia may have left the chaos of the Yeltsin years behind but as we move into Putin 3.0 the concerns of these chapters will remain critical both to Russia itself and to Russia's relations with the wider world This book was published as a special issue of Europe Asia Studies

Europe, Russia and the Liberal World Order Timofei Bordachev, 2021-08-30 This book analyses Russia Europe EU relations by exploring their practical essence and conceptualizing them in terms of the main categories of international relations research It argues that the liberal world order established in Cold War days whereby international relations are underpinned by a global balance of power and a highly institutionalized framework of international relations thereby balancing power and morality continued after the Cold War with high hopes in the early 1990s for a new order of security and cooperation for all Europe including Russia It goes on to show how the liberal world order has broken down one manifestation of this being the new conflict between Russia and Europe in recent years a conflict resulting from the failure of European countries the EU to acknowledge the actual balance of military economic and political power the lack of limits on the policy of European countries in terms of infringing on Russia's interests and Russia's consequent revision after 1999 of its policy of co operation Overall the book provides huge insight

into the nature of Europe Russia relations **How the EU and Russia Narrate the World** Mario Baumann, 2025-07-25 In times of increasing challenges to the Western idea this book illuminates how Russian and EU foreign policy discourses interact While official Russian and EU articulations on issues of sovereignty human rights and the shared neighbourhood diverge greatly they are not articulated in isolation but are entangled and condition each other To understand this entanglement this book approaches the relationship between Russia and the EU as an intersubjective one a social context where diverging interpretations of the world struggle for hegemony Its theoretical framework marries poststructuralist thought with insights from critical approaches to Hegelian recognition dialectics Based on an extensive and systematic empirical discourse analysis of Russian and EU foreign policy texts this study draws a detailed picture of the intensifying discursive dynamics accompanying the deteriorating relationship between Brussels and Moscow It shows how neither the EU nor Russia's foreign policy articulation has changed substantially The interaction pattern continues to be an asymmetrical one with Russia's articulations much more conditioned by the EU's discourse than vice versa The book thus argues that the EU is more independent in sovereignly articulating an interpretation of the world whereas Russia continues to face constraints in the formulation of an autonomous political project With its novel and innovative conceptual framework this book furthers the theoretical scholarship on poststructuralism in international relations It addresses all scholars interested in poststructuralist enquiries and will be of great value to students and scholars of Russian foreign policy and the EU

Explaining Change in Russian Foreign Policy C. Thorun, 2008-11-27 An assessment of the explanatory utility of different approaches to account for post Soviet Russia's foreign policy towards the West arguing that only by focusing both on external constraints and changes in the Russian leadership's foreign policy thinking can we explain major facets of Russia's conduct from 1992-2007

Russia and the Arctic Geir Hønneland, 2020-01-09 The world is currently witnessing an Arctic Scramble as the major powers compete to demarcate and occupy Arctic territory The region is known to be home to large gas and oil reserves and its position at the top of the globe holds significant trading and military advantages Yet the territorial boundaries of the region remain ill defined and Russia under the increasingly bold foreign policy of Vladimir Putin has emerged as a forceful power in the region Geir Hønneland investigates the political contexts and international tensions surrounding Russia's actions focusing especially on the disputes which have emerged in the Barents Sea where European and Russian interests compete directly Skillfully delineating Russian policy in the region and analyzing the mineral and environmental consequences of the recent treaty agreements Russia and the Arctic is a crucial addition to our understanding of contemporary International Relations concerning the Polar North This new updated edition takes into account Russia's recent moves in the Arctic region and the development of the Arctic council Struggle for Alliance Abdolrasool

Divsallar, 2024-08-22 This book provides a comprehensive study of the complex impacts of the war in Ukraine on Russo Iranian relations and the resulting consequences for the international relations of the Middle East In contrast to dominant

academic approaches which view Russo Iranian relations through the lens of an anti hegemonic agenda and confrontation with the US led international order this study presents an alternative angle stating that the war in Ukraine has sped up Moscow and Tehran s interdependency primarily because of the protective benefits that it brings to both states The book analyzes various debates about the impact of the war on Russo Iranian relations From the perspective of the emerging literature on authoritarian regionalism the book explores how domestic politics and common threat perceptions play a role in these states decisions to adjust to the systemic changes caused by the war Chapters address how changes in the strategic environment are affecting Moscow and Tehran s perception of each other what factors contribute the most to both states decision to pursue greater cooperation and how they manage the new conflicts of interest raised by the war The book also queries whether relations continue to be based on tactical partnership or whether a stronger alliance between Moscow and Tehran is unfolding and what the consequences of such a struggle for alliance will be for the wider region
