Russia And The Mediterranean 1797 1807:

Russia and the Mediterranean, 1797-1807 Norman E. Saul, 1970-01-01 The Modernisation of Russia, 1676-1825

Simon Dixon, 1999-07-29 This is the first book to place Russia's long eighteenth century squarely in its European context. The conceptual framework is set out in an opening critique of modernisation which while rejecting its linear implications maintains its focus on the relationship between government, economy and society. Following a chronological introduction, a series of thematic chapters covering topics such as finance and taxation, society, government and politics, culture, ideology and economy emphasise the ways in which Russia's international ambitions as an emerging great power provoked administrative and fiscal reforms with wide-ranging and often unanticipated social consequences. This thematic analysis allows Simon Dixon to demonstrate that the more the tsars tried to modernise their state, the more backward their empire became. A chronology and critical bibliography are also provided to allow students to discover more about this colourful period of Russian history.

Russia and the Mediterranean, 1797-1807 Norman Eugene Saul, 1977 **Russia and Iran, 1780-1828** Muriel

Atkin, 1980-05-01 *Russia and Iran 1780-1828* was first published in 1980. Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original. University of Minnesota Press editions. Modern Russo-Iranian relations date from the late eighteenth century when, after several centuries of commercial and diplomatic contact, the two nations entered a period of extended warfare for possession of the Caucasian borderlands, disputed territory that eventually fell to Russia. In her history of that struggle, Muriel Atkin reassesses the motives of major figures on both sides and views the Iranians with more sympathy than Western and Russian historians have usually accorded them. Russia embarked on her course in the Caucasus for reasons connected with defense or trade and with a long-term imperial goal based on uncritical acceptance of prevailing European doctrines of empire. The new dynasty in Iran, on the other hand, had to fend off Russian attack and secure the borderlands in order to justify its basic claim to power. In the end, the wars brought major disruption to the already unstable borderlands and left Iran with a discredited government and a controversy over reforms and relations with the West that would continue to cause turmoil in subsequent generations.

Britain, Portugal and South America in the Napoleonic Wars Martin Robson, 2010-12-14 In the maelstrom of Napoleonic Europe, Britain remained defiant, resisting French imperial ambitions. This Anglo-French rivalry was essentially a politico-economic conflict for pre-eminence fought on a global scale and it reached a zenith in 1806-1808 with France's apparent dominance of Continental Europe. Britain reacted swiftly and decisively to implement maritime-based strategies to limit French military and commercial gains in Europe while protecting British overseas interests. The policy is particularly evident in relations with Britain's Ancient Ally, Portugal. That country, and by association her South American empire, became the front line in the battle between Napoleon's ambitions and British maritime security. Shedding new light on British war aims and maritime strategy, this is an essential work for scholars of the Napoleonic Wars and British political/diplomatic
