for a very long time Polar Record 42 **The Last Expedition** Robert Falcon Scott, 2012 Includes the British Antarctic track chart and Ponting's glass plate negatives of the photographs that he took while on the British Antarctic Expedition 1910-13 Captain Scott's gripping account of his expedition to the South Pole in 1910-12 tell of a journey that was meant to be a voyage of scientific discovery and a heroic exploration of the last unconquered wilderness Scott's expedition carried in the Terra Nova pitted him and his team not only against the elements but also against the Norwegian explorer Amundsen Ultimately Scott was beaten by both The journals are full of incident and drama courage and endurance hope and bitter disappointment These journals were found along with Scott's body several months after his death and just 11 miles from base camp and safety *Scott's Last Expedition* Robert Falcon Scott, 2001-10 A world of words has been written about this book and none of them got it completely right For while this is certainly the true story of how Captain Scott and his team of British explorers died trying to reach the South Pole it is also the hitherto overlooked story of amazing equine courage in the face of certain death When Captain Perry of America reached the North Pole in 1909 all eyes especially English eyes turned to the South Pole The British Empire was at its zenith and national expectations were high that an Englishman should be the one to claim the other ice bound crown Captain Robert Scott was elected to carry British honor to that forbidden spot known as the South Pole Yet not only did Scott enlist men in an unlikely move he also recruited nineteen Yakut ponies raised by Siberian tribesmen in Russia's frozen forests These little equine heroes had no idea where they were heading when Scott's brother in law loaded them on a ship and sailed them away from Russia to the far off shores of Antarctica What followed is an under reported and over looked example of supreme equestrian sacrifice First the ponies survived howling gales on the sea Upon arrival they donned special snow shoes and pulled their guts out to get Scott's sleds through Some of them were lost on a break away ice berg and eaten by killer whales The others starved They suffered In short these 19 little heroes gave their all and all for naught for as we know Scott and his men died as well in their attempt to claim the Southern Crown Thus Scott's Last Expedition is not only a story of men It is but another example of that link between mankind and equine kind that has stretched back 30 000 years It is a remarkable and heart moving story of men and horses who paid the ultimate sacrifice
