Scoring for Films Earle Hagen, 1971 **Advanced Techniques for Film Scoring** Earle Hagen, 1990 Accompanying audio CD has music segments from film soundtracks Scoring the Score Ian Sapiro, 2016-11-10 Scoring the Score is the first scholarly examination of the orchestrator's role in the contemporary film industry. Orchestrators are crucial to the production of a film's score yet they have not received significant consideration in film music research. This book sheds light on this often overlooked yet vital profession. It considers the key processes of orchestrating and arranging and how they relate musical and filmic training, the wide-ranging responsibilities of the orchestrator on a film scoring project, issues related to working practices, the impact of technology, and the differences between the UK and US production processes as they affect orchestrators. Drawing on interviews with American and British orchestrators and composers, *Scoring the Score* aims to expose this often hidden profession through a rigorous examination of the creative process and working practices and analysis of the skills training and background common to orchestrators. It will appeal to scholars, students, and practitioners of film music. *Scoring for Films* Earle Hagen, 1971 *A Research Guide to Film and Television Music in the United States* Jeannie Gayle Pool, H. Stephen Wright, 2011 Unlike traditional music film music sources, are often difficult to locate and do not follow the patterns that researchers are trained to identify. Although there have been several self-described introductions to the field and articles that summarize the problems and state of research, there is no resource that gathers together all of the basic information that is vital to film music research. In this volume, Jeannie Gayle Pool and H. Stephen Wright address the difficulties scholars encounter when conducting research on film and television music. Intended as a guide for scholars and researchers in navigating the complex world of film and television music, this book provides a detailed taxonomy of film music primary sources and explains how to find and interpret them. The authors tackle the problems of determining film score authorship and working with recordings of film music. A bibliographic essay summarizes the major works and trends in film music research and provides clear pointers to the most important resources in the field. An up-to-date guide to important collections of film music sources and other research materials is also included. Designed to clarify the nature of film music source materials and how they are generated, *A Research Guide to Film and Television Music in the United States* provides clear signposts for scholars and identifies opportunities for further research. Marco, 1996 Cumulative index to all three volumes of *Literature of American Music in Books and Folk Music Collections*. Scoring for Films Earle Hagen, 1971 **Music and the Silent Film** Martin Miller Marks, 1997-02-13 In this book, a leading authority on film music examines scores of the silent film era.

The first of three projected volumes investigating music written for films this thoughtful and pathbreaking study demonstrates the richness of silent film music as it details the way in which scores were often planned from the start as an integral part of the whole cinematic experience Following an introductory chapter that outlines several key theoretical questions and surveys eight decades of writing on film music Martin Miller Marks focuses on those scores created between 1895 and 1924 He begins by considering two early examples one German written by persons unknown for Skladanowsky's Bioskop exhibitions in 1895 and 1896 and one French scored by Camille Saint Saëns for the 1908 film *L'Assassinat du Duc de Guise* Subsequent chapters fully discuss Walter Cleveland Simon's music for the American film *An Arabian Tragedy* 1912 as well as the Joseph Breil accompaniment to D W Griffith's *Birth of a Nation* 1915 As described in this book Breil's memorable score though a compilation derived from many sources was played by an orchestra as Griffith's sweeping images filled the screen thus contributing significantly to the great film's success while also achieving remarkable power in its own right Marks then concludes with a look at Erik Satie's witty and innovative music for the French film *Entr'acte* 1924 which was the first film score of consequence by an avant garde composer Giving unprecedented attention to a vibrant important and oft neglected facet of twentieth century music *Music and the Silent Film* will interest scholars of film theory film history modern music and modern aesthetics

Film Rhythm After Sound Lea Jacobs, 2015 The seemingly effortless integration of sound movement and editing in films of the late 1930s stands in vivid contrast to the awkwardness of the first talkies *Film Rhythm after Sound* analyzes this evolution via close examination of important prototypes of early sound filmmaking as well as contemporary discussions of rhythm tempo and pacing Jacobs looks at the rhythmic dimensions of performance and sound in a diverse set of case studies the Eisenstein Prokofiev collaboration *Ivan the Terrible* Disney's *Silly Symphonies* and early Mickey Mouse cartoons musicals by Lubitsch and Mamoulian and the impeccably timed dialogue in Hawks's films Jacobs argues that the new range of sound technologies made possible a much tighter synchronization of music speech and movement than had been the norm with the live accompaniment of silent films Filmmakers in the early years of the transition to sound experimented with different technical means of achieving synchronization and employed a variety of formal strategies for creating rhythmically unified scenes and sequences Music often served as a blueprint for rhythm and pacing as was the case in Mickey Mousing the close integration of music and movement in animation However by the mid 1930s filmmakers had also gained enough control over dialogue recording and editing to utilize dialogue to pace scenes independently of the music track Jacobs's highly original study of early sound film practices provides significant new contributions to the fields of film music and sound studies
