Metodi Statistici Per la Finanza E Le Assicurazioni Benito Vittorio Frosini, 2003 **Forecasting the Health of Elderly Populations** Kenneth G. Manton, Burton H. Singer, Richard M. Suzman, 2012-12-06 Models to forecast changes in mortality morbidity and disability in elderly populations are essential to national and state policies for health and welfare programs This volume presents a wide ranging survey of the forecasting of health of elderly populations including the modelling of the incidence of chronic diseases in the elderly the differing perspectives of actuarial and health care statistics and an assessment of the impact of new technologies on the elderly population Amongst the topics covered are uncertainties in projections from census and social security data and actuarial approaches to forecasting plausible ranges for population growth using biological models and epidemiological time series data the financing of long term care programs the effects of major disabling diseases on health expenditures forecasting cancer risks and risk factors As a result this wide ranging volume will become an indispensable reference for all those whose research touches on these topics Black Fox Magazine, 1924 **Resources in Education**, 1996 Risky Business Lawrence S. Powell, 2013-02-01 Today's insurance regulation in the United States is at a crossroads while some segments of the insurance industry are moving away from a state based approach toward regulation others favor a greater role for the federal government despite the opposition from other stakeholders Written by leading scholars in risk management this book addresses some of the most important questions facing the future of state and federal regulation of the insurance industry Insurance regulation in the United States is at a crossroads It used to be a given that the insurance industry would resist efforts to move away from state based approaches toward regulation but no more Some now favor a greater role for the federal government while others oppose calls to transition to a federal system In any case might not a competitive and innovative system of free market insurance be preferable to best serve the interests of consumers The current debate over insurance regulation is increasingly a struggle between competing interest groups and opposing ideologies about the proper scope of government a conflict that affects individuals decisions about how much risk to undertake whether those decisions involve driving a motorcycle in dense urban traffic or building a home in a flood fire hurricane or other high risk zone But what types of reforms would best serve the interests of consumers And what lessons can be learned from previous reform efforts In *Risky Business Insurance Markets and Regulation* edited by Lawrence S Powell leading scholars in risk management address some of the most important questions about the future of insurance regulation and the potential for market based alternatives The book examines not only the impetus behind various reform proposals but also the historical development of insurance regulation in the United States In so doing *Risky Business* examines alternative regulatory and deregulatory frameworks used in the United States and in the European Union and whether such options are beneficial or not *The De Gruyter Handbook on Law and Digital Technologies* Massimo Durante, Ugo Pagallo, 2025-09-22 The De Gruyter Handbook on Law and Digital Technologies provides

a comprehensive accessible and thought provoking guide to the current and future regulation of digital technologies It addresses key legal challenges such as reconceptualizing crucial deep rooted notions including those of person autonomy democracy the rule of law sovereignty constitutionalism and governance The handbook proposes critical explorations of the potential impact of digital technologies on new and traditional forms of governance and regulation across different and competitive normative perspectives such as law economy social norms and legal design In this framework it addresses the societal transformations brought about by digital technologies the legal means for regulating the field and the impact of governance in areas such as fintech sustainability outer space or healthcare
