Scriabin Various Works

Alexander Scriabin, Murray Baylor

Scriabin Various Works:

The Performing Style of Alexander Scriabin Anatole Leikin, 2016-02-24 When Alexander Nikolayevich Scriabin's music was performed during his lifetime it always elicited ecstatic responses from the listeners Wilhelm Gericke conductor of the Vienna opera rushed backstage after one of Scriabin's concerts and fell on his knees crying It's genius it's genius After the composer's death in 1915 however his music steadily lost the captivating appeal it once held The main reason for this drastic change in the listeners attitude is an enormous gap existing between the printed scores of Scriabin's music and the way the composer himself played his works Apparently what Scriabin's audiences heard at the time was significantly different from and vastly superior to modern performances that are based primarily on published scores Scriabin recorded nineteen of his compositions on the Hupfeld and Welte Mignon reproducing pianos in 1908 and 1910 respectively Full score transcriptions of the piano rolls which are included in the book provide many substantial features of Scriabin's performance exact pitches and their timing against each other rhythms tempo fluctuations articulation dynamics and essential pedal application Using these transcriptions and other historical documents as the groundwork for his research Anatole Leikin explores Scriabin's performing style within the broader context of Romantic performance practice [The Development of Harmony in Scriabin's Works](#) Peter Sabbagh, 2003 In the history of music there are seldom as rapid musical developments as we can find in Scriabin's works In only 31 years Scriabin made a breathtaking development in his early works he still uses a romantic tonal language while his later works are far reaching into the 20th century Scriabin's development is gradual and consequent each step can be derived from the preceding thus connecting the music of the 19th and 20th centuries He can be regarded as a key composer of his age Harmony is the central factor in Scriabin's musical thinking From harmony everything else is developed It defines the form also the melody and tone systems are developed from it This book is concerned with the following basic issues Which elements in Scriabin's harmony are new and what has been derived from the tradition Why is the development in Scriabin's works consequent once started why did it have to follow a certain course Is there something elemental in Scriabin's way of thinking that pushes ahead this development [Selected Works](#) Alexander Scriabin, Murray Baylor, 2005-05-03 Scriabin was the precursor of many trends in 20th century music chord clusters melodic fragmentation serialism and the psychedelic combination of sounds and colors now called mixed media In this compilation of 30 contrasting pieces the editor has included notations on fingering pedaling and phrasing **All Music Guide to Classical Music** Chris Woodstra, Gerald Brennan, Allen Schrott, 2005-09 Offering comprehensive coverage of classical music this guide surveys more than eleven thousand albums and presents biographies of five hundred composers and eight hundred performers as well as twenty three essays on forms eras and genres of classical music Original **The Alexander Scriabin Companion** Lincoln Ballard, Matthew Bengtson, 2017-06-27 This unique collaboration between a musicologist and two pianists all experts in Russian music takes a fresh look at the supercharged music and polarizing reception of the Russian composer Alexander

Scriabin From his Chopin inspired miniatures to his genre bending symphonies and avant garde late works Scriabin left a unique mark on music history Scriabin s death centennial in 2015 brought wider exposure and renewed attention to this pioneering composer Music lovers who are curious about Scriabin have been torn between specialized academic studies and popular sources that glamorize his interests and activities often at the expense of historical accuracy This book bridges the divide between these two branches of literature and brings a modern perspective to his music and legacy Drawing on archival materials primary sources in Russian and recently published books and articles Part One details the reception and performance history of Scriabin s solo piano and orchestral music High quality recordings are recommended for each piece Part Two explores four topics in Scriabin s reception the myths generated by Scriabin s biographers his claims to synaesthesia or color hearing his revival in 1960s America as a proto Flower Child and the charges of anti Russianness leveled against his music Part Three investigates stylistic context and performance practice in the piano music and considers the domains of sound rhythm and harmony It offers interpretive strategies for deciphering Scriabin s challenging scores at the keyboard Students scholars and music enthusiasts will benefit from the historical insights offered in this interdisciplinary book Armed with this knowledge readers will be able to better appreciate the stylistic innovations and colorful imagination of this extraordinary composer

A Great Russian Tone-poet, Scriabin Arthur Eaglefield Hull,1916 A Great Russian Tone Poet Scriabin by Arthur Eaglefield Hull first published in 1916 is a rare manuscript the original residing in one of the great libraries of the world This book is a reproduction of that original which has been scanned and cleaned by state of the art publishing tools for better readability and enhanced appreciation Restoration Editors mission is to bring long out of print manuscripts back to life Some smudges annotations or unclear text may still exist due to permanent damage to the original work We believe the literary significance of the text justifies offering this reproduction allowing a new generation to appreciate it

Smook,2019-06-10 His fascinating exploration takes you inside the rich music and colorful lives of the world s greatest classical composers From Bach to Stravinsky and beyond you will learn how the unique life stories of these gifted composers are reflected in the musical masterpieces that we enjoy to this day Designed as an introductory book on classical music this comprehensive collection presents biographical snapshots of the major composers in the context of distinct historical and stylistic periods and in relation to their notable contemporaries Special attention is given to recognizing their prominent musical works The book delineates the many forms of instrumental and vocal music and it explores the basics of tonality musical structure performance criteria the orchestra and its instruments orchestration

chamber music and the cataloguing of musical works As well the newcomer to classical music will find advice on building a musical library This book is an excellent source of information about classical music in a unique and entertaining format It will help lay the foundation for a lifelong love of classical music through the great musical heritage of these fine composers

The Total Work of Art in European Modernism David Roberts,2011-12-15 In this groundbreaking book David Roberts sets out to demonstrate the centrality of the total work of art to European modernism since the French Revolution The total work of art is usually understood as the intention to reunite the arts into the one integrated whole but it is also tied from the beginning to the desire to recover and renew the public function of art The synthesis of the arts in the service of social and cultural regeneration was a particularly German dream which made Wagner and Nietzsche the other center of aesthetic modernism alongside Baudelaire and Mallarmé The history and theory of the total work of art pose a whole series of questions not only to aesthetic modernism and its utopias but also to the whole epoch from the French Revolution to the totalitarian revolutions of the twentieth century The total work of art indicates the need to revisit key assumptions of modernism such as the foregrounding of the autonomy and separation of the arts at the expense of the countertendencies to the reunion of the arts and cuts across the neat equation of avant gardism with progress and deconstructs the familiar left right divide between revolution and reaction the modern and the antimodern Situated at the interface between art religion and politics the total work of art invites us to rethink the relationship between art and religion and art and politics in European modernism In a major departure from the existing literature David Roberts argues for twin lineages of the total work a French revolutionary and a German aesthetic which interrelate across the whole epoch of European modernism culminating in the aesthetic and political radicalism of the avant garde movements in response to the crisis of autonomous art and the accelerating political crisis of European societies from the 1890s forward

Rachmaninoff's Recollections Oskar von Riesemann,2015-07-24 This book first published in 1934 contains the recollections of the varied and coloured life of a great pianist and composer who is one of the most striking figures of the musical world Rachmaninoff dictated his memoirs to the author of this book and much of the story is therefore told in the first person The final chapter is Riesemann's own contribution It is an estimate of Rachmaninoff's qualities as composer it shows knowledge of all his more important works and it shows discrimination The whole book is an authoritative and interesting study of a popular artist

Piano Music of Robert Schumann, Series I Robert Schumann,2013-03-27 Major compositions from period 1830-39 Papillons Toccata Grosse Sonate No 1 Phantasie Arabeske Bläserstücke and 9 other works Reprinted from Breitkopf and Härtel edition
