Chitkara,1999 **The Built Surface: v. 1: Architecture and the Visual Arts from Antiquity to the Enlightenment**

Christy Anderson, Karen Koehler, 2017-11-22 This title was first published in 2002 Since antiquity through to the present architecture and the pictorial arts paintings photography graphic arts have not been rigidly separated but interrelated the one informing the other and establishing patterns of creation and reception In the Classical tradition the education of the architect and artist has always stressed this relationship between the arts although modern scholarship has too often treated them as separate disciplines These volumes explore the history of this exchange between the arts as it emerged from classical theory into artistic and architectural practice Issues of visual representation perspective allegory site specificity ornamentation popular culture memorials urban and utopian planning and the role of treatises manifestos and other theoretical writings are addressed as well as the critical reaction to these products and practices This title represents a variety of methods approaches and dialectical interpretations cases where architecture informs the themes and physical space of pictures or pictorial concerns inform the design and construction of the built environment The exchanges between architecture and pictures explored by these authors are found to be in all cases ideologically potent and therefore significantly expressive of their respective social political and intellectual histories *Dogen's Extensive Record* Eihei

Dogen, 2010-03-10 Eihei Dogen the thirteenth century Zen master who founded the Japanese Soto School of Zen is renowned as one of the world's most remarkable religious thinkers As Shakespeare does with English Dogen utterly transforms the language of Zen using it in novel and extraordinarily beautiful ways to point to everything important in the religious life He is known for two major works The first work the massive Shobogenzo Treasury of the True Dharma Eye represents his early teachings and exists in myriad English translations the second work the Eihei Koroku is a collection of all his later teachings including short formal discourses to the monks training at his temple longer informal talks and koans with his commentaries as well as short appreciatory verses on various topics The Shobogenzo has received enormous attention in Western Zen and Western Zen literature and with the publication of this watershed volume the Eihei Koroku will surely rise to commensurate stature Dogen's Extensive Record is the first ever complete and scholarly translation of this monumental work into English and this edition is the first time it has been available in paperback This edition contains extensive and detailed research and annotation by scholars translators and Zen teachers Taigen Dan Leighton and Shohaku Okumura as well as forewords by the eighteenth century poet monk Ryokan and Tenshin Reb Anderson former abbot of the San Francisco Zen Center plus introductory essays from Dogen scholar Steven Heine and the prominent late American Zen master John Daido Loori

for teachers at all levels of higher education to use in classroom and seminar discussion about the issues of gender society and religion in imperial China Benjamin Elman author of *A Cultural History of Civil Examinations in Late Imperial China* The eighteen primary documents in this anthology all of them translated for the first time provide a rich array of sources on the lives of women in China's past The anthology is important not only for the selection of documents but for the ways it suggests we can think about and find sources about women in China It is must reading for scholars and students alike Ann Waltner author of *The World of a Late Ming Visionary Tan Yang Tzu and Her Followers* **The Innate Capacity** Robert K. C. Forman, 1998 This book is the sequel to Robert Forman's well received collection *The Problem of Pure Consciousness* Oxford 1990 The essays in the earlier volume argued that some mystical experiences do not seem to be formed or shaped by the language system a thesis that stands in sharp contradistinction to deconstruction in general and to the constructivist school of mysticism in particular which holds that all mysticism is the product of a cultural and linguistic process In *The Innate Capacity* Forman and his colleagues put forward a hypothesis about the formative causes of these pure consciousness experiences All of the contributors agree that mysticism is the result of an innate human capacity rather than a learned socially conditioned and constructive process The innate capacity is understood in several different ways Many perceive it as an expression of human consciousness per se awareness itself Some hold that consciousness should be understood as a built in link to some hidden transcendent aspect of the world and that a mystical experience is the experience of that inherent connectedness Another thesis that appears frequently is that mystics realize this innate capacity through a process of releasing the hold of the ego and the conceptual system The contributors here look at mystical experience as it is manifested in a variety of religious and cultural settings including Hindu Yoga Buddhism Sufism and medieval Christianity Taken together the essays constitute an important contribution to the ongoing debate about the nature of human consciousness and mystical experience and its relation to the social and cultural contexts in which it appears *Buddhism, Sexuality, and Gender* Jos? Ignacio Cabezn, 1992-01-01 This book explores historical textual and social questions relating to the position and experience of women and gay people in the Buddhist world from India and Tibet to Sri Lanka China and Japan It focuses on four key areas Buddhist history contemporary culture Buddhist symbols and homosexuality and it covers Buddhism's entire history from its origins to the present day The result of original and innovative research the author offers new perspectives on the history of the attitudes toward and of the self perception of women in both ancient and modern Buddhist societies He explores key social issues such as abortion he examines the use of rhetoric and symbols in Buddhist texts and cultures and he discusses the neglected subject of Buddhism and homosexuality **Buddhavacana and Dei Verbum** Michael Fuss, 2023-08-07 Challenged by the teaching of Vatican II about the seeds of the Word in non Christian religions this book investigates the sacred character of the Saddharmapitaka's Sutta and its relation to the fundamental theological category of scriptural inspiration In applying the methods of modern exegesis the Sutta in its ingenious composition is

