women and intellectuals etc **The Tragedy of Liberation** Frank Dikötter, 2015-02-17 The Chinese Communist party refers to its victory in 1949 as a liberation In China the story of liberation and the revolution that followed is not one of peace liberty and justice It is first and foremost a story of calculated terror and systematic violence So begins Frank Dikötter's stunning and revelatory chronicle of Mao Zedong's ascension and campaign to transform the Chinese into what the party called New People Following the defeat of Chiang Kai-shek in 1949 after a bloody civil war Mao hoisted the red flag over Beijing's Forbidden City and the world watched as the Communist revolution began to wash away the old order Due to the secrecy surrounding the country's records little has been known before now about the eight years that followed preceding the massive famine and Great Leap Forward Drawing on hundreds of previously classified documents secret police reports unexpurgated versions of leadership speeches eyewitness accounts of those who survived and more The Tragedy of Liberation bears witness to a shocking largely untold history Interweaving stories of ordinary citizens with tales of the brutal politics of Mao's court Frank Dikötter illuminates those who shaped the liberation and the horrific policies they implemented in the name of progress People of all walks of life were caught up in the tragedy that unfolded and whether or not they supported the revolution all of them were asked to write confessions denounce their friends and answer queries about their political reliability One victim of thought reform called it a carefully cultivated Auschwitz of the mind Told with great narrative sweep The Tragedy of Liberation is a powerful and important document giving voice at last to the millions who were lost and casting new light on the foundations of one of the most powerful regimes of the twenty first century China's Second Revolution Harry Harding, 2010-12-01 China has since 1976 been enmeshed in an extraordinary program of renewal and reform The obvious changes the T-shirts blue jeans makeup and jewelry worn by Chinese youth the disco music blaring from radios and loudspeakers on Chinese streets the television antennas mushrooming from both urban apartment complexes and suburban peasant housing the bustling free markets selling meat vegetables and clothing in China's major cities reflect a fundamental shift in the government's policy toward the economy and political life Although doubts about the long term commitment to reform arose after the student protests in December 1986 and the dismissal of Party General Secretary Hu Yaobang in January 1987 the scope of reform has been so broad and the pace of change so rapid that the post Mao era fully warrants Deng Xiaoping's description of it as the second revolution undertaken by the Chinese Communist Party

Mao's Last Revolution Roderick MacFarquhar, Michael Schoenhals, 2006-08-18 The Cultural Revolution was a watershed event in the history of the People's Republic of China the defining decade of half a century of communist rule Before 1966 China was a typical communist state with a command economy and a powerful party able to keep the population under control But during the Cultural Revolution in a move unprecedented in any communist country Mao unleashed the Red Guards against the party Tens of thousands of officials were humiliated tortured and even killed Order had to be restored by the military whose methods were often equally brutal In a masterly book Roderick MacFarquhar and Michael Schoenhals

explain why Mao launched the Cultural Revolution and show his Machiavellian role in masterminding it which Chinese publications conceal In often horrifying detail they document the Hobbesian state that ensued The movement veered out of control and terror paralyzed the country Power struggles raged among Lin Biao Zhou Enlai Deng Xiaoping and Jiang Qing Mao's wife and leader of the Gang of Four while Mao often played one against the other After Mao's death in reaction to the killing and the chaos Deng Xiaoping led China into a reform era in which capitalism flourishes and the party has lost its former authority In its invaluable critical analysis of Chairman Mao and its brilliant portrait of a culture in turmoil Mao's Last Revolution offers the most authoritative and compelling account to date of this seminal event in the history of China

China Under Mao Andrew G. Walder, 2017 China's Communist Party seized power in 1949 after a long period of guerrilla insurgency followed by full scale war but the Chinese revolution was just beginning China Under Mao narrates the rise and fall of the Maoist revolutionary state from 1949 to 1976 an epoch of startling accomplishments and disastrous failures steered by many forces but dominated above all by Mao Zedong Mao's China Andrew Walder argues was defined by two distinctive institutions established during the first decade of Communist Party rule a Party apparatus that exercised firm sometimes harsh discipline over its members and cadres and a socialist economy modeled after the Soviet Union Although a large national bureaucracy had oversight of this authoritarian system Mao intervened strongly at every turn The doctrines and political organization that produced Mao's greatest achievements victory in the civil war the creation of China's first unified modern state a historic transformation of urban and rural life also generated his worst failures the industrial depression and rural famine of the Great Leap Forward and the violent destruction and stagnation of the Cultural Revolution Misdiagnosing China's problems as capitalist restoration and prescribing continuing class struggle against imaginary enemies as the solution Mao ruined much of what he had built and created no viable alternative At the time of his death he left China backward and deeply divided Publisher

Mao and the Chinese Revolution Yves Chevrier, 2004-08 It has been more than a century since the birth of Mao Zedong From the collapse of the old Chinese Empire in 1912 to the foundation of the People's Republic in 1949 his history is linked with that of contemporary China and with the history of world communism as well His version of guerilla warfare and revolution resulted in the construction of a socialist society that became a model of socialism throughout the world Both a tyrant and rebel Mao wanted to rule through revolution Yet the Big Leap Forward 1958 and the Cultural Revolution 1966 plunged China into chaos without saving it from totalitarianism After 1978 de Maoisation and economic reforms by Deng Xiaoping helped heal the country's wounds but the future remains uncertain Whether China should be an empire united or broken serenely open or in conflict democratic or authoritarian egalitarian or prosperous so many lingering questions remain of those that Mao and his generation began asking nearly a century ago Was the Maoist Revolution futile Would China have been better off without Mao and is such a thing imaginable

Mr. Science and Chairman Mao's Cultural Revolution Darryl E. Brock, Chunjuan Nancy Wei, 2012-12-14 China is emerging as a new superpower in science and technology reflected in the success of its spacecraft and high velocity Maglev trains While many seek to understand the rise of China as a technologically based power the Cultural Revolution of the 1960s may seem an unlikely era to explore for these insights Despite the widespread verdict of the Great Proletarian Cultural Revolution as an unmitigated disaster for China a number of recent scholars have called for re-examining Maoist science both in China and in the West At one time Western observers found much to admire in Chairman Mao's mass science his egalitarian effort to take science out of the ivory tower and place it in the hands of the disenfranchised peasant the loyal worker and the patriot soldier Chunjuan Nancy Wei and Darryl E Brock have assembled a rich mix of talents and topics related to the fortunes and misfortunes of science technology and medicine in modern China while tracing its roots to China's other great student revolution the May Fourth Movement Historians of science political scientists mathematicians and others analyze how Maoist science served modern China in nationalism socialism and nation building and also where it failed the nation and the Chinese people If the Cultural

Revolution contributed to China's emerging space program and catalyzed modern malaria treatments based on Traditional Chinese Medicine it also provided the origins of a science talent gap and the milieu from which a one child policy would arise Given the fundamental importance of China today and of East Asia generally it is imperative to have a better understanding of its most recent scientific history but especially that history in a period of crisis and how that crisis was resolved What is at issue here is not only the specific domain of the history of science but the social and scientific policies of China generally as they developed and were applied prior to during and after the Cultural Revolution
