Dictionary of Real People and Places in Fiction M.C. Rintoul,2014-03-05 Fascinating and comprehensive in scope the Dictionary of Real People and Places in Fiction is a valuable source for both students and teachers of literature and for those interested in locating the facts behind the fiction they read In a single scholarly volume it provides intriguing insight into the real identity of people and places in the novels of over 300 American and British authors published in the nineteenth and twentieth centuries Imperfect Histories Ann Rigney,2018-09-05 Imperfect Histories puts imperfection at the heart of a

theory of historical representation Ann Rigney shows how historical writing involves dealing with intractable subjects that resist our efforts to know and to shape them Those who write history she says engage in an ongoing struggle to match up what they find relevant in the past with the information and interpretive models at their disposal Chronic dissatisfaction is at the heart of historical practice This is especially evident in the various attempts made over the last two centuries to write an alternative history of everyday experience Focusing on historical writing in the last decades of the eighteenth century and the first half of the nineteenth Rigney analyzes a wide range of works by Walter Scott Jules Michelet Augustin Thierry and Thomas Carlyle She shows how the attempt to write an alternative history brought historical writing into a close yet fraught relationship with literature The result is a new account of that relationship as it took shape in the romantic period and as it continues to influence contemporary practices **Classified Catalogue of the Carnegie Library of Pittsburgh,**

Romanticism, Maternity, and the Body Politic Julie Kipp,2003-08-14

In *Romanticism Maternity and the Body Politic* Julie Kipp examines Romantic writers treatments of motherhood and maternal bodies in the context of the legal medical educational and socioeconomic debates about motherhood so popular during the period She argues that these discussions turned the physical processes associated with mothering into matters of national

importance The privately shared space signified by the womb or the maternal breast were made public by the widespread interest in the workings of the maternal body These private spaces evidenced for writers of the period the radical exposure of mother and child to one another for good or ill Kipp s primary concern is to underline the ways that writers used representations of mother child bonds as ways of naturalizing endorsing and critiquing Enlightenment constructions of interpersonal and intercultural relations This fascinating literary and cultural study will appeal to all scholars of Romanticism