disclosed as a religious drama about the inspirational experience of the Buddha The draft of a theology of inspiration along the guide lines of the Dogmatic Constitution Dei Verbum of Vatican II elaborates a christology of the Word as its core which allows an extension of inspiration in analogical manner to non Biblical scriptures The contrast of Christ the Word incarnate and Buddha the Inspired One offers a new contribution to an inter religious dialogue *Miracles of Book and Body* Charlotte Eubanks,2011-01-01 *Miracles of Book and Body* is the first book to explore the intersection of two key genres of sacred literature in medieval Japan sutras or sacred Buddhist texts and setsuwa or explanatory tales used in sermons and collected in written compilations For most of East Asia Buddhist sutras were written in classical Chinese and inaccessible to many devotees How then did such devotees access these texts Charlotte D Eubanks argues that the medieval genre of explanatory tales illuminates the link between human body devotee and sacred text sutra Her highly original approach to understanding Buddhist textuality focuses on the sensual aspects of religious experience and also looks beyond Japan to explore pre modern book history practices of preaching miracles of reading and the Mahayana Buddhist cult of the book

Swanson,Clark Chilson,2005-10-31 For updates online visit the Nanzan Guide site at Nanzan Library of Asian Religion and Culture The Nanzan Guide to Japanese Religions combines for the first time in any language state of the field theoretical and critical discussions with concrete resources students and scholars need to conduct research on Japanese religions Even seasoned scholars typically approach their research in an unsystematic manner becoming familiar with a particular area of inquiry while remaining largely unaware of what exists in the rest of the field This inefficient method hinders particularly less experienced researchers and circumscribes their lines of inquiry The Nanzan Guide provides both beginners and specialists with a reference that will serve as a basic introduction to Japanese religions and allow them to conduct research more proficiently and in greater depth Overlapping and thought provoking chapters written by leading specialists offer a variety of perspectives on the complicated and multifaceted field of Japanese religions The essays are divided into four sections religious traditions Japanese religions in general Shinto Buddhism folk religion new religions Christianity the history of Japanese religions ancient classical medieval early modern modern contemporary major themes symbolism ritual and the arts literature and scripture state and religion geography and environment intellectual history gender and practical essays finding references and using libraries working with archive collections conducting fieldwork A chronology of religion in Japanese history is also provided **Word Embodied** Halle O'Neal,2020-10-26 In this study of the Japanese jeweled pagoda mandalas Halle O Neal reveals the entangled realms of sacred body beauty and salvation Much of the previous scholarship on these paintings concentrates on formal analysis and iconographic study of their narrative vignettes This has marginalized the intriguing interplay of text and image at their heart precluding a holistic understanding of the mandalas and diluting their full import in Buddhist visual

culture Word Embodied offers an alternative methodology developing interdisciplinary insights into the social religious and artistic implications of this provocative entwining of word and image O Neal unpacks the paintings revolutionary use of text as picture to show how this visual conflation mirrors important conceptual indivisibilities in medieval Japan The textual pagoda projects the complex constellation of relics reliquaries scripture and body in religious doctrine practice and art Word Embodied also expands our thinking about the demands of viewing recasting the audience as active producers of meaning and offering a novel perspective on disciplinary discussions of word and image that often presuppose an ontological divide between them This examination of the jeweled pagoda mandalas therefore recovers crucial dynamics underlying Japanese Buddhist art including invisibility performative viewing and the spectacular visualizations of embodiment **The**
